

Daily Intelligence.

ANDREW J. STEINMAN, CHAIRMAN; EDWARD POZZI, Editor; ROBERT CLARK, Publisher.

LANCASTER, PA., August 2, 1899.

A Democrat for Steinhann's Place. Our friends, the political enemy, who are so complacently acquiescing in the determination of Lieutenant Governor Davis to not issue a writ for the election of the late Senator Steinhann's successor, may not fully realize what they are doing.

The lieutenant governor cannot excuse himself on the ground that it involves the public in unnecessary expense, for the choice can be made without extra cost, at the general election now coming on.

The truth is that the vacancy exists and must be filled. The lieutenant governor's neglect of duty cannot prevent that. If the Republicans make no nomination, the Democrats will elect.

It has been many a year since this county has sent to the Legislature a man qualified and equipped for the position he is expected to fill, that of a law-maker.

Men in the legal profession perhaps more than any other class of citizens know the dangers of repealing, altering and making laws.

But our Legislatures do meet and will meet, whatever be said of them. The only thing for good-minded and law-abiding people to do is to send as their representatives good, intelligent men, and there ought to be as much selection in electing a state senator or representative as there is in filling the judiciary.

The matter of the making of laws is no easy task. It requires a knowledge of technical legal phraseology, which comes only with experience. It requires depth of mind sufficient for the comprehension of the principles of right and jurisprudence which lie back of the form of expression.

The journey of the champion slugger from New York to Mississippi is somewhat different from the one he made in the early part of July last. It is true he travels in style and state now as then. He is enjoying the best of palace car accommodations, but the manacles of the officer of the law are upon his wrists.

The August number of Belford's Magazine is full of the brightest literary gems. Its prose and poetry are by popular authors, and the productions are of the kind and size for the reader in the library as well as in the hammock.

No More Hazing. The school board did a very wise thing last night when it placed heavy penalties on the barbarous custom of hazing in our American colleges.
