That rich attractive bonnet shining,
"A thing of beauty" in the street
Or church, is valued for its lining;
A face that's radiant and sweet.

The admiration of a lover, Unkindled by the richest lace or splendid plumes that wave above her, Is lit by her fair winsome face.

He thinks of a bright arch of roses, Where plighted lovers soon will stand; And when the ceremony closes No happier pair will grace the land.

The glory of a beauty's bonnet
Which wins at sight our hearty praises,
Is seen within it, not upon it,
It needs not daffodils nor datales.

DANGEROUS WIRES.

Engineers Pass Resolutions—Un-derground Wires in Chicago.

The following resolutions were unanimously adopted at the late convention of the National Association of Fire Engineers, held at Kansas City, Mo.:

Whereas, The present method of overhead wires, carrying high potential currents suitable for arc lights, electric railreads, power, etc., are exceedingly dangerous, especially to firemen when in the discharge of their duties, therefore be it Resolved. That we urge upon all legislative bodies, both municipal and state, that the only conceded safe method for the transmission of such currents is underground.

ground.

Resolved, That wherever any overhead method is allowed or tolerated, that every known precaution should be required by suitable laws or ordinances.

Resolved, That the present method of insulation of overhead wires is very imperfect, and however good apparently, deteriorates rapidly after being put up, and is virtually not insulation.

Resolved, That the various fire chiefs throughout the United States should in no manner iconardize the lives or limbs of the

throughout the United States should in no manner jeopardize the lives or limbs of the members of their departments, until they have first assured themselves that no currents are passing on such overhead wires, in the immediate proximity of the fire.

Resolved, That the most rigid inspection of wires entering buildings, carrying high potential currents, should be had by competent authority, and every precaution taken to prevent any possible contact of such wires with those of telephone and fire slarm wires, water or gas pipes.

such wires with those of telephone and fire alarm wires, water or gas pipes.

Resolved, That we earnestly call upon all municipal and legislative bodies, and urge the necessity of suitable legislation and inspection of the present dangerous system of overhead wires, for the purpose of lessening the dangers and evils thereof.

Resolved, That we, the National Association of Fire Engineers, in convention assembled, emphatically assert that the only safe method for such currents is underground, and place our most unequivocal ground, and place our most unequivocal condemnation on all overhead or sus-pended wires, for the reason of its great

pended wires, for the reason of its great danger to life as well as to property.
Commenting on the above Professor J.
P. Barrrett, of Chicago, said:
In Chicago we have some 3,100 or 3,200 are lights. Every inch of the wire connected with these lamps is underground. The potentiality is as high as 3,500 voits, and there is no difficulty in the working of the wire underground. The only objection is that it costs a little more to put them underground; but there they are safe.

The Spartan Virtue of Fortitude Must be possessed in no ordinary degree by those who bear the pangs of rheumatism with-out complaint. We have never heard of such an invividual. But why not, ere the lifelong martyrdom begins, extinguigh the germ of this atrocious malady with Hostetter's Stomach itters, the efficacy of which as a preventive the disease, as well as a means of relieving it, well established and amply attested during the last thirty-five years, over professional sig-natures? It expurgates from the blood those acrid principles which beget the pain and in-flammation characteristic of this complaint, which, it should be recollected, is always hable to terminate life suddenly when it attacks a vital part. The Bitters also expels the virus of malaria from the system, remedies dyspepsia, kidney complaint, constipation and billous-ness, quiets the nerves, and invigorates the whole physical organism.

THE most obstinate cases of catarrh are cured by the use of Ely's Cream Balm, the only agree-able remedy. It is not a liquid or sauff, is easily applied into the nostrils. For cold in the head it is magical. It gives relief at once. Price 50

This Remedy is the prescription of one of the leading physicians of Paris, France, and was used by him with unparalleled success for over thirty years, it was first given to the public as a proprietary medicine in 1878. Since which time it has found its way into almost every county on the face of the globe, and become a avorite remedy with thousands of the leading physicians. Medical societies have discussed its marvelous success at their annual conventions, and after their official chemists have analyzed it and found that it contained no opiates, bromides or other harmful ingredients, quietly placed it among their standard remedies.
