Irregularity of the bowels, indigestion and bil-lousness, are aliments of common occurrence in the household. Children, living in malarious regions, are more liable to be attacked with chills and fever than adults, and the ravages of that fell disease in their system are speedier and more serious. In remote localities, far from professional aid, it is especially desirable.

S. S. S.

I am satisfied that Cancer is hereditary in my family. My father died of it, a sister of my mother died of it, and my own sister died of it. My feelings may be imagined then, when the horrible disease made its appearance on my side. It was a malignant Cancer, eating inwardly in such a way that it could not be out out. Numerous remedies were used for it, but the Cancer grew steadily worse until it seemed that I was doomed to follow the others of the family. I took Swift's Specific, whith, from the first day, forced out the poison, and continued its use until I had taken several bottles, when I found myself well. I know that S. S. S. cured me,
