### REPORTED TO THE SENATE.

the Committee Examining Col. Fister Ast For the Arrest of the Witness.

WASHINGTON, D. C., Feb. 21.-In the Senate to-day Mr. Spooner, from the com-mittee on public buildings and grounds, made a report as to the refusal of Thos. D. Fister, obief clerk of the supervising architect's office of the treasury, to answer during the investigation of that office, certain questions as to whether or not he had received money from any govern-ment employe during the last campaign. The witness had declined to answer on the ground that it was a private matter. The report states that suberquently Fister was xamined by the full committee, and again declined to answer on the same ground The committee therefore reported a resolu ion directing the president of the Hepat to issue his warrant commanding the ser geant-at-arms for them to arrest and bring to the bar of the Senate Thos. D. Fister t show cause why he should not be punishe for contempt.

Mr. Morgan said the resolution presents some delicate points of law and objected to its present consideration. It went over until to-morrow.

Mr. Spooner said he would be absent from the Senate to-day and to-morrow, and would call up the resolution next Monday.

In the House to-day, Mr. Randall presented a resolution amending the rules so as to provide that on blank date immediately after the reading of the journal the House shall take up the Cowles bill, and at 4 o'clock a vote shall be taken and making this order continuous. It was referred to the committee on rules. He also offered resolution providing for a daily meeting o the House at 10 o'clock. Under objection by Mr. Breckenridge this also went to the mittee. The House then resumed con alderation of the postofilos appropriation bill.

terrees on the territorial bill. In the House the adoption of the bill was greated with applause, but in the Senats there was no such impulaive approval. Nothing now is needed in order to increase the number of states in the Union except the signature of the president and compliance with the forms prescribed in the bill. If the anx-lety of the people in those ter-ritories is as great as it has been represented to be, there is no rea-son why North and South Dakots, Mor-tens and Washington should not be states within nine months, and also be represented by sensiors and representatives in the first regular sension of the Fifty-first Congress, while the people living north and south of the seventh standard parallel, which is to be the boundary line between the two then seventh standard parallel, which is to be the boundary line between the two stants, are to have a chance to any whether there shall be a greater difference than is promised between the two estates. The attempt to induce the territory of Washington to accept the name of Tacoma has been frailles. The Democrats of the House were not forence report as the best thing that they could obtain at the time. When the forman instification that the House had agreed to be bente, Mr. Plait at once presented the report in that body, and, as a privilaged question, it was promptly taken up. It took a long time to read the bill, and then Mr. Hoar started a longer discussion by expressing his regret that the Senate onferress had not secured the insertion of a provision for the exercise of would not agree to the properition, it had to be dropped or the whethe bill, Mr. Plait explained that as the House conferress would not agree to the properition, it had to be dropped or the whole bill would have failed. Mr. Vest did not like the idea of leaving New Maximo out of the list (of new states, and in plain terms he said he would vote against the report because it gave too much advantage to the Republicans. Mr. Brown also declared that the measure as agreed to was unjust, and Mr. Cockrell was another Demoorst who oriticized the bill. Mr. Buller, who was one of the Senate con-ferrees, explained that he did not like the bill, but had algued the conference report because it was the best that could be obtained.
