MAG. S. M. WOODWARD,

OUTSPOKEN SCIENCE.

The following statement came voluntarily to the proprietors of the great preparation of which it speaks. They have never had the pleasure of meeting the eminent scientist who wrote it, but appreciate the honest can dor which prompted it:

To WHOM IT MAY CONCERN:

This may certify that as the result of extended researches I am able to state that, in the Duffy Mait Whisky alone, there is to be had such a pure article as I have described in my paper on "A Scientific Specific for Intemperance." In the North American Review for July, 1883. It is, of course, a well known isot that we may proque as a laboratory product. July, 1888. It is, of course, a well known most that we may procure, as a laboratory product, a whicky that shall be free of issel oil; but it is with pride that I state that alone of commercial phishies the Duffy Mait declines to njure the brain and the system.
