WATCH REPAIRING. WATCH REPAIRING

A Watch is the most delicate and intricate piece of mechanism made by man, and the one that receives the least attention. Your steam that receives the least attention. Your steam engine, your wagen receives more. It is an established fact that there are more watches ruined by the average watch Mepairer than by the Watch Carrier.

We have a Watch in our possession made by the undernigned; this, coupled with an EXPERIENCE OF SIGHTER YEARS AT THE BENCH, enables us to turn out work of the Highest Grade at reasonable prices and with salisation to our customers.
