Mr. Riddle presented the petition of residents of the West End, praying that, in order to have better accommodations for getting to the center of the city, the Hillsville street railway company be permitted to lay a second turnout, that they may thus have a turnout at the intersection of one to the western terminus of the city, and Mr. Riddle offered a resolution granting permission to put in a new turnout at the intersection of the city streets.

A discussion arose as to whether the railway company would comply with the city ordinance regulating street railways, and Mr. Riddle had been assured they would comply.

Mr. Hensley moved to lay the resolution on the table, which was adopted.
