'Annihilating a Multiform Disease. Miasmatic, or malarial, disease has many forms. Physicians have, for the sake of convenience and for the purpose of indicating its est strongly marked forms, subdivided it into intermittent and bilious remittent fever, dumb intermittent and bilious remittent fever, dumb ague and ague cake. But it presents an infinite variety of symptoms in different individuals. Be these symptoms what they will, always remember that Hostetter's Stomach Bitters will annihilate them at the outset, and prevent their recurrence. A review of the proofs would convince any one of the fact. This, however, is impossible because they are too numerous, and unnecessary because the effects of this grand anti-malarial specific are a matter of common knowledge. No less familiar to the public are its remedial and preventive effects in bilious attacks, constipation, dyspepsia, incipient rheumatism, debility and kidney troubles. It is moreover, an excellent appetizer and tonic nervine.
