Columnia, Jan. 11.—A very pretty wedding was that on Thursday alternoon in traity Reformed church, the contracting action being Harry M. Hall, of Philadelais, fermerly in the employ of the Chestet Hill Iron Ore company, and Miss Ids. DeHuff, daughter of George DeHuff, a preminent merchant of this place. The redding party entered the church to the mate of Mendelssohn's "Wedding March," played by Miss Jennie Ciever, of Cleversburg. The ceremony was performed by Rev. J. H. Pannebecker, pastor, assisted by Rev. U. Clever, of Baitimore, a former pastor of Trinity church. The bride wore a handsome London smoke color faills wedding drem, decorated with handsome bouquet of Marcchai Neil rises. The usherswere Messrs. George S. Steinhouer, Reading; George Diffenderfer, Reading; Relvard Kauffmau, Mountville; Joseph Ilgenfritz, York. After the ceremony a reception was York. Henry Aument, an employe of the P. R. L. freight transfer, met with a serious accient this morning about 2 o'clock, while siping to move a casting from one car to nother. The casting was loaded on a truck, and in going up a plank caused the lank to tilt which threw the casting, aghing 1,650 pounds, on Aument's leit g. The heavy weight was removed by ig. George H. Adams has always been a great favorite in Columbia, and when he was a clown he drew large audiences. He has lost none of his popularity, as was attested by the large audience which packed the opera house last evening to see the three act pantomimical comedy entitled "He, She, Him and Her." Mr. Adams was very funny in the character of Tobby Perri-winkle, the country lad. Miss Toma Henlon, the pretty soubrette, gave strong support as Tootsis Brant. Many good songs, dances, do., were introduced in the produc-tion and plenty of pretty girls were seen. The performance was one of the best of the kind ever seen in this place.

Fulton opera house was about one-third full last evening when Miss Ada Gilman and company appeared in "Bubbling Over," a piece which was written by Frank Dumont, and is called on the bills a "Musical Farce." Although it contains considerable fun, there is also a great deal thing of a story, but it can only be followed with great difficulty. Much horse play is indulged in and the efforts to lug in fun at times is painful. Miss Gilman assumes no less than three characters. She is a pleasing with fun. She works hard to please and is quite successful. The company includes Barney McDonough, F. S. Sanford and Miss Ida Lillian Abrams, all three of whom were seen here this season already as members of the "Kindergarten" company. They are very capable artists, but have little opportunity in a piece of this kind. During the presentation of the mixture a number of alties were given. Among the best of these was a solo "Let All Obey," by Mr. Sanford, which was admirably rendered. Miss Abrams, who is the possessor of a good voice and is a remarkably fine singer, rather disappointed the audience. She started to give a solo "Farewell Marguerite,"

and, after singing several lines, suddenly od. The cause of this was not known it the time, but it was afterwards learned bat she was til. Later she was heard in a duett with Mr. Christy. Miss Gilman saug Can You Tell me the Reason Why." She or voice, but the words of the song brought her several encores. The medicys by the company were well given, while some of the other specialties were very bad. During the play an incident occurred sock of the scenes which few knew any-hing about. Mies Gliman, after running

off the stage in the second act, fell fainting into the arms of a stage band. A physician was sent for and after he had attended the woman she pluckily resumed her work, which she finished without faltering. One of the best features of last night' nment was the music by Professor Burger's orchestra. His new overture, entitled "A Trip to Coney Island," in which many imitations are given, scored a big tit

The secretary of the mavy yesterday issued peremptory orders to hasten the work of preparing the United States stamers Atlants, Vandalia and Mohican for sea. It is indicated that he is discatisfied with the slow progress of the work on the two inter vessels, which have been under repair at the Mars Island, (Californis) navy yard, for some time. The letest reports received at the department concerning their condition is to the effect that the Vandalia will be ready for sea by February I and the Mohican by February I5. There is easi to be immediate use for them, and the orders issued yesterday contempiste the fitting out and sailing of both vessels during the present mouth if possible. It is reported that both will be sent to Samoa to reinforce the Nipsic, but it is impossible to obtain official confirmation of the report. In regard to the Atlants, it is said that she can be fully prepared for sea is about a week. It is not yet known for certain where this vessel will be sent, but the secretary's orders to hurry her preparation indicate that she is required at once for execution of some important foreign mission. The statement that ane is to go to Hayti is denied at the navy department. A prominent official of that department said to-day that it is not likely that any more vessels will be sent to that country unless the state of affairs there becomes more alarming than at present. The United States steamer Ossipes, will arrive at Port an Prince in a few days, and she will be able to uphold the honor of the United States steamer Boston, now as the New York yard, can also be sent to Port an Prince in case more vessels are needed there. This vessel is now in progress of fundigation, and will not be sent to a yellow-fever country soon again, unless shoulately necessary. It is possible, the officer continued, that the Atlanta is to be sent to Samoa, but that don't seem likely, as the veyage would take about four months, and existing troubles there are likely to be settled one way or a

Vessel Owners and Packers to Oppose the

The cyster packers and owners of dredg ing vessels have finally organized a pro-fective sescolation, to dispute in the courts the right of the Maryland police to use capacin and similar spencies in suppressing the illegal dredgers. Forty use capmen and similar sgencies in suppressing the illegal dredgers. Forty packers representing considerable wealth, and nearly 200 owners and commission merchants are members of the association just organized. C. R. Aughinbaugh, of Aughinbaugh Canning company, is president. The constitution adopted declares an intention to preserve the oyster beds, and to protect both dredgers and tongers; declares that dredging should be permitted only under state licenses; that the cyster grounds ought to be so divided as to afford the dredgers a fair and equal show; and that attacks by armed policemen on peaceful citizeus engaged in lawful occupation are violations of the law as great as those they profess to be trying to prevent. All vessel owners and masters of vessels belonging to the association have pledged themsalves not to permit litegal arms to be carried or used on their vessels engaged in dredging.

CONSTABLE SIDES INTENTIONS. He Wants to Go On the Pottee Force and so

Notifies the Mayor. Constable Sides, of the Second ward, has served notice on Mayor Edgerley that under the law he is entitled to be a member of the police force. The unconstitutionality of the municipal law throws Lancaster's government back to the charter of 1867, and under that instrument the constables elected in the nine wards of the city were members of the police force. The mayor will, it is thought, send Sides' name to selec council, but the impression is that select council will refuse to confirm this nomination and the nomination of any other constable sent in, on the ground that the men on the force have prepared themselves withuniforms for the winter and it would be unfair to them under the circumstances to put the constables on the force, when only a few months remain until their terms of office

Another Novelty in Blang.

Another Novelty in Blang.

From the January Table Talk.

The "chestnut," as a slang phrase, is dens with, frost bitten, quite, and an equally meaningless word has been substituted. It is "dusty." Do you admire anything from a stylish toilet to a dainty dish, you are privileged to say "there is nothing 'dusty' about that." On the whole, when one takes time to consider, there is more sense in "dusty" than in most fashionable slang. A "dusty" than in most fashionable stang. A dusty object suggests one whose freshness is desponed. Just how the "chestnut" was ever significant, no one has yet clearly defined.

WHAT'S THE MATTER WITH THE LARCASTEE BUSINESS COLLEGE?
Well, if you mean the largest enrollment of pupils for the first week of January since its organization, it is an indication that it is meeting with its reward and that IT's all right.
The L. B. U. does not hold out such inducements as "Full Course for 5—," which has been characterized by a songewhat caustic writer, as a" BaiT FOR BULL HEADS." and while that is a rough way of putting it, it is true that the duli boy is the only one to profit by this arrangement. The bright young follow must pay for the excessive cost of this instruction for the dull one.
DO YOU UNDERSTAND?
Our patrons are our leading citizens and business men, and to them we would refer all applicants as to standing of this institution.
Pays a visit to the college and spenda day there, and then judge as to the merits of the school. Address.
A. GOOD BULE.
