ARRANGING TO SAW LOGS. THE MEN WHO PURCHASED THE STRAY TIM-BER LOOKING FOR A MILL SITE.

They are l'uzzled to Find a Location For a m-A York County Barn Burns. Spontaneous Combustion Ignites It.

COLUMBIA, July 2.—Col. James Cochran Nelson Byers and Edward Eberman, the purchasers of the stray logs and timber in this vicinity, amounting to 20,000,000 feet, were in town yesterday looking for a site for a saw mill to cut up the timber. Bruner & Bro.'s saw mill, at the foot of Mill street, was thought to be the most suitable place, but the subject of a boom to hold the er is a serious matter. The river front at Columbia is not thought suitable for a boom large enough to hold this large amount of timber. The work will take about two years, and would be done in Columbia if proper arrangements can be made for the boom.

A large barn on the farm of John Strickler, about a mile back of Wrightsville, was totally destroyed by fire yesterday after-noon. The barn had been stocked with new hay and spontaneous combustion was serious to Mr. Strickler, who had purchased the farm about three months ago.

A tent will be pitched and dinner served to the company.

William Templin, who has been conductor from Reading to Columbia for the past nineteen years, enters on a new run on Friday. He will run from Quarryville to Reading one day and from Quarryville to Lebanon the next day. Gen. Welsh post and the Canoe club will meet this evening.

Mr. and Mrs. W. B. Given left town today for a trip to the Yellowstone Park.

Market will be held on Wednesday after.

The Rellef Committee's Work Over. Last evening the Johnstown relief committee held a meeting at which the following* members were present: Mayor Edgerley, Messrs. John I. Hartman, W. A. Morton, W. M. Franklin, Henry Baumgardner, J. Gust Zook, W. H. Bateman, H. R. Breneman, D. S. Bursk, Jacob Pontz, Valentine Wise and Henry Wolf.

The mayor presented the report of the auditing committee, as already published in the INTELLIGENCER. It was received and unanimously adopted, and the committee was discharged.

The mayor reported the result of the conference with Governor Beaver, showing the plan for the distribution of the funds. and the committee was perfectly satisfied. The balance in the mayor's hands was ordered to be forwarded to Governor Beaver with any more that may come in, and the committee then adjourned sine die.

This morning the mayor sent his check to the governor for \$11,025.31. Afterward \$2 from "cash" and 66 cents from a " jar that hung on a West King street awning post" came in. It will be sent on shortly. A Committee's Investigation.

The special committee appointed at the last meeting of councils to inquire as to the propriety of utilizing the old city water arks as an electric light plant for the city, met vesterday at the mayor's office. The committee is composed of John J. Altick, chairman, W. R. Riddle, Frank R. Everts, Dr. R. B. Underwood, and David L. Deen clerk. With Water Superintendent Frailey the committee drove out to the old water works, where they met Engineer James Felienbaum. An examination of the boilers remaining in the building was made, and it was found that there was 260 horse power. It was agreed by the committee to secure an expert for the purpose of ascertaining what amount of water power can be obtained from the dam.

It is claimed that a very good plant can be made at this place to furnish the city light and also supply business places at reasonable rates. At present the cost of electric, gas and gasoline lights to the city

Forgive me, mother, for what I am going to do, for I think it is for the best. I would like to see you all once more, but then, were I to see you it would probably change my plans, and as 'delays are dangerous,' I will not see you. Now, I will bid you all good-bye, and if there ever was a person tired of life I am he. Good-bye all and God bless you."

MT. GRETNA.

MT. GRETNA Park and Narrow Gange Railroad.
The aim of its management is to make Mt.
Gretna the most destrable day resort in Pennsylvania; to this end every form of amusement and convenience for excursions and pienies is here provided.
The especial attraction this year at Mt. Gretne

here provided.

The especial attraction this year at Mt. Gretna is its Narrow Gauge failiway, the completion of which throws open for view the magnificent scenery of the South Mountain. This little two foot gauge railway, unique in design and construction (the only one of its kind in operation), stone ballasted and steel railed, begins at the entrance to the Park and terminates at Governor Dick, the Summit of the South Mountain, L200 feet above the sea level. Its cars are miniature reproductions of the highest type of carbuilding.

OBSERVATION CARS.

The trains over this division consist of Observation Cars, affording an unobstructed view of the seenery en route. They pass in full view of the Minitary Parade Grounds, Lake Conewago, the State Ritle Range, and over Horse Shoe Bend, gradually ascending until GOV ERNOR DICK is reached, four miles distant. The view from the observatory is especially noteworthy. Church, school, military, and civic organizations, clubs and tourist parties can have free and exclusive use of the Park on application to H. A. GROSS,
