A GREAT MAUSOLEUM.

A Plan of Novel and Gigantic Character Described.

In New York on Monday Rev. Charles R. Treat explained to a large audience "The new system for the sanitary disposition of the dead in the new mausoleum."

King Mausolus, who died about four hundred years before the Christian era, was buried in a marvelously beautiful structure, one of the wonders of the world; and ever since that time masoleums have been acceptable and even fashionable receptacles for the dead. Burial in a mausoleum has from a sanitary standpoint been more objectionable than burial in the earth. Beyond its magnificence and the gratification of human pride, it possessed no advantages to commend it to the public favor. It is now proposed, said Mr. Treat, to utilize the mausoleum plan, but so modified that it becomes wholly unobjectionable to the living, and without placing it at the same time beyond the means of families in every city in the country. One design, for example, will have a frontage of about three hundred and fifty feet, with an average depth of about one hundred feet. This building will contain 40,000 sepulchral spaces, each large enough to hold a casket, and each as accessible and as capable of ornamentation as a like space in a private tomb. The building will be of concrete made from Portland cement, superior sand and broken stone, prepared on the spot where a mausoleum is to be erected, and poured in place when plastic, three inches at a time, securing perfect crystallization.

From the ground upward a multitude of inner walls—walls of sepulchral spaces, of hall and corridor—will rise as do the outer walls, and all become parts of the monolithic house of concrete—solid, jointless, enduring beyond any contemporaneous structure, memorial, or vault.

Imagine the sepulchral space opened and a casket placed therein. There are walls of concrete on every hand except in front. As soon as the casket is deposited a door of thick glass is inserted and sealed, and the sepulchre is then hermetically sealed, except in two places, by means of which the connections with the sub-cellar, where the furnace is situated, are made. A steady current of dry air immediately enters the sepulchre, flowing through it, enveloping the body, changing the air in the casket in a second, and carrying away the vaporized water and gases of the body—they constitute about three-fourths of it—through the exit pipes to the furnace, where the current passes through fire, and is finally discharged through the high air duct into the upper air in an absolutely inoffensive form.

There are left behind the solid parts of the body, in a perfectly desiccated condition, the form and features intact, as recognizable as in life, wholly inoffensive to sight or smell, and remaining so for a length of time that no one can measure. The process is analogous to the one largely applied in the Smead system of dry closets, with which school officials are familiar. The application of currents of dry air to the human body has been thoroughly tested in New York and Washington. The feasibility of the plan has been amply and fully demonstrated to the satisfaction of many other eminent scientists and sanitarians. The entire structure will be warmed, lighted and ventilated, and will be wholly free from any suggestion of dampness or decay. In the new mausoleum lost friends will sleep on as securely housed and sheltered as in life without adding in the slightest manner to the corruption of the air we breathe, the earth we inhabit and subsist on, or the water that quenches our thirst.

The minor advantages of the mausoleum deserve mention. Grave robbers will never attack a building furnished with bars and bolts and held both day and night by custodians maintained from the fund for the perpetual care of the building. A deed for a sepulchre will be countersigned by a trust company, and the trust company will receive and retain a percentage of each purchase price with which to form a fund for the building's perpetual care.

Whether premature interment is rare or common, the new system will render it an impossibility so far as the bodies placed in a mausoleum are concerned. The glass door of the sepulchre permits inspection at all times, and a simple electrical apparatus would alarm the custodians if the slightest movement occurred in a casket. If life be not extinct, the dry, pure air—it must be pure to insure desiccation and prevent decomposition—might restore sufficient vitality to render an alarm possible. It certainly would not lead to suffocation.

The new plan looks, also to the perpetuation of memorials and to the keeping of records far beyond the possibilities of the cemetery or crematory. No inscription within its walls will be effaced by the elements or by strange hands.

T. GRANGER STEWART, M. D., F. R. S. E., Ordinary Physician to H. M. the Queen, in Scotland, Professor of Practice of Physic in the University of Edinburgh, says: "Peritonitis is occasionally the cause of death in all forms of Bright's Disease. It may result from local affections, or from the state of the blood." Warner's Safe Cure acts as a preventive by curing the kidney disease and removing the contamination from the blood.

An Indolent Organ.

When the liver is indolent, as it must necessarily be when it fails to secrete the bile in sufficient quantities to meet the requirements of digestion and evacuation, it should be set at work with Hostetter's Stomach Bitters. The healthful stimulus to activity imparted by this incomparable alterative, speedily evinces itself in a departure of the uncomfortable sensations in the right side; the nausea; fur upon the tongue; indigestion and sick headache consequent upon inactivity of the liver and the diversion of the bile from its proper channel. Irregularity of the bowels is always and painlessly reformed by the corrective indicated, which is infinitely to be preferred, both because it is safe and more efficacious, to blue pill, calomel and drenching purgatives of every class. It cures and prevents fever and ague, and rheumatism. je10-17

Is Consumption Incurable?

Read the following: Mr. C. H. Morris, Newark, Ark., says: "Was down with Abscess of Lungs, and friends and physicians pronounced me an Incurable Consumptive. Began taking Dr. King's New Discovery for Consumption, am now on my fifth bottle, and able to oversee the work on my farm. It is the finest medicine ever made."

Jesse Middleton, Decatur, Ohio, says: "Had it not been for Dr. King's New Discovery for Consumption I would have died of Lung Troubles. Was given up by doctors. Am now in best of health." Try it. Sample bottles free at H. B. Cochran's Drug Store, Nos. 137 and 139 N. Queen St., Lancaster, Pa. (5)

Mothers! Mothers!! Mothers!!!

Are you disturbed at night and broken of your rest by a sick child suffering and crying with the excruciating pain of cutting teeth? If so, go at once and get a bottle of MRS. WINSLOW'S SOOTHING SYRUP. It will relieve the poor little sufferer immediately—depend upon it; there is no mistake about it. There is not a mother on earth who has ever used it, who will not tell you at once that it will regulate the bowels, and give rest to the mother, and relief and health to the child, operating like magic. It is perfectly safe to use in all cases and pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States. Sold everywhere, 25 cents a bottle. may19-lyd&w

Electric Bitters.

This remedy is becoming so well known and so popular as to need no special mention. DUFFY'S PURE MALT WHISKEY.
POISONED WATER.

One of the leading surgeons in the Army, made the following characteristic remark: 'Water kills more soldiers than bullets." His meaning was, that soldiers who drank impure water, died by disease in greater number than those killed by bullets. The surgeon was right. Impure water, especially at this season, is a terrible cause of sickness and death. But the public say, what shall we do? There is but one sensible thing to do, and that is to purify the water by mixing it with something that destroys all poison or disease-breeding germs, and nothing does this like pure whiskey. But it may be asked, where can I obtain pure whiskey? Professor Henry A. Mott, says, "the purity of Duffy's Pure Malt Whiskey is absolute, and should commend it to the highest public favor. There are hundreds of families that are drinking water constantly, and are kept in perfect health by simply mixing a little of Duffy's Pure Malt Whiskey in each glass they drink. It is a simple and sure preventive of Summer diseases and germ poisons, and is endorsed by the best people in the land. (5)

MOTHERS READ!
Dr. D. McLane's
CELEBRATED
Vermifuge for Worms!
MOTHERS READ.

Andrew Downing of Cranburg Township, Venango County, gave his child one teaspoonful of the genuine Dr. C. McLane's Celebrated Vermifuge, and she passed 177 worms. Next morning on repetition of the dose she passed 113 more.

Japhet C. Allen, of Amboy, gave a dose of the genuine Dr. C. McLane's Celebrated Vermifuge to a child six years old, and it brought away 83 worms. He soon after gave another dose to the same child, which brought away 50 more, making 133 worms in about 12 hours.

Mrs. Quigley, No. 102 Essex St., New York, writes us that she had a child which had been unwell for better than two months. She procured a bottle of the genuine Dr. C. McLane's Vermifuge and administered it. The child passed a large quantity of worms, and in a few days was as hearty as ever it had been. Parents with such testimony before them should not hesitate when there is any reason to suspect worms, and lose no time in administering the genuine Dr. C. McLane's Vermifuge. It never fails and is perfectly safe.

This is to certify that I was troubled with a tape worm for more than six months. I tried all the known remedies for this terrible affliction, but without being able to destroy it. I got a bottle of the genuine Dr. C. McLane's Vermifuge, prepared by Fleming Bros., Pittsburg, Pa., which I took according to directions; and the result was I discharged one large tape worm, measuring more than a yard, besides a number of small ones. MRS. M. SCOTT.

Price 25 cents a bottle. Insist on having the genuine. (4)

S. S. S.
SWIFT'S SPECIFIC has cured me of a malignant breaking out on my leg, which caused intolerable pain. It was called Eczema by the doctors—four of whom treated me with no relief. I candidly confess that I owe my present good health to S. S. S., which in my estimation is invaluable as a blood remedy.
MISS JULIA DEWITT,
No. 2227 N. St., St. Louis, Mo.

Our baby when two months old was attacked with Scrofula, which for a long time destroyed her eyesight entirely and caused us to despair of her life. The doctors failed to relieve her, and we gave SWIFT'S SPECIFIC, which soon cured her entirely, and she is now hale and hearty. E. V. DELK,
Will's Point, Texas.

OF INTEREST TO LADIES.
Superfluous Hair!
Superfluous Hair!
Superfluous Hair!
Superfluous Hair!
OF INTEREST TO LADIES.

AN ESTABLISHMENT IN PHILADELPHIA where ladies can have Superfluous Hair permanently removed from the face by Electrolysis (the Electric Needle operation).

Dr. Van Dyck, Electric Surgeon, 40 North Eleventh street, Philadelphia, permanently destroys Superfluous Hair without pain, scar, shock or trace, by the Electric Needle operation.

In answer to many letters from fashion and scientific journals and from ladies from all parts of the country, in reference to this operation, Dr. Van Dyck respectfully states that the Electric Needle process is endorsed by all physicians and surgeons of eminence as being the only method known to science by which superfluous hair can be destroyed. It is almost painless, causing a mere stinging sensation.

The needle is inserted painlessly into the follicle alongside of the hair, completely destroying the papaila of hair germ, so the hair can never grow again. Leaves no scar nor trace; never fails; length of time depends upon the number of hairs to be destroyed; the presence of the patient is required at the office.

Every lady with hair on her face knows that depilatories, heated wax, pumice stone, the tweezers, scissors or razor, only makes these hairs grow harsher, coarser, darker and more numerous.

Remember, ladies, this is a delicate surgical operation, and should never be performed except by a physician or surgeon, or under his care.

Dr. Van Dyck is a regular graduate of medicine and surgery; has practiced in Philadelphia for twenty years, and performed the electric needle operation for the first time thirteen years ago, having the honor of being the second physician in the world to perform this operation and the first to use it in Dermatological practice. Since then the demand for his services in this specialty has become so great that he has given up all other practice and makes an exclusive specialty of Electro-Surgery and Dermatology.

No physician living to-day has written so many articles for fashion, literary or scientific journals on the subject as Dr. Van Dyck has, as an illustration of the universal interest taken in it, the Doctor has answered 9,000 letters in the last three years from ladies from every part of the civilized world.

Every lady troubled with superfluous hair should consult Dr. Van Dyck, and should read his book, which is mailed free to every one writing for it.

Superfluous hair is surprisingly prevalent. We see it in the drawing room, theatre, on the street, and wherever ladies congregate. At least 35 of every 100 ladies have more or less superfluous hair at some time during their lives. Remember this, no matter if you are 15 or 75, whether you have 20,000 or a few straggling hairs on your face, every one can be destroyed forever.

Don't hesitate to consult Dr. Van Dyck freely and with confidence. Rich or poor, young or old, he will examine your case cheerfully. No fees unless you are treated. Call at once. Office and operating rooms, 40 N. Eleventh street, Philadelphia. Hours, 9 to 5; Sunday, 10 to 3. Never fails. Advice free. Book free. Note—Birth marks, red nose, enlarged veins of the nose, cysts, cancers and tumors removed by Dr. Van Dyck. Terms to suit rich and poor. Send for book. june8-lydW&S

MARTIN BROS.
CLOTHING AND MERCHANT TAILORING.

Quality and Price.

We do not try to reduce quality when we offer Men's, Boy's and Children's Clothing at the very low prices. But see to add, improve and increase the quality of every garment. Men's Suits, $7 to $20, you'll find in every store, but look at the cloth, style, finish, make and the trimmings. Compare them with what we offer you, at a like price, and note the difference, and you'll say, never saw such clothing for so little money. Boy's Suits, many styles to select from, $4 to $15. You'll be better pleased when you see them on the backs of the boys. We'll help you select, and be careful in fitting. Little boys get as much attention and as much care in fitting. Knee Pant Suits, $2 to $8. Kilt and Jersey Suits, $2 to $4. Blouse Waist Shirt Waists in all the desirable kinds. In our Merchant Tailoring Department are many novelties made to your order at prices that you'll be surprised: $15 to $20 that you expected would be much more. Cheviots, Flannels, Cassimeres, Serges to be made in cool, comfortable, hot weather suits. The many things in the Furnishing Department should not be overlooked. We'll save you money. Domet French Flannel Zephyr, Madras and Silk Stripe Shirts, Lisle and Balbriggan Underwear, Elastic Seam and Nainsook Drawers, Summer Neckwear in Grenadine and China Silk.

FLINN & BRENEMAN.
Refrigerators
Facts Worth Considering!

The use of ice, once regarded as a luxury, has become almost universally an imperative necessity.

To make this ice the most serviceable, a Refrigerator is needed.

The qualities sought in a Refrigerator are *preservation* of perishable foods and an *economical use of ice.*

The economical use of ice depends upon the *principle involved,* the *construction* of the Refrigerator, and in *utilizing* all the cold air.

The principal causes of decay in meats and fruits are *dampness* and *varying temperature,* causing the expansion and contraction of tissues which hasten decay; hence a *dry atmosphere* and *uniform temperature* conduce to their preservation.

The ALASKA is constructed upon strictly *scientific* principles, by which *low temperature* and *dryness of air* are naturally and inevitably obtained.

The ALASKA possesses the *only* provision chamber free from odor.

The ALASKA produces a *dry, cold air,* which no other Refrigerator can do.

The ALASKA has preserved *fresh meats* perfectly for *three weeks* in hottest weather.

The ALASKA produces better results with *less ice* than any other Refrigerator.

Boots and Shoes.

BOOTS AND SHOES.
D. P. STACKHOUSE.
BARGAINS IN SHOES.

Just received, direct from the factory, over one thousand pairs of Ladies' Shoes that were made and stamped to be sold for $2.50 a pair, but the party failed before the goods were finished; so I made them an offer at the factory for the goods and had them finished in splendid style, and I am offering you these shoes for $1.89 and $2.00 per pair and every pair guaranteed. So this is a rare chance to get a $2.50 shoe for $1.50 and $2.00. Also a lot of Men's and Boy's Shoes we are closing out cheap. A full line of Black and Tan Oxford Ties for Ladies, Misses and Children at the lowest prices in the city.

SUMMER SHOES IN BLACK LEATHER.
Ladies' Oxford Ties!

To-day these admirable shapes in foot wear stand in the smile of fashion; here to-day you'll find beauty and fineness and beauty and goodness in dozens of makes in bright or natural colored and black leathers—light, easy, graceful shapes, in fine, soft and flexible leathers, that are cool, comfortable and durable. If you care not for Russets because of the thought that too many are wearing them or that you wish something different, it's more than likely we've the pretty Oxford in black you're looking for. We've medium grades at economic prices as well as the finest at greater cost. Here's a pretty Oxford at 75c., India kid, patent leather tip, sole-leather counters, hand-turned, and a better grade, kid lined, at $1.00. Another with heavy soles, pointed toes, patent leather tips, excellent for service, at $1.25. And still another at $1.25, kid uppers, plain opera toe, ties, medium height heels. At $1.50 a very pretty kid opera toe, plain and patent leather tips, flexible soles, B, C, D and E widths. At $2 a bright Dongola kid, common sense, plain toe, low heels, B, C, D and E widths. Again the price is $2, very neat seamless Paris kid Oxford ties, patent leather tipped, hand-sewed, pump soles; an excellent shoe for service. Finer grades, hand-sewed, patent leather tipped, $2.50. Finest French kid, hand-sewed, B, C and D widths, $3.50. Ooze calf grades, fine, with patent leather vamps, hand-sewed, B, C and D widths, $2.50 and $3. More to see if you've time enough to spare to examine them.
