HOW THE BETTING GOES

Ancaster Democratic Load of Down With
Money to Bet on Cieveland.

The Democratic betting men of this city
have never been in as good spirits as they
are at the present time. They have any
quantity of money to bet on Cieveland, but
the Republicans seem to have been tet
to a standstill. To-day Democrate
were running all over town looking
for takers for their money. Several
Republicans pretended to be sextous to bet and one did put up \$200,
after he found he could not get away without gotting the laugh. Others produced
money, but put it back. One of the prominent Republican betting men in the town
admitted that he could show no more
money, and said he had no more to bet. At
one place the Democrate had \$2,000 and a:
two others there were \$1,000 each and there
were a number of gentlemen who had \$500.
This was sill ready; to be placed on Cleveland,
but the Republicans did not come up.

A well known Republican of this city
went to New York the latter part of last
week, taking \$1,000 which he wanted to bet
on Harrison. Upon arriving there he found
that everybody he met was for Cleveland;
he came back to Lancaster without betting.
Since his arrival here a Democratic friend
asked him to take a bet on Cieveland. The
other replied: "I am a Republican and
will vote for Harrison, but I want to bet on
Cleveland, as he will win."

The betting continues in favor of Cleveland everywhere. In Leadvillo yesterday,
as will be seen by our telegraph column,
odds of 2 to 1 were given on him.

A telegram from New York this afternoon states that the betting is in favor of
Cleveland. A Philadelphia broker firm
telegraphs here that they have \$5,000 to bet
on Cleveland.

The chairman of the national campaign committee, Colonel Brice; Mr. Murths, the chairman of the Democratic state executive committee: Judge Power, on behalf of the County Democracy, and Commissioner Croker, on behalf of Tammany Hall, have entered into a formal agreement placing the direction of affairs at the polling places with reference to the national and state lights in the hands of a committee of gene tickets in the hands of a committee of gen-tiemen selected by all of them, which is to remain in permanent session at the St.

distributed, and to act with full authority upon any complaints made during the day. This very important arrangement makes the action of the party at the polls on the general nominations just as much a unit as if there were no local contest. It puts an end to all possibility of trading or other practices in jurious to the national ticket. It will be carried out vigorously and in absolute good faith.

The Republican party has passed high licenselaws in several states and prohibitory laws in several others; in fact, every temperance law on the statute books of any state is of Republican origin. For doing this it is now assalled by the combined forces of the Democrats, the saloon keepers and the Prohibitionists. These are facts for reasoning men to ponder over before they approach the polls on the 6th of No-

Prevented From Voting.

The Republican aldermen of Newport, R. I., have struck from the voting list the name of Colonel A. Prescott Baker, one of the heaviest taxpayers, because he had an-nounced that he intended to vote for Cleveland and Thurman. Colonel Baker was formerly a Republican. He will be unable to vote, but the city will lose more than he.

The attendance was very large. Services were conducted by Rev. C. Elvin Houpt, and the interment was made at Lancaster Country.

The Republicans are circulating hand-bills in Indiana stating that English firms are underbidding Americans for contracts for iron work, and "that any reduction in the present tariff on this class of work means the closing up of every American foundry engaged in it." J. H. Bass, of Fort Wayne, who employs 2,200 men in his iron works, and is an enthusiastic tariff reformer, says that the statements are reformer, says that the statements are utterly false.
