Vacation.

We are now in the midst of what is termed the annual vacation season, a season which may be made profitable, agreeable and useful, and bring to the tired brain and frame new vigor and life.

How do you sharpen it? Not by putting it on the home every time, if you do that, you are in danger of reducing it to a mere back, and you must rest it away as useless.

By all means have a vacation, whether you are a boy or girl at school, a teacher, clerk or student, lawyer, judge, legislator, editor, preacher or mechanic, or whatever else you may be.

A short vacation when you are tired and weary with business or study, will do a vast amount of good.

However, in recent years especially, vacations have in many instances been so lengthened out and extended to months, instead of remaining within the bounds of weeks, that we have strong doubts of a good and beneficial effect.

Perhaps you will blame us, as the proverbial cow is blamed for giving a pail of milk and then kicking it over; but vacation time is to a great extent abused by many.

Too much vacation is as hurtful, if not more so, than too little, unless, indeed, it is spent in travel which is a kind of education.

Sarah Althea Hill.

In the general discussion which is going on over the country in regard to the killing of ex-Judge and ex-Marshal Terry, it must not be forgotten that his companion in crime was the notorious Sarah Althea Hill.

When the "elixir of life" is alive with health it would appear to be an elixir of death.

When the "elixir of life" is alive with health it would appear to be an elixir of death.

Has anyone said John W. Mentzer collector of internal revenue?

THE Introduction to Poor's Manual of the Railroads of the United States for 1889 has not been issued.

It gives the usual imposing and interesting summary of statistics of railroads. For example, it is shown that there has been an increase in the mileage of our railroads of 7,028 miles in 1888, which is 4.7 per cent. of the total mileage to the end of that year, when we had over 106,000 miles of track.

Another unfortunate brought to Lancaster badly mangled, and laid out in a wagon. Hurry up that ambulance!

INTERESTING TO DISTILLERS.

The Use of Cases Previously Rejected at the Same Distillery Prohibited. The commissioner of revenue has issued a circular prohibiting the re-filling at distilleries of cases or packages previously used at the same distillery.

The repeated removal of the stamps, marks, brands, confederate seals, and so on, renders them so thin that the callipers will not indicate the true length, while the repeated removal of bands depresses and flattens the cork so that the callipers will not indicate a true mean diameter.

A DROWNING ACCIDENT.

Two Lives Lost While Trying to Secure a Coffin Dam. An accident resulting in the drowning of two men occurred at Slatington on Wednesday last.

SOCIETY EVENT IN WYOMING.

They fit and fit. And gonged and hit. And scolded in the mud. Until the ground For three miles round.

HOOD'S SARSAPARILLA.

It is absolutely necessary in order to have perfect health, Hood's Sarsaparilla is the great blood purifier, quickly conquering scrofula, salt rheum, and all other venereal diseases.

PHILIP'S THE BLOOD.

"I had a slight blood disorder which I thought nothing serious, but it grew into a bad form of skin disease, which some called lupus, breaking out on my arms and neck all over my body.

LEVAN'S FLOUR

Still Holds the Fort.

We have the biggest mill in the world, but our mill is not the best in rural society, and it will doubtless interest city people who enjoy introducing unique features at their social entertainments.

SULLIVAN ON TRIAL.

He Pleads Not Guilty to the Indictment. The Flight Described. The jury was completed after considerable delay and Sullivan placed on trial at Parvix, Miss., on Thursday.

"Not guilty," replied Sullivan, with emphasis, in a clear voice. He then sat down on the trial, was asked by the Attorney General Ford, who conducted the cross-examination for the defense.

"The first witness examined was Major W. W. Robinson. He went to Richburg on the morning of July 1st, arriving there before daylight; was a deputy sheriff; saw the ring pitched and proceeded to give a very good account of what took place, describing the scene in detail.
