The INTELLIGENCES.

Ef you wer git a idee
That you're not a-gittin' old,
Thet your life's es good end simple
Es in childhood's age no gold,
That you think no men es kindly,
End give woman all 'er due,
End give woman all 'er due,
End hate wrong 'cause' tis wrong
Jes like you ust ter do,
Go buck ter the old homestend—
Er stay there, like I've done—
Ead look the hull place over,
From the hill-top ther run,
End see the changes.

End see the changes.

Uv course the robin's there, end blue-jay,
End the black-bird, stealin' core,
End the farm-boy, only half a-workin'
Listenin' fer the dinner-horn;
The cows er in the medder,
The wood's es green, I'd say,
Es if't was celebratin'
Some St. Patrick born in May.
The wind is soft end sweet es
A breath you ust ter love,
End you like the earth still befter
'Cause the sky's so blue above—
But still there's changes.

Then go out inter the orchid No bigger than the switches Thet we often uster see The old man cut end trim up In thet hard, decided way Thet made a boy derned sorry
Thet he ever went astray,
End see the growth thet it's put on,

Without no fuss, end I allow, on il find a long space reachin' From thet there time till now, End see the changes! THE MILLER'S WOOING.

"Love me little, love me long, Sang the dusty miller To his wheat art, and his song

"Bid me barley hope; oh, give Me one grain of comfort; I would out on thee and live, "In you ryes now love-looks shine,

Filling up my measure

Came the maiden's corn-ful laugh
At the miller's fawning;
"You can't winnow girl with chaff—
Sir! to you, good morning."
—From the London Sporting Times.

PROF. WM. H. THOMPSON, M. D., University of New York, New York city, says: "More adults are carried off in this country by chronic kidney disease than by any other one maindy except consumption." This shows that Dr. Thompson considers kidney disease a frightful maindy. He also says, "Bright's disease has symptoms of its own, but has the symptoms of symptoms of its own, but has the symptoms of every other disease." The reason why Warner's Safe Cure cures so many different diseases is that by curing symptoms, which are called dis-eases, it strikes at the roots of disease itself.

An Indolent Organ. When the lives is indoient, as it must necessarily be when it fails to secrete the bile in sufficient quantities to meet the requirements of di-gestion and evacuation, it should be set at work with Hostetter's Stomach Bitters. The healthful stimulus to activity imparted by this in comparable alterative, speedily evinces itself in a departure of the uncomfortable sensations in the right side; the nausea; fur upon the tongue; indigestion and sick headache conse-quent upon inactivity of the liver and the diversion of the bile from its proper channel. Irregularity of the bowels is always and painlessly reformed by the corrective indicated, which is infinitely to be preferred, both because it is safe and more efficacious, to blue pill, calomel and drenching purgatives of every class. It cures and prevents fever and ague, and rheumatism. jel0-17

Mothers! Mothers!! Mothers!!! Are you disturbed at night and broken of your rest by a sick child suffering and crying with the exeruciating pain of cutting teeth? If so, go at once and get a bottle of MRS, WINSLOW'S SOOTHING SYRUP. It will relieve the poor little sufferer immediately—depend upon it; there is no mistake about it. There is not a mother on earth who has ever used it, who will not tell you at once that it will regu-late the bowels, and give rest to the mother, and relief and health to the child, operating like magic. It is perfectly safe to use in all cases and pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States. Sold everywhere, may19-lyd&w 25 cents a bottle.

Refrigerators Facts Worth Considering!

The use of ice, once regarded as a luxury, has become almost universally an imperative neces-Nity.

To make this ice the most serviceable, a Re-

frigerator is needed.

The qualities sought in a Refrigerator are preservation of perishable foods and an economi-

The conomical use of ice depends upon the principle involved, the construction of the Refrigerator, and in utilizing all the cold air. The principal causes of decay in meats and fruits are dampness and varying temperature, causing the expansion and contraction of tissues which hasten decay; hence a dry atmos-phere and uniform temperature conduce to their

Soots and Shoes. Bow Suffering, Misery, and the Seeds of Death Are Taken Into the Body Unknown to the Unconscious Victim.

"It is a wonder people live as long as they do," said one of the leading physicians of New York, while conversing with some newspaper friends recently. "Every breath that is taken contains poison. Millions of germs, so small they cannot be seen by the naked eye, are drawn into the lungs, the throat, the stomach, and while many of them die, thousands of them live and feed upon the body and cause what is called disease. Germs are the source of all disease; kill the germs and you cure the disease." So interested were the listeners with the above remarks that the doctor continued: "You naturally ask what will kill these germs? I am sorry to say, only a few things. The surest safe guard against all germs is pure whiskey—pure, mind you. Germs do not thrive where it is used judiciously. Unfortunately there is but little pure whiskey to be had and I know of but one which I can absolutely recommend and that is Duffy's. I have analyzed it carefully and found no fusel oil, nofimpurities, and nothing that could harm even a child. Duffy's Pure Malt Whiskey is also recommended by such high medical authorities as Dr. Henry A. Moit, Prof. Wm. T. Cutter, Dr. Carnwell and others. Understand me, I advocate the use of whiskey only as a medicine and not as a beverage. As a medicine it is strengthening, restoring and ben efficial, and is endorsed by priests and clergy men. Under no circumstances. even as a medicine it used to the content and the content and
