"DEAR HARRISON, BON'P TALE."

If den Harrison goss on making speeches
iverybody who pulls his latch string the
iverybody who pulls his latch with the gubernatorial fever!

A game-eyed manager he had,
A model he of managers,
Whose face and neck sun-burned as red
As any scarlet tanager's :

This game-eyed manager once wrote
To him of the game-leg walk
This very diplomatic note:
"Dear Seaver, do not talk!"

—From the New York World

A New Kind of Sotler.

A very successful exhibition was given in Washington, on Wednesday, in the presence of a number of government officials and others versed in mechanics, of the practical Working of a new and novel steam generator—unique in design, and altogether a new departure in steam policy construcion. This new generator is of the sec-ional type and, what appears to be an ano-naly, is a tubular boiler without tubes. A maly, is a tubular bolier without tubes. A plate of metal is so corrugated that when folded and riveted together it forms a vessel consisting of connecting channels, resembling manifolds and tubes, but without the joints inevitable when pipes are united in the usual way; so that in abolishing the joints the places for leakage and annoyance are avoided. The generator comprises five sections, has three square of grate surface and 75 square feet of heating surface, occupies a space of 4½ feet long, 1½ wide, by four feet high, and weighs about 1,800 pounds. It was invented and designed by Mr. I. Mckim Chase, a well-known master mechanic of that city, to meet the demands of progressive use of steam of high pressures, especially in the marine practice, where progress is somewhat retarded by the want of a suitable safe boiler. Mr. Chase claims this generator meets this want better than any other, because it can be made self-contained and avoiding necessity of brick settings. The sections have been subjected to an hydrostatic pressure of six hundred pounds per square inch without showing a sign of weakness, and it is said that 1,000 pounds will not rupture them.

Steam was raised from cold water in 20 minutes, and to 200 pounds in 30 minutes.

Steam was raised from cold water in 20 minutes, and to 200 pounds in 30 minutes. Like the Light Weights Of the profession pugilistic, the kidneys are small but active in a state of health. Their secretion contains impurities productive of theumatism, gout and dropsy, if allowed to rheumatism, gout and dropsy, if allowed to remain. When they are inactive, the blood becomes choked with animal debris capable of destroying life. To promote their activity when sluzgish with Hostetter's Stomach Bitters, is not only to guard against the diseases mentioned, but to prevent the fatty degeneration and ultimate destruction of the organs by those exe edingly dangerous maladies—Bright's disease and diabetes. Activity of the bladder also insures it against the formation of gravel, which it sometimes requires one of the most dangerous and painful operations in surgery to remove. Gravel, moreover, is a most agouizing complaint. The Bitters further commend themselves by remedying constipation, lyspepsia, debility, liver complaint and nervousness, and nullify influences productive of malarial disease.

Is about thirty thousand, and we would say at least one-half are troubled with some affection of the Throat and Lungs, as those complaints are, according to statistics, more numerous than others. We would advise all not to neglect the opportunity to call on their druggist and get a bottle of Kemp's Balsam for the Throat and Lungs. Price Sce and \$1.00, Trial size free. Sold by all druggists. SPECIAL NOTICES.

Reducing the Surplus.

The disposition of the surplus in the U. S. treasury engages the attention of our statesmen, but a more vital question has our attention, and that is the reduction of the Surplus Consumptives. Since the discovery and introduction of Pr. Eing's New Discovery for Consumption, there has been a marked decrease in the mortality from this dreaded disease, and it is possible to still further reduce the number of consumptives. How? By keeping constantly on band a bottle of Dr. King's New Discovery and using according to directions, upon the appearance of the first symptoms, such as a Couch, a Cold, a Sore Throat, a Chest, or bids Pain. Taken thus early a cure is guaranteed.

WARM WAVES.

WARM WAVES

Are rolling in. You can't escape them; but you can escape the alsepless nights, loss of appetite, and languid feeling that result from draining the nervous force by muscular or mental exertion in summer's torrid days. The use of Paine's Celery Compound, that great nerve tonic, will at once strengthen the nervous system, and fortify it against the attacks of summer debility. This preparation is a medicine—not a drink. It is a scientific combination of the best tonics, giving lasting benefit to body and brain. It cures all nervous diseases, and has brought new life and health to thousands whose weakened nerves were the cause of their many ills. It is especially valuable at this season, when feeble persons are so liable to sunstroke, a disease which is nearly always fatal. Paine's Celery Compound, by restoring perfect health, almost entirely removes the liability to this dread disease. If you feel the effects of summer's heat, you can't afford to delay another day before gaining the vitality only obtained by this great medicine. Sold by Draggists. Six for \$5.00.

YER'S SARSAPARILLA.

THE OLD DOCTORS

Drew blood, modern doctors cleanes it; hence the increased demand for Alteratives. It is now well known that most diseases are due, not to over-abundance, but to impurity of the Blood; and it is equally well attested that no blood medicine is so efficacious as Ayer's sar-saparilla.

"One of my children had a large sore break out on the leg. We applied simple rem-dies, for a while, thinking the sore would shortly heat But it grew worse. We sought medical advice, and were told that an alterative medi-dice was necessary. Ayer's Sarsapartila being
