Results of an Equitable Toutine Policy. On September 15, 1873, the Equitable Life As-mrance Society issued policy No. 84 715 on the life of a resident of New York, who was then thirty years of age. It was a life policy, payable in fifteen annual payments, and was issued on the Tontine plan. The annual premium was \$257.60, and the total premiums for filten years expected. fitteen years amounted to \$5,364

Here is the result September 15, 188: A cash value of \$6,567.73. This is a return in cash to the policy-holder of \$122.45 for each \$100 paid by him in premiums, and is in addition to the protection furnished to his family of \$10,000 of assurance during the fifteen years. Or, he could have taken a paid-up policy of \$15,860.

This would secure a return in cash to the policy-holder's heirs of \$255.70 for each \$100 paid by him in premiums.
