The Car Stove. The Railroad Gazette publishes a lis ads that have made some slight ere in the direction of steam heating of The New York Central & Had-River road heads the list with many mins fully equipped with a satisfactory tem of heating from the engine. The timore & Ohio has two experimental rains and the Central Vermont one, while or famous Pennsylvania railroad, which lims to lead the country in the best of nodern improvements, has not a steam sented train to boast of.

Some cars have iron cages around the stove, but it is a sad fact that the fast and wowded trains that pass through this city daily on the main line of the Penncylvania system show no progress since last winter, and many cars have only the rotected stove.

It looks very much as though a great disaster and the cremation of a few score of passengers will be needed to hasten the Pennsylvania men. The excuse appears to be that a steam coupler should be adopted by all the roads so that cars using different systems could be readily united in the same train. A meeting of railway men was held in New York not long ago for the express purpose of com-ing to an agreement on this point, but there happened to be several stubborn engineers who had ideas of their own and the conference came to nothing. If any lives should be lost through the car stove on the lines represented at that conference the men who spoiled its work will have a large share of the responsibility.

nov56tda. U.S. HOFFMAN, Executor. HOOD'S SARSAPARILLA.

Is a complaint which affects nearly everyboly, more or isse. It originates in a cold, or succession of colds, combined with impure blood. Diagreeable flow from the ness, tickling in the throat, offensive breath pain over and between the eyes, ringing and bursting noise in the ears are the more common symptoms. Catarrh is cured by Hood's barssparilla, which strikes directly at its cause by removing all impurities from the blood, building up the diseased tissues and giving healthy tone to the whole system. Hundreds of testimonials prove beyond question that a positive cure for catarrh is found in

Hood's Sarsaparilla "For 2) years I have been troubled with cature h in the head, indigestion, and general debility. I concluded to try a bottle of Hood's Sarsaparilla, and it did me so much good that I continued its use till I have taken five bottles. My heatth has greatly improved, and I feel like a different woman." Mas. J. B. Adaws, 8 Bichmond, street, Newark, N. J. "I feel it my duty to say that I saw Hood's Sar-spartila advertised and took two bottles. I am completely cured of irregularities and constipation of my bowe's, calarth and bron-chiel affections." H. H. Dungan, Atlantic

very common affection, catarrh in the head. The foul matter dropping into the bronchist tubes or lungs is very liable to lead to bronchitis or consumption. As catarrh originates in impurities in the blood, local applications can do but little good. The common sense method of treatment is to purify the blood, and for this purpos there is no prepiration superior to Hood's Sarsaparilla. The powerful action of th's medicine upon the blood expels the scrofulous taint which feels and sustains catarrhal disease, while it tones and builds up the affected membrane. Cures Catarrh.

"I had the worst symptoms of chronic catarrh for two years. So troublesome was it that I could not smell nor tasts. I found Hood's Sarsaparilla a speedy cure, and I am now free from this awful disease." J. H. Saw-Mis, Bay Shore, N. Y.
