Special Notices.

Eupopy. This is what you ought to have, in fact, you must have it, to daily enjoy life. Thousands are searching for it daily, and mourning because they find it not. Thousands upon thousands of people are spending their money for it, and yet hope that they may attain it. And yet it is within your reach. It is kept on hand, as a prompt remedy for infantile complaints, in their outset easily conquerable, but which, if allowed to engraft themselves on the delicate child's organism, are not easily dislodged, and speedily work grievous mischief. Irregularity of the bowels, indigestion and biliousness, are ailments of common occurrence in the household. In children, who live in malarious regions, are more liable to be attacked with chills and fever than adults, and the ravages of that pest disease in their young, are more and more serious. In remote localities, far from professional aid, it is especially desirable.
