OUTSPOKEN SCIENCE.

The following statement came voluntarily to the proprietors of the great preparation of which it speaks. They have never had the pleasure of meeting the eminent scientist who wrote it, but appreciate the honest candor which prompted it:

Gor which prompted it:

To whom It MAY CONCERN:

This may certify that as the result of extended recearches I am able to state that, in the Duffy Malt Whisky alone, there is to be had such a pure article as I have described in my paper on "A Scientific Specific for Intemperance." in the North American Review for July, 1882. It is, of course, a well known inct that we may procure, as a laboratory product, a whisky that shall be free of jusci oil; but it is with pride that I state that alone of commercial whishies the Duffy Malt declines to njure the brain and the system.
