

A LOCK WORKS BURNED.

FLAMES DO DESTRUCTIVE WORK ON SUNDAY NIGHT.

E. F. Fraim's Establishment on Park Avenue in Lancaster, Pa., was destroyed by fire on Sunday night.

The building was of brick with two stories and a basement. It was 30x70 feet. It was situated on the corner of Park Avenue and North Second Street.

The fire was discovered about 11 o'clock, and among the first on the ground were Harry Knapp, Charles Weaver, Special Officer E. F. Fraim, and others.

The origin of the fire is a mystery. For five years past there has been no fire in the building for heating purposes. Steam has been used during the winter.

Although the building was so badly wrecked up, the safe and all the books, papers, etc., in the office were saved.

HOW TO CARVE A TURKEY.

Study These Points on the Quiet Before Your Christmas Dinner.

Very few heads of families or members of a household in any capacity can carve a turkey. It is a science, and it has been claimed that carving is an art, but there is little doubt that a few points on the carving of a turkey will be of great benefit.

The turkey should not be divided till the breast is disposed of, but if it be thought proper to divide, the same process must be followed as for the fowl.
