The question of why the Arlington Dinner Sets are so popular is easily answered by those who have seen the shape and decoration. Made of hard Semi-Porcelain in handsome shapes and pretty decoration, and with our printed guarantee that they will never craze or surface crack, is a combination of good points that cannot be overcome. Nine New Patterns. unpacked this morning, are now ready for inspection. The New Arlington Sets have a dozen bone plates added, making a very complete set of 139 pieces. Housekeepers and hotel keepers know how some queensware will become crazed, or rather the glazing will crack in a hundred different places. Our Porcelain, Semi-Porcelain and Ironstone we guarantee will not craze, and when you purchase ware from us it does not matter if it is a dozen of plates or a dinner set, we give you a printed slip guaranteeing the ware not to craze. Keep the printed slip as long as you have the ware, and if at any time you should discover a surface crack, return the slip and ware. If we were not positively certain that our ware is free from craze we
