would be well if the Republican and representatives could reach amon opinion upon various vital ical matters, beside the tariff. It cer alaly forbodes no good to their party that aders stand in such great disagreeat as to what should be the political ey of the country in so many direc-They can hardly expect the people put a party in power that does not notes of the day.

ary unfortunately for the Republicans, Congress remains in session after mal convention has made its nes. This is an unusual situation, at bids fair to ruin the Republican limited protection, but whose representalives in Congress wholly fail to formulate a law to do what the convention says

Toe Republicans of the House desounced the bill prepared by the Demosales, but during weeks of discussion saled to prepare and propose a bill of helrown, and permitted the Mills bill to passed without a Republican meas-being set off against it. Then

bill went to the Senate, and Republican senators declared that would frame a bill; which was et indictment of the Republicans of the House, because all revenue sures lawfully originate in that body; but the performance of the senators has been long awaited and the promise is not falfilled; nor is there sign of fulfillment; ad they now intimate that they may at until after election. Such delay will equivalent to failure, in itseffect upon the popular mind. To prevent Republian escape from responsibilty for nonstion, the Democratic congressmen are inwilling to adjourn until the senators ent their bill or declare that they we none to present; unpleasant as it is to wait in Washington while their conmencies need them at home. It happens, fortunately for the Demoeratic party, that these issues are made by their national administration, which proves to be as wise as it is courageous, and consequently carries its party with it and gets it safely under cover, while the Republican chickens are red about, without a hen. Their es cannot agree. Blaine, with a earty regard for the Maine railroads, es the president's retaliatory policy. John Sherman, with like fervent ad leanings, does the same, and thinks it entirely too severe a punishment upon Canada for stopping our fish in transit, that she should be deprived of a traffic that has amounted in six years to two hundred and seventy millions of dolars; and he is so amiable and loving wards Canada that he wants a union wish her and does not want to do anything to aggravate her feelings or that will ne the happy day when we will b government and one people Amotic. And when the Republicans get settled upon their tariff and Canadian policy, they will still have to make up their minds what they will do about trusts, which, it is true their platform de nounces, but which their apostle declares not to be a proper issue in a national campaign, but to be a state affair and not altogether bad, anyway.

A party is to be sincerely pitled whose platform gets so badly ripped, as soon as it is promulgated, through the sad accident that its leader is in Europe and does not know, or care, when he comes home, what the sub-leaders have beendoing and saying in his absence; and which is caught with a Congress in session wherein its representatives are brought to book upon the platform declarations and called upon to; redeem them with their legislation. There never was, since the country started on its political life, a party so badly rattled by its fate and faith, or rather its lack of faith, as the Republican to-day.

They All Want Him.

Mr. O'Neill, Republican, of Phila delphia, announces in Congress that Mr. Randall is about to be renominated unanimously by the Democrats of his district. Mr. O'Neill seems to think that is remarkable; he does not appreciate the ease with which Democrats get together when the enemy is in front. Mr. O'Neill made a more notable statement in declaring that Mr. Randail would have no Republican opposition. Such unanimity of political support is very complimentary to Mr. Randall, showing that he is a true representative of his immediate constitu-

THE London Trades Journal says that within the last six months the leading ship owning firms in London have been losing faith in steel ships. It says: "We have made a point of consulting a number of naval architects and marine engineers, and have to admit that a majority have unhesitatingly told us that, in the light of experience, they prefer Midland and Yorkshire iron for ship building purposes to either Cumberland, Durham or Lanarkshire mild

DEMOCRATIC members of the House of Representatives held a caucus on Tuesday night and decided not to adjourn until the Senate made known its intentions concerning the tariff. The congressmen are anxious to leave Washington to look after their fences, but when the Republican members ace their constituents and are saked what they have done to reduce taxation, the true answer must be: "We have not tried to take any burdens from your shoulders."

THE Parnell inquiry started out with five hundred reporters present, and hopes to get at the truth. No wonder the Judges are said to feel the prominence of their position. It takes a brave man to face five hundred

"BE quick or your dead" is the title of Western romance about a road agent.

Ir is said that several of the young Republican stump speakers have plagrarized in some of their speeches delivered in this county. They have however shown good judgment in refraining from using Blaine's trust speech as their own. Plagiarism is a polite name for what is really theft, and our young Republican friends come naturally by the falling, which is prevalent among their leaders; and a little matter like bolting a second-hand speech will not disturb the peculiar appetite of Lancaster county Republican audiences. Congressman Springer recently set an example of honesty and frankness in this respect worthy of commendation and general adoption. Mr. Springer, having been importuned for information on the subject of free quinine, asked his nephew, the clerk of the committee on territories, to investigate the matter and prepare a written statement. This was done and Congressman Springer asked and obtained leave to print the statement, not as part of his own speech, but as the result of his clerk's investigation.

ACCORDING to the report of the com missioner of pensions just issued there are 1,250 pensioners in Lancaster county, and they draw every three months from the government \$43,225.25. There are 452,557 pensioners of the United States and they are paid every quarter \$13,832,697.

SENATOR MITCHELL Intimated very strongly in the Senate the other day that Senator Morgan, of Alabama, was accustomed to enter the Senate in a drunken condition and diagrace it. It was a beauty thing to say unnecessarily, even if there had been some foundation for it; but it seems that it was wholly baseless, as Senstor Morgan's fellow senators have united in tostifying that they have never seen him under the influence of liquor. Mitchell in that is proved to be a lying hound; which, however, hardly needed fresh proof.

MR QUAY is said by an interviewer, who met him in his Beaver home, to have declared that New York and Indiana were very doubtful and to have shown himself by no means sanguine of the result. This interview having been published, Mr. Quay on being interviewed again says that it was all wrong; that he did not say that he was doubtful about New York and Indians, but that they were doubtful states, as every one knows, and that he was hopeful; or to that effect. It is somewhat hard to get the difference in Mr. Quay's shades of meaning, but we understand him to say that he means to be misunderstood to declare his belief that New York and Indiana are doubtful, but that he is hope ful; and that he never will dispair or give up the ship of which he is captain, while life lasts, or a rag or a plank is left. Quay does not quall.

THE report of the exports of beef, hog and dairy products in August shows a total some six hundred thousand dollars below the exports of August 1887. Beef and hog products show a small gain, but the dairy products have not been so largely exported. PERSONAL.

ROBERT E. McConnell, a Republican committeeman of Warsaw, N. Y., has declared for Cleveland and tariff reform. COLONEL JAMES DOUGHERTY, died suddenly, at his home in Boiling Springs, Cumterland county, on Tuesday. He was a member of the let Pennsylvania Reserves during the war. He was prominent in Grand Army circles.

Miss Eva Pemberthy, of Canton, O., well educated and wealthy, went to Pittsburg a few weeks ago to obtain experience as a nurse. While at one of the hospitals she witnessed a surgical operation which unbalanced her mind, and she was taken home a raving maniac.

home a raving maniac.

DR. EDWARD BOECKMANN, a prominent Norwegian physician of St. Paul, and one of the best posted Scandinavian students of political economy in Minnesota, has announced his intention of supporting Cleveland and Thurman. He says: "Il am in hearty sympathy with the Democratic demand for lower taxes and the pledges made by that party in Minnesota to strive for them." Dr. Boeckmann has long been a Republican, and is at present on the staff of Governor McGill. He is a man of ibituence, and his manly stand for the cause of tax reform and horsest government will attract widespread attention.

Eugene D. Johnson, a young colored
man of Detroit, recently wrote to Judge

Thurmen, and in the course of his letter incidentally referred to an expression made use of by Judge Thurman in his Port Huron speech, suggesting that it had been interpreted as a reflection, although the writer was thoroughly convinced that it was not so intended. Judge Thurman replied as follows:

COLUMBUS, O., Sept. 16, 1888.—To Eugene D. Johnson, seq., No. 11, West Congress street, Detroit, Mich.—Dear Sir: Your very interesting letter of the 29th Dit. was received just before starting for New York, and being so engaged with other matters at that time, I found it impossible to reply. I certainly never intended to use the expression in an offensive sense, The idea meant to be conveyed was that the negroes were a prolific race, and to show that they not only had but would continue to increase when it had been prophesied that after slavery the race would deteriorate and finally die out. Statistics prove this to be so, and the remark was intended as commendatory instead of the way in which it has been interpreted. I see, though, it was an unfortunate expression, and it will be hard to make people, either white or black, comprehend as clearly as you evidently do. I shall certainly keep your letter as an example of the intellectual growth of your race. Yours truly, A.G. THURMAN.

OUTICURA REMEDIES SORE FROM KNEE TO ANKLE

For three years I was almost crippled with an awful sore leg from my Ence down to my ankie; the skin was entirely gone, and the fiesh was one mass of disease. Some physicians pronounced it incurable. It had diminished about one-third the size of the other, and I was in a hopeless condition. After trying all kinds of remedies and spending hundreds of dollars, from which I got no relief whatever. I was persuaded to try your CUTi-CU dA REMEDIES, and the result was as follows: After three days I noticed a declared change for the better, and at the end of two months I was completely cured. My fissh was purified, and the bone (which had seen expected for over a year) got sound. The fisch began to grow, and to-day, and for nearly two years part, my leg is as well as ever it was, sound in every respect, and not a sign of the disease to be seen.

Terrible Suffering from Skin Disease. I have been a terrible sufferer for years from diseases of the skin and blood, and have been obliged to shun public places by reason of my disfiguring humors. Have had the best of physicians and spent hundreds of dollars, but got no relief until I used the GUTICUE A REM 5. DIEs, which have cured me, and left my skin as clear and my plood as pure as a child's.

Constitutional Catarrh.

No single disease has entailed more suffering or hastened the breaking up of the constitution than Catarrh. The sense of smell, of taste, of sight, of hearing, the human voice, the mind, one or more, and sometimes all, yield to its destructive influence. The poison it distributes throughout the system attacks every vital force, and breaks up the most robust of constitutions. Ignored, because but little understood, by mest physicians, impotently assailed by quacks and charlatans, those suffering from it have little hope to be relieved of it this side of the grave. It is time, then, that the popular treatment of this terrible disease by remedies within the reach of all passed into hands at once competent and trustworthy. The new and hitherto untried in ethod adopted by Dr. Fanford in the preparation of his Habical Curs has won the heastly approved of thousands. It is instantaneous in affording raise in all head colds, smeeting, anuffling and obstructed breathing, and apidly removes the most oppressive symptoms, clearing the senses of smell, taste and hearing, and neutralizing the constitutional tendency of tee disease towards the lungs, liver and kidneys.

Sanyond's Habical Curs consists of one bottle of the Rabical Curs, one box of Catarshila Eculvent, and Improved Inhales; price, \$1.
