EING & FRANKLIN'S CIRCUS.

The Attaches Have a Big Fight With Negroes

in Barilogton, N. J. The King & Franklin circus, which is it Lancaster to day, appeared at Burlington, N. J , la ! evening, and the attaches had a hig fight with a lot of colored local toughs. The row was started by a negro trying to steal his way under the canvas. Pistols and black jacks were freely used and several of be principals were seriously injured. Two showmen, named Haves and McCutcheon seceived pistol shots in the legs. Harry Metcalf, colored, 21 years of age, was sho in the back, the ball passing through his body and lodging in his arm. He also received a bad wound in the head. It is thought his injuries will prove fatal. But two arrests have been made, several of the circus people making their escape by boardng a passing freight train. Hayes and Me-Cutcheon, the two showmen that received pistol shots, have been lodged in the jall of inst city. Their wounds are not considered serious. They are canvasmen. The people with the show told a reporter of the

The above circus arrived in Lancaster about 8 o'clock this morning. The jump was a very large one and in consequence their arrival was late. The tent was pitched in the southern end of the ground enclose by the race track at McGrann's park. The show is not as large as many that have ap peared here, but their stock and everything else looks very well. The park was crowd ed with small boys all day, who were anx-ious to see every thing possible free. Owing to the late arrival of the show it was impossible to give a street parade. Ose of the principal men with the circus is Andy Showers, & Lancaster man. He is a juggler, sword swallower and performer of trained animals. He was born and raised in Lancester, but his parents have been dead some years. He was a brother of the late George H. Showers, who during his lifetime was connected with the IN-TELLIGENCER office. When quite young Andy showed a fondness for the show business, which he has followed it for many years. It has been 16 years since he was ast in this city, and during that time he has traveled all over this country, Mexico and South America. He is a performer of acknowledged ability and well known in the profession. This morning he took a walk around the city, and saw many old triends who were glad to take him by the band. Mr. Showers has one sister in Lancaster. Another Lancaster man with the show is George Schaum, who does leap ing and is quite a clever performer. This morning an accident occurred at the park grounds which might have proved fatal. The circus men were busy hauling the tent and other fixtures to the grounds from the railroad. On one of the large wagons, bealdes the driver, was seated a canvasman. The latter did not see the large cross plece over the gateway leading from the main ground to the racing track. As the wagon was very high he was caught between its top and the cross bar and was so badly aqueez d that he was laid out for a
