Be Uses Brass Enachies on Observant Councilmen. With Blassiress Messit.

A diagraceful econe cocurred is the council chamber in Cincinnati on Wednesday afternoon. When Councilman Inloss, of ward 37, came in he pawed Rajor Betty, of the Gasette, on the head and wanted to rub off a black spot. The major grew angry, but eaid nothing. When Councilman Koshler, of ward 12, came in he addressed a jocce remark to Betty, and the latter alapped him in the face. Just then Inloss came up again and Betty hit him, pulling outs pair of brass knuckles and cutting a deep gash in the back of his head and bruising his face in a shouking manner. Blood poured out in streams. Other councilmen interfered, and instantly the chamber was in a terrific uproer. The police were called, and it was some time before passes was restored.

Daring the fraces. Betty hit Councilman.

During the freeze Betty hit Councilman Hein, of ward 13, a terrific blow in the eye which may result seriously. Major Betty raved like a madman. He was finally cooled down, but said next time be would have his revolver with him and shoot to kill.

hill.

Councilmen Inloce at once swore out a warrant for Betty. The latter gave bond in the sum of \$300. Betty has for years reported council, and has come to sit among the members and not as one of them, frequently taking members to task for their votes and often joining in discussions.

A Decree from Mome.

Roman cablegram to the New York Catholic News announces that a decree from the holy office on the Knights of Labor question has been forwarded to Cardinal Gibbons. It will be remembered that in April, 1887, his holiness, concurring with the ideas set forth in the letter of with the ideas set forth in the letter of Cardinal Gibbone in favor of the knights, decided that there was no cause for action. The pope also decided that in Canada, where a mandament had been issued against the knights, the members of the order could receive absolution on promise of obedience to future decisions of the Holy See. The matter having been piaced before the holy office, this decree is the result. It estiles for good the question as far as Rome is concerned—proviced, of course, that the concerned—proviced, of course, that the constitution and aims of the order remain the same.

Men and Women's Bones,

Men and Women's Bones,

Joints and muscles may escape the agonizing tortures of rheumatism if they will but "take time by the forelock," and annihilate the symptoms of oncoming trouble with the benignant and highly sanctioned blood depurent and alterative, Hostelfer's Stomach Bitters. Polsons mostly constitute the ordinary means of battling with this atvocious complaint. Avoid the risk of using these by resorting to the safe as well as effectual anti-philogostic and preventive. After exposure to damp, through drafts and other causes which encourage a rheumant tendency, a wineglassful of the Bitters prevents if effects. No surer preventive of malarial ailments like fever and ague, billous remittent, dumb ague and ague cake exists, and it is, besades, a most genial recuperator of strength exhausted by excessive mental or physical effort. Miners, mariners, operatives and others whose avocations involve liaborious work in rough weather out of doors, or close application indoors, find it invaluable.
