ESCAPED FROM THE STATION HOUSE John Quinn Finds But Little Difficulty In Getting Out of His Cell.

Constable Eicheltz found John Quime belplessly drunk on the pavement at the Southern market on Thursday afternoon. He took Quinn to the station house and he was locked in a cell op the cast side of the

Quinn was supposed to be secure in his ell until late in the night when Sergeant Hartley was informed by Officer Flennard that Quinn had escaped from the station house. The information was conveyed to Officer Flennard by a young man who had met Quinn and to whom Quinn told that he had escaped.

An investigation at the station house showed that Quinn had no difficulty in making his escape. He tore a piece of board from the wainscoting and with it he pushed into the yard the frame containing the iron bars. The wood work around the bars was very rotten and it required scarcely any effort on the part of Quinn to

Quinn says he made his escape before dusk and went direct to his home on Strawberry street. Sergeant Hartley detailed Officers Flennard, Crawford, Olt and Messenkop to go in search of Quinn. They found him at home and he made an effort to escape through a back window, but when he saw an officer stationed there he surrendered, was taken to the station house and locked in and iron cladeell,

WHERE IS THIS JOHN BROWN! Money Waiting in Chicago for a Colored Man Supposed to Be Herenbout. An inspector of the Fidelity Mutual Life

association was in town yesterday afternoon looking for a colored man named John Brown, who is supposed to be some where in this locality. It appears that Brown was, up to last February, in the employ of a party in Chicago. About that time he left that city, coming East. Since he left Chicago it appears that some woman has died leaving to him a considerable sum of money. Search has been made for him, but so far without any success. Rev. Fenton Harris (colored) reports that a man whom he supposes to be the party wanted was here in the winter and early spring-The inspector attributes the difficulty in finding Brown to a conspiracy which is on foot to keep him under cover,

Tobacco and Dough Rotters Fight.

From the Little Record. Conrad Tanner, a German baker of this place, has had a grudge against this place, has had a grudge against Ja ob Knier, a Manheim agarmaker, for some time. On Saturday evening Knier was seen in town by Tanner. Tanner followed him and they met near the railroad depot. There were few words batween them until they came to blows in true bull-dog style. They kept it up until simost exhaused, when they separated, atcols veral paces and looked at one another. Knier walked away and when he reached the pavement in front of Bricker other. Knier walked away and when he reached the pavement in front of Bricker & Snavely's office he was again attacked by Tanner. Another combat ensued without ceremony and they went into the fight the ware determination than in the first with more determination than in the first round. Knier had his shirt torn off and was knocked down. Tanner held him down by the throat and was ready to give his antagonist a right-hander, when Knier's feet came flying up in Tanner's face, giving him several kicks so unexpect-edly and so forcibly that he was obliged to leave go and take to his heels, which ended the fracas.

NORVIN GREEN AND WANAMAKER. Green Says That the Government Has

Reen Well Paid For Concessions. In the controversy between the Western Union Telegraph company and the post-master general, on the part of the govern-ment it is claimed that its business should ment it is claimed that its business should be done at a cheap rate because the com-pany has received incalculable benefits by its occupation of post roads. In reply the president of the Western Union company says that the act of 1866 referred to by Mr. Wanamaker did not and could not give the company the right to plant its poles on any but lands actually belonging to the govern-ment. Dr. Green says:

The milroads are post roads, as well as

ment. Dr. Green says:

The railroads are post roads, as well as some of the highways, and if the government gives us the right of way on post roads, why should we have to pay the railroad companies for it? We have to contract for our rights of way from the parties who own them, whether railroad companies, or individual land-owners; and in case of streets and highways we have to obtain license from the city, county or state authorities, or condemn under authority of state laws.

The act to which you refer gives the tele-

graph companies accepting it the right to take stone and timber from the public lands, and to pre-empt and enter not ex-ceeding forty acres for each station. We have never needed to use any stone; and since the passage of that act the railroads across the continent have afforded ample facilities for transporting codar for poles, which is more durable and economical than the native timber. As to pre-empting forty acres of land for a station, we have forty acres of land for a station, we have found that wherever a telegraph station was needed there were no unoccupied government lands. It is true, therefore, that we have never taken a stone or stick of timber, or appropriated a foot of public land under that law.

Dr. Green insists that the power of the

postmaster general to regulate tolls is limited by the constitution to a just compensation for the service required, and that a just compensation must cover the actual cost of the service. He adds: I still insist that the government is our

most favored customer, and that the rate for government service during the past five years, considering the character of the service, is lower than that given to

Tried to Give the President a Scare. One of the teams of the Boston City Parcel Delivery company was stopped in the street on Wednesday by an unknown man, who handed the driver a small parcel directed to "President Harrison, Hotel Vendome," The driver was some-Hotel Vendome," The driver was some-what elated at the prospects of having the opportunity of delivering a parcel to the president, and took it to the main office, No. 42 Summer street, where the superin-tendent, Edwin, O. Fitch, directed him to open it carefully. Several paper wrap-pings were removed, beneath which were two pieces of thin beard, such as would be used to protect photographs or glass from injury. The man who was opening this mysterious parcel was not in the most enviable frame of mind all this time. His mingled emotions of pleasure and anger, however, when he had disclosed the entire "mechanism" of "the infernal machine" need not be described. He found at the bottom of the package only a book, which bore the startling title, "Dynamite Cartridge." Between its leaves was a card of matches and nothing more. The book was again wrapped up and delivered to the clerk at the Hotel Vendome, and probably reached the president or his private secretary.

LABBY DOES THE BIG TOFF. He Astonished the Walter, But Never Went There Again.

I sallied forth to the largest hotel in Eton, engaged a private room and ordered the waiter to bring me a bowl of punch. The discreet functionary stared, but brought it; it was then my turn to stare and wonder what on earth I should do with the huge bowlful of a fluid the very odor of which made me feel faint. At length, my eye rest ing upon a good old-fashioned cupboard of antique oak, a brilliant idea struck me. opened the door and poured the whole of the punch into the basement of the cupboard. Then after waiting a few minutes make inroads upon the carpet, the pattern of which was that of golden crowns on a royal-blue ground, I rang the bell again, and, on the waiter appearing, in still more authoritative tones I ordered another bowl. Never shall I forget the expression of horrified amazement which came over the man's countenance. A Death Laid to "Jack the Peeper," Bestin Laid to "Jack the Peeper."

Bestides terrifying nearly twenty women at Elizabeth, N. J., by his midnight pranks, "Jack the Peeper," that mysterious individual so often seen but never caught, is now accused of causing the death of Mrs. John McCarthy, who died a day or two ago. Her house was invaded by the Peeper about two weeks ago and the immates were badily frightened. Mrs. McCarthy was lying very sick at the time and the shock she received caused a relapse, from the effects of which she was unable to rally. Her friends say that the unknown scamp is largely responsible for her death, and threats of lynching him if caught are made. The police are becoming alive to the fact that the anger of the citizens has been aroused by their lack of activity in hunting down the offender, and are now putting forth extraordinary efforts to discover his identity.

End of the Coke Strike.

Another riot occurred at the Carrie furnace at Keating Station, Pa. The strikers were at their camp on the hill when one of the guards gave the signal that new men were approaching the furnaces. The strikers shouted at them to stop, and sent a shower of stones after them. One of the strikers drew a revolver and fired, but did not strike the flesing men, who kept on to-ward the furnace, and succeeded in reach-ing the works. The furnaces have been blown out, and work may not be resumed for a month.

Says He Was Forced to Marry a Woman He Never Saw Before. The history of a mysterious marriage was filed with the clerk of the superior

was filed with the clerk of the superior court in Chicago on Thursday morning, and the matter will come up in the usual way, to be heard in the divorce court.

Robert B. Mitchell is the complainant, and he says he was forced into a peculiar marriage. On the 25th day of last August, he says, he was at the depot to take a train for Evanston when two men, claiming to be detectives, accosted him and said there was a man at the Avenue house in Evanston who very much desired to see him. Against his will, the bill alleges, Mitchell was conducted to that place, where he met one McCord, who informed him that he would be compelled to return with the party to Chicago and marry a woman named Anna L. Callis. To this proposition, it is asserted, the plaintiff objected strenuously, but in vain. The detectives claimed to have the power to arrest him, but upon to have the power to arrest him, but upor

what charge they did not say. Accordingly, he retruned to Chicago the same day with McCord and the detectives. He attempted to escape after leaving the train, but they held him and conducted him by force to the Clifton house, it is alleged. McCord then left, with one of the detectives, as he said, for a marriage license and a minister. The woman was brought in, and for the first time, it is said, the plaintiff set eyes upon her. He ran to the other door to escape, and found the other detective on guard. Presently, the other detective on guard. Presently, the two who left returned with the minister and the license, and the ceremony, it is charged, was performed against Mitchell's will and in spite of his protestations. Then he was permitted to depart, which he did, never seeing the woman afterward. An affidavit accompanying the bill gives the woman's residence as Martinsville, Ind. The prayer of the bill is that the court declare the marriage null and void. declare the marriage null and void.

BOOTS AND SHOES.

EXCUSE US, But it makes us smile at the claims made by some dealers. They give nearly everything at cost. They have no profit if you believe all they say, yet make money reasonably fast. Can you account for it? We are trying to give customers full value for their money and will not humbug them by claiming to sell below cost. We claim to have the best Shoe for men at \$5.00 to be had anywhere, and will put it against all others. A fine bright Pongola Button for ladies at \$2.00 and \$2.25. We also have a tolerably full line of cheap shoes for men, women and children. Try us,

FOR THE SHOP, MILLOR FOUNDRY.

MEN'S EVERY-DAY SHOES!

The shoemakers' troubles in the East bring to us bargains in Footwear. We found a spot where Shoes were thicker than buyers, where money was preferred than buyers, where money was preferred to manufactured products, and prices fell to our liking—low down. Spick and Span Shoes, good for wear, with less fault in style than generally goes for so little. Among them, at \$1, we have what the maker calls "The Wonder." Half-goling and healing seek autic. Half-soling and heeling costs quite as much). Have seamless uppers, with neat tips, good trimmings and linings. Nicely shaped and more durable than you'd think. Good Shoes for Shop, Mill or Foundry wear. Not so unshapely either that they might not do for dress. At \$1.25 we've another line. Seamless Buff Vamps, with imitation Dongola tops, lace or Congress, as you'll prefer. Well made and finished, fitting the foot comfortably and neatly. The more you see them, the more you wear them, the better grows their liking. At \$1.50, the grade's a notch higher up. All leather shoes, from heel to toe. Have seamless vamps with imitation Dongola tops: soles, fair stitch edged, giving them the appearance of higher grade shoes. hoking, good wearing, and worthy a trial. Would you buy a Button Shoe, cheap? We have them. Sacrifice a point in style and we'll put dollars in your purse. \$3 shoes for \$2: \$5 shoes for \$3. That's the way prices run. Do they will you? If so see is later.
