Little Business in Either the Local or Distant Markets. The local tobacco market has been very dull the past week. About 100 cases were sold in small lots by city dealers. Tobacco is still being received at a few of the ware-

from the field for the present. They may return when the tobacco in farmers' hands is offered at lower prices than now held. As an illustration of the difference in the price of tobacco when the season openes Skiles & Frey bought the past week two crops of tobacco at 12 and 15 cents per pound. For these same crops 25 cents per pound were offered before the Christmas

There is little to be said of the market this week, only that there is a little more demand for tobacco than in the previous week. Several out-of-town buyers were here selecting from the small stock left in our market. Only a retail business in Sumatra has been done since our last report. Buyers say they will continue to purchase in small quantities until the new crop arrives. But the chances are that, no matter how good the new tobacco may be manufacturers the new tobacco may be, manufacturers will prefer to work old goods for some time to come, as was the case last year. It is certain that all good tobacco of the old crop will be wanted before the new is fit to be manipulated. The sales for the past week were 200 bales at \$1.20 to \$1.75. J. S. Gans' Son's Report.

The bulk of the representatives of the leaf interest are idle, so far as sales are concerned, and their attention is turned to the selecting of crops of 1888 for future use after the natural sweating process. The leaf merchants generally contemplate a bright future, as they say that the stock now in store, or to be received, falls short of the usual supply by several thousand of the usual supply by several thousand cases.
