JARUARY IL IMA

that the tree this to be adopted that and to fall in the House, a become a law, and the time is it might be better used. There alloy subsol interest in the discussion tariff by Congress, but little classical and discussion tariff by Congress, but little classical outside the information. called outside the information, men the last day's debate that that there is a heavy duty on lary, and that the New Eng-ers, in behalf of the manufac-are their constituents, ask for ad that they want the lightest uty on the lowest priced goods, that they can better compete with on manufacturer in high priced This sound strangely, in view concurrent declaration that the cost of home labor is what the manufacturer to need a Genator Aldrich, of Rhode Island, hat he would be satisfied with rates riff duty that equalized the cost of foreign labor. Senator Vest, ari, said that he would be willalse the tariff issue on that There are representatives of the high and very low tariff ideas, and willinguess to stand is a sensible

If the parties were willing to meet upon the tariff question could be considered fied. But we have reason to doubt enter Aldrich's contentment with such nt, when he asks a higher duty a lew priced than on high priced cutlery; the latter than in the former. It is which gives the additional value to raw material, in high priced wares. understand very well why it is that agiand manufa sturers can compete fine better than in coarse goods, with products. It is because their high labor is really lower priced than labor, because it produces more tier work and has greater aid from ry. When the equalization of reign and home wages is undertaken, so considerations will enter into it; it is quite certain that it will appear to the tariff duties levied in the Senate are far more than equivalent to the o in the cost of home and foreign shor. It appears, for instance that a socket knife is imported that costs but 18 mis a dozen abroad; and it is manifest that the proposed duty of about 21 cents does represents more than the dif-brance of labor cost.

The Republican party has declared its silley to be to put such a duty on every ed article as will enable it to ie here successfully, and it is not sa duty that will exclude foreign ss entirely and it will not the Democratic policy which prose the cost of labor.

he tariff question has been the favorite this country for political debate for many years; and the time that has spent upon it might have been better The tax paid by the people the tariff has not been equal other taxes more unjustly imposed re relieved them from. Look, for ina. at the enormous bounty which the deral government gave the Pacific railwithout retaining such control of charges down to a fair price to make them equal to all. money given these roads was smallest part of their burthen the country's industry. When the nent provided the money to build railroads cross the continent, it crying charges. Just as when state self duty to provide that their capital sould not exceed their actual cost, and their charges should be just the same to all. The neglect these (proper restrictions upon the management has imposed a fer burden upon the industry of the than the tariff; and there would is need of a protective tariff to-day rtation charges were limited to sum needed to secure a fair return a the needed railroad capital of the y. When railroads have been not to use but to sell, en railroad officers cover their is with parasites for their own profit ames millions for their own pockets of their opportunities, the people pay this dance more than the tariff waltz s them; and it is a more promising Aject for relieving legislation, since it is at one on which political parties can all take different sides.

Quay's Kick. tor Quay showed notable indepen

se in refusing to vote for the sugar say. Some of the Western senators, copie want to make beet sugar, the duties upon Pennsylvania s, if the Pennsylvania senators do not their votes to beets. This tariff busiis a good deal of a dead beat game, not improve this appearance any than does the heavy duty on steel and beams. The Republican s who vote what they know to be agant duties upon these manuat believe to be a very setal policy in a bounty on sugar, are selectly impelled to their course by desire to get a solid party vote on the bill. They are calmly buying every and Quay must give a quid pro quo, for beams, they say. Perhaps he If he prop ses to lead his party he have to go to it or capture it. In g against the sugar bounty he shows seeded belief to be that the people have none of it. He does care what money the govern-gives in bounties, and he icheerfully vote for the distribution 40 seres and mule to the Southern and a house and lot to everybody he thought it would be a whole-political policy. If he does not go a sugar bounty it is because he beto be bad party policy; as to us

mki that weshints have become a staple like sugar in the greezy, and nalls in the hardware bastesm, and are told very close to cost. Nearly all the Jobbers and manufacturers in New York, Baltimore and Philadelphia have agreed to get semething more out of tube by combination. There are but two large factories of codar tube in the country and west of the Alleghenies the tube are all of pine.

AND now a Mr. Walter E. Hicks, of Brocklyn, somes forward with an engine for throwing dynamite shells to immense distances by releasing them from the tire of a rapidly revolving wheel. He proposes to hang four shells as a ten foot wheel, drive it at a speed of 4,000 revolutions a minute, and detaching them by a delicate device he will cause them to fly off at a tangent one after the other with a velocity of 2,100 feet a second given by contrifugal force. If Mr. Hicks will retire to some lone wilderness and prove the natety of his machine, it may be considered, ; but there is nothing very pleasant about dynamite cartridges being stung around at high speed on a fly wheel. AND BOW & Mr. Walter B. Bloks, of Broo Epison has run afoul of a keen lawyer.

EDISON has run afoul of a keen lawyer, at least he is called been because he is a lawyer and has managed to get hold of a great pile of cash in such a way that the law can not easily harm him. Briefly the lawyer in question, John C. Tomlinson, was an unknown and insignificant attorney until Mr. Edison, in a spirit of friendship, employed him to manage his legal affaira. A mong other things the lawyer was entrasted with negotiations for the sale of the patent on the phonograph and actually sold it, as Edison thought, for \$600,000 Recently, however, the inventor learned that \$750,000 had been paid for the patent and now he is trying to find out what Tomlinson did with the other quarter of a million of dollars. He has already learned that the expensive Mr. Tomlinson charged about \$10,000 for drawing up a bill of mis. If these charges all prove to be true an about \$10,000 for drawing up a bill of sale.

If these charges all prove to be true an ordinary thief would seem virtuous by comparison with this man, who not only took what did not belong to him but took it from his best friend and benefactor and without even the poor excuse of want; for Tomitinson had been making a great income out of the legal business of the great inventor.

THE Sunday school of the Memorial Presbyterian church of Philadelphia caught fire on Sunday when five hundred children were in it, but they all quietly marche out. Fortunately none of the teachers lost their heads, and there was time enough to move without show of alarm.

THE New York World of Sunday publishes Max O'Rell'anew book and Chauncey Depew hastens to expand his jaws to emit an opinion upon it. Mr. Depew is only refurred to by way of indicating the literary importance of the book, for though his ready made, automatically discharged opinion is of little value, its appearance indicates that Chauncey recognizes the popularity of Max and wants to place his own name conspicuously on the creet of his last literary billow. O'Rell will be remembered as a keen, witty Frenchman, who jumped into fame by publishing a charitable mitre on the English under the title "John Bull and his Island." His book displayed a thorough THE New York World of Sunday pub-English under the title "John Bull and his Island." His book displayed a thorough command of Englishand knowledge of the English, but they could not appreciate his fice sense of humor and though rapidly passing through several editions in America it was received in bed temper by John Bull and met with abusive and stupid replies. He was naturally pleased with the recep-tion of his book in America and declared his intention of writing up "Jonathan and his Continent" in similar vein. It is too soon to pass judgment on the work, but the general tone of it appears to be more cautious and sympathetic than that of the essay on John Buil. We trust that brother Jonathan will take kindly to the criticism and dis-count the compliments.

PERSONAL. DR. JOHN A. FISHER died at New Or-leans last Tuesday. He had resided there forty years, but was a native of Lebanon.

PROFESSOR E. OTIS KENDALL, vice-provost of the University of Pennsylvanis, will soon resign his position as dean of the college faculty. He will, however, con-tinue to hold the professorahip of astronomy

at the university.

IRAAC BRLL, JR., ex-United States minister to the Netherlands, died on Sunday in St. Luke's hospital, New York, in the 434 year of his age. He was at one time a cierk in Brown Brothers' dry goods house, in New York, and in 1870 established the cotton dealing house of Issac Beil, jr., & Co., of New York, Savannah and Charlesson. He retired in 1877, and in the following year married Miss Janet Bennett, sister of James Gordon Bennett. In 1885 President Clevaland appointed Mr. Beil minister to the Netherlands, a position he resigned in May last He isaves a widow, two daughters and a son.

The effect of drastic purgatives is very enervating and often followed by more or less prostation. What you want is a mild apperient and alterative, which are happily combined in Laxador.

Orging is a prime evidence of pain. When the baby is iretful and inclined 10 "orying spails." remove the cause by using Dr. Bull's Baby Syrup.

HOOD'S SARSAPARILLA

THE PLAIN TRUTH that Hopd's baresparille has cared thoused of soop's who suffered severely with runnities. It neutralises the lactic self is blood, which causes these terrible pain d soher, and sho vitalises and enriches the rood, thus preventing the recurrence of the real. These facts warrant us in arging you out for with rhoumatiem, to give Hood's commelties and

disease. These mens warrant us in urging you, if you suffer with rheumatism, to give Hoed's Earssparilia a trial,

" For E years I have suffered with selatic theumatism. Last Hovember I was taken worse than ever, and was unable to get out of the house. I was almost I was taken worse than ever, and was unable to get out of the house. I was almost EELPLESS FOR & DAYS suffering great agony. In December I commenced taking Hood's Sarasaparilia. After the second bottle I was able to be, out and around and attend to business. I took five bottles, and am now so free from rheumatism that only ocasionally I feel it slightly on a su d den change of weather. I have great confidence in Hood's Earseparilla. CRAELES HARMATORY EHEUMATISM

"Having been troubled with imflammatory rheumatism for many years, my favorable attention was called to Hood's Sarasaparilla by an advertisement of ourse it had effected. I have now used three bottles of Hood's Sarasparilla and can already testify to beneficial results. I highly recommend it as a blood puritier." J. C. Arma, West Bloomfeld, N. Y.

Hood's Harsaparilla

100 Doces One Dollar.

100 Doses One Dollar. WANAMARBES.

PHILADELPHIA, Monday, Jan. 21, 129. This is for you, madame about your Dresses. How many of them fit just right? Have you one Dress that sets exactly as you wish? Isn't there a draw, or a wrinkle-spot or a hunch-up place in the best price." little here and slouch a little there?

Of course it does. Needn't. Heard that before? Very likely; but we prove it.

There's no guesswork about the fit of a waist that comes from the Pollock Garment-Fitting Frames. Can't be.

A cuirass of flexible metal tapes does the business. Being adjustable in all its parts by a series of hooks and eyelets, it is JOHN WANAMAKER, fitted perfectly to the form, removed in sections, laid flat upon the material to be cut, a pencil sketch is made, a few snips of the scissors, and the garment is ready to put together. No shearing and shaving to "make it fit." Science touches a secret spring in dressmaking and the lines of beauty fall into place.

Throat curves carried out; shoulder slopes not marred by straight unyielding seams; darts that defy straining or stiffness in outline; sleeve that might serve to mould the arm of a Venus, easy in any position-sharp elbows especially

The only perfect waist measurement system we ever knew -and invented by a man!

Think of the time lost in trying to be fitted; add the plague of the almost certain misfit; take note of the cost of ruined material, ruined nerves, and ruined hopes.

Then hail the deliverer. You are asking "what will all this perfection cost?" Absurdly little.

We furnish lining material, fit, cut, and baste up a waistand-sleeves lining, sew on hooks and eyes, and give you the whole thing for \$1.

For another \$1 (\$2 in all) we sew the cloth on to the lining, if you wish, but you must furnish the cloth.

The paper pattern and the wasted stuff by the common way would about balance this

The new fitting-room is on the second floor, Chestnut street side.

At the Chestnut Street entrance, Men's Hosiery counters, we have put on sale 6000 pairs of Men's Fancy Cotton Half Hose, dark colors, full regular made, neat stripes, at 121/2 cents a pair. You would be quick to take them at double.

Chestnut street side, west of Main Atale.

We have just come by about

five hundred dozen pieces Men's, Women's, and Children's Underwear, in "white wool," "merino," "natural wool," gray, "scarlets" and fancies."

25c, 371/2c, 50c, 75c, \$1. Every garment in the lot is at halt price or less. On tables by themselves.

We had some very red-lettered Glove days in 1888; beating them already in 1889. Here are 3432 pairs Women's 4-button Real Kid Gloves, handsomely embroidered. 60 cents for \$1.25 in value.

Every now and again we have a word to say of Dress Goods Remnants. All days are alike to us for them. As fast as the Remnants show we hurry them off to their special counter with all the extravagance, and sometimes with part of the cost, cut out of the prices.

All of you know that long, heaped counter of ever-changing stuffs. You have saved dollars and dollars there.

But this is time o' year when I
