The enforcement of the dog tax ce is not for revenue, but to get rid of the worthless curs. The assessor gets ten cents for every dog assessed, but not twenty. The collector receives fifteen cents perdog and the dog catcher receives fifty cents for each dog caught and fifty cents if killed and buried, not one dollar and a half. The owner to redeem a dog must pay a tax of one dollar, and fifty cents for the catcher. If 250 owners would pay the tax and 75 dogs would be caught, killed and buried, the expenses to the borough including everything would not be fifty dollars.

THE FLOOD COMMISSION. Steady Progress of the Work of Relief and Revision of the Registration.

The following has been received from the Johnstown food commission:

Johnstown flood commission:
OFFICK OF THE FLOOR RELIEF COMMISSION.)
HARMISSICE, PA., August 6, 1838.
A meeting of the state flood commission was held at Johnstown Wednesday, July 31st. During the morning a public session of the commission was held, and citizens desiring to address the commission were invited to do so. Under this invitation members of the Johnstown school board presented the interests of the public schools, and requested an appropriation for the maintenance of the schools for the coming year. Cyrus Elder, esq., addressed the commission regarding the needs of the Johnstown fire department, and certain questions of detail in the executive work of relief.

questions of detail in the executive of relief.

John McMillan, esq., spoke upon the house building xork of the commission, and the Rev. J. W. Beale, D. D., pastor of the Presbyterian church, and W. H. Rose, esq., spoke of the popular objections to the methods of the commission.

The commission found the work of distribution the last appropriation of \$500.

The commission found the work of distributing the last appropriation of \$500,000 progressing, and made further arrangements towards pushing the distribution of money with all possible care and dispatch. The present distribution was begun upon the registration and award of the Johnstown board of inquiry which was believed to be accomplete asystem at least so Johnstown board of inquiry which was be-lieved to be a complete system, at least so far as supplying a register of all claimants. Although this registration had been made with much labor and care, over eleven hun-dred new claims have arisen as the pay-ments of the present distribution have pro-ceeded. There being no bar of limitation to claims, justice to needy sufferers has compelled attention to these new claim-ants; this, and the apparent need for a re-view of many of the decisions previously made by the board of inquiry, has com-pelled some delay which was not antici-pated. It is, however, the judgment of the pated. will be in the hands of the recipients in a very short time.

The commission has already shown its appreciation of the work of the local com-mittees in Johnstown by accepting their system and figures as the basis of the first money distribution, and it desires to still avail of all possible local help in the further and final distribution of money relief. This distribution the commission is extremely anxious to make at the earliest possible anxious to make at the earliest possible date in such a manner as to correct any inequalities of the orlier awards. To promote this end a committee has been created and directed to report promptly upon the experience gained in the first distribution that a plan may be speedily formulated for the final wards.

The commission is expected to meet many theories of distribution inconsistent with the principles which have been

with the principles which have been adopted for its guidance, and is also compelled to deny many demands for relief and indemnity which do not accord with those principles.

Mills Attached for \$112,000.

The Riverside and Oswego worsted mills at Oswego Falls, N. Y., was attached on Monday by the sheriff in a suit for \$412,000.

The company is a foreign organization, doing business and operating large factories at Providence, R. I. The business offices are at the latter places, and the capital stock of the concern is about \$1,000,000.

There are said to be but five stockholders and they are E. P. Chapin, president, Providence; J. K. Brown, treasurer, Providence; Angust B. Juliard, New York, and idence; Angust D. Juliard, New York, and one other person whose name is not known. The home office is in Providence and the cloth manufactured in Oswego Falls was shipped there to be finished. Ju-liard & Co., of 53 Worth street, New York. have, it is said, bandled the entire product

of the company's mills.

About five years ago the present company was organized. Previous to that time the extensive mills at Oswego Falls were operated by another company in which Juliard was a heavy stockholder. The old company becoming embarrassed, the property was sold at a sheriff's sale and was bid in by Juliard for \$105,000. The present company was then formed. Immediately extensive improvements and additions to the already extensive works were begun and in five years \$750,000 worth of better ments were made. The immense outlay prevented the concern making any great earnings prior to June, 1888 but there were

no losses, and for the past year the profits are said to have been very satisfactory. The plant and machinery of the company The plant and machinery of the company is valued at between \$1,500,000 and \$1,600,000, and the stock on hand is valued nearly a million. The works have been running steadily for the past five years, and gave employment to about 1,200 people, and their monthly pay-roll amounted to \$23,000. Last night as the employes left the factory they were informed that the mills would shut down, and the superintendent was unable to tell them when they would recover. It is not how. when they would reopen. It is not, how-ever, thought that the suspension will con-

tinue for any great length of time.

A. D. Juliard & Co.'s attachments were at D. Juliani & Co.'s attachments were upon the property to secure advances made to those nulls, aggregating \$412,000. The relations between the house and the corporation running the mills has been cloubut the attachments, a member of the firm said, were simply precautionary measures, and there was no prospect that the house would suffer any loss. The mills are run together, manufacturing coatings.

at last evening's meeting.

The Registry of Voters. The registry of voters for every district in the county is now at the polling places. These registries should contain the names of all the voters who were in the districts in the month of June. The assessors will sit at the voting places for two days in the veck of September and add the names of those not on the list who present themselves and prove that they are residents of the district claimed to be their homes. It would be well for all voters to scan the lists and see that their names are not omitted.

BOOTS AND SHOES. EXCUSE US,

But it makes us smile at the claims made by some dealers. They give nearly everything at cost. They have no profit if you believe all they say, yet make money reasonably fast. Can you account for it? We are trying to give customers full value for their money and will not humbug them by claiming to sell below cost. We claim to have the best Shoe for men at \$3.00 to be had anywhere, and will put it against all others. A fine bright Dougola Button for ladies at \$2.00 and \$2.25. We also have a tolerably full line of cheap shoes for men, women and children. Try us,

Respectfully Yours,
