His name was William Mullins, and
He had a sneerin' way
Of turnin' his proboscls up
At everything you'd say.
"Wall, now, how do you know?" said ha.
"Humph, now, how do you know?"
The way it closed an argument
Wasn't by no means slow.

You might be talking social like
With fellows at the store
On war, and politics, and sich.
And you might have the floor
And be a-gettin things down fine,
Provin' that things was so,
When Mullens would attek his long nose

I seen that critter set in church And take a sermon in, And turn his nose up in a sneer At death, and grace, and sin.
With no regard for time and place.
Or realins of endless wee.
He'd rise and bust the whole thing up

He cut his grass whenever it rained.

He shocked his wheat up green,
He cut his corn behind the frost, His hogs was allus lean. He built his stacks the big end up, His corn-cribs big end down; "Crooked as Mullins' roadside fence"

The older he got the worse he grew. The older he got the worse he grew.

And crookeder day by day;
The squint of his eyes would wind a clock,
His toes turned out each way,
His boots and shoas were both of them lefts,
The rheumails twisted so;
But if you said he didn't look well
He'd growl, "Now, how do you know?"

And that darned grit led to his death-And that derived grit led to his death— He was on the railroad track Crossin' a bridge; I heard the train And yelled, "Mullins, come back! The train is round the curve in sight." Says he, "Humph, how do you know?

in statement will do for me. A hint instead of a blow; coroner's jury may fetch out facts, But it's rather late to know. —C. M. Snyder in Boston Globe.

The safest and most effective, as it is also the most genial, lax-ative and anti-billous medicine in existence is Hostetter's Stomach Bitters, and it is more than probable that its sovereign efficacy as a preventive and remedy for intermittent and remittent fever is largely due to its reformatory remittent lever is largely due to his recommany action upon the liver, an organ prejudicially involved in all malarial complaints. Persons with a tendency slass to rheamatic, neuralgia and kidney trouble can not do better than to antagonize it with Hostetter's Stomach Bitters, which invariably checks it at the outset. The weak, moreover, are invested with strength by this fine invigorant.

GOLDEN SPECIFIC.

-OR THE-

GOLDEN SPECIFIC.

It can be given in a cup of coffee or tea without the knowledge of the person taking it; is absolutely harmless, and will effec a permanent and speedy cure, whether the patient is a moderate drinker or an alcoholic wreck. Thousands of drunkards have been made temperate men who have taken Golden Specific in their coffee without their knowledge, and to day believe they quit drinking of their own free will. IT NEVER FAILS. The system once impregnated with the Specific, it becomes an utter impossibility for the liquor appetite to exist. For sale by CHAS. A. At figures now marked upon them there cannot be a single doubting Thomas. We have them in large sizes only—7's to 11's, inclusive. Warranted to have genuine tannery calfskin uppers, some with dongols and others with glove kid tops, solid leather inner and outer soles and heels, single sole leather counters, good substantial trimmings and linings. Opera and Paris toe lasts. Excellently finished, strongly made, neat fitting and very pretty. Among these makes are the following: Packards' Celebrated \$2.90's, the James Means \$3 shoes, Field, Thayer M'fg Co. and The Hill \$3 improved welt shoe. The \$3 and \$2.50 grades have been cut to \$2. At the price they ought not bide with us long. They were not made to sell for so little money. The Premier Safety Bicycles.

Did you see the two-mile race on Thursday, with the following machines in the race: Premier, Swift. Victor and Columbia? The first man in was W. I. Wilhelm, of Reading, Pa., on a Premier. The second man in was W. W. Taxis, of Philadelphia, Pa. on a Premier. The fourth man in was W. I. Grubb, of Pottstown, Pa., on a Premier. The Premier machines are manufactured by Hillman, Herbert & Cooper, Coventry, England. The third man in rode an English wheel also, and the Victor and Columbia, both American wheels, can e in effer them. Why do these racing men select the Fremier? The answer is very simple. The effected the Fremier for that reason, and they won. To manufacture cycles of the quality that will both sell and satisfy, these qualifies tions are essential. Best material, riding experience, mechanical knowledge and skill, superior manufacturing facilities, and a conscience. We modestly claim to have embodied these in the construction of the Fremier Safeties and Tandems. The American tendency is toward invention, isnovation, novelty. The English toward conservatism, practicality, simplicity. Some American manufacturers claim their machines have more parts, and continues to manufacturer than the English wheels, and do not sell them for more than the English wheels. The manufacturers of the Fremier wheels claim that every joint, spring, boilt, nut or extra part added to a wheel increases its liability to rattle, increases its weight, decreases its rigidity and strongth, decreases the rider's power and increases the cost of maintenance. Would you like a light weight wheel? We have it in the Catford Premier, ball bearing all over, weight is a light weight wheel? We have it in the Catford Premier, ball bearing all over, weight is b, price \$135. The special Premier, for either lady or gentleman, is not equaled by any other make, either foreign or American manufacture, in beauty of outline and finish, ball bearing all over, weight is b, price \$135.
