NATURAL GAS SCARCE.

ay to cap the climar. It was thought serially that the difficulty experienced he mills on account of the scant supply a would not be repeated, but, notwithding assurances that everything would all right, the condition of affairs to-day more deplorable than ever. In fact e was almost a general abut-down in the mills in the city. In the language one of the mill-workers, "There is celly snough gas in the furnaces to-day coast a potato, and the prospects for a age to the better are alim."

Then the gas run short during the cold of a few weeks ago the gas companies and reason the fact that they were putting a new thirty-six inch main in the Murraysville field to a point a miles from East Liberty station. It said that as soon as this line was comed, which was to be a week ago last inaday, there would be enough gas to ply every mill and family in the two is. It was given out officially on Wedday that this main had been completed that the consumers need hereafter have bears of recurrence of the former difficulty, have stood for naught, and to-diff anything, there is less gas in the than at any time during the present on.

A gentleman connected with a Pittaburg proporation which makes it a business to seep posted on the development of natural at throughout the country said on Tuesday evening: "The days for the use of stural gas as a fuel for manufacturing arroses are about over. The information have received from the Indians. Ohio do Northern Pennsylvania districts over plainly that the gas corporations two come to the conclusion that the gas is o precious to be wasted, and for this ream they will only sell it on the most econowell known that the manufacturers use too large a quantity to have it supplied through a metre and for that reason the companies prefer to shut them out altogether. It is not so much a question of a decline of the fuel, but the gas companies, realizing the value of it, are desirous of prolonging its existence as long as they can. That is the reason they increase the price to such a point that the factories cannot afford to pay for it and hence they are forced to go back again to coal. I have information here to the effect that all the manufacturers in the Ohio Valley, Indiana and Northern Pennsylvania are contemplating a return to the use of coal. In the future natural gas must be considered a luxury and as such it will have to be purchased."

RADICAL AND PERMANENT.

No single disease has entailed more suffering or hastened the breaking up of the constitution than Catarrh. The sense of amell, of taste, of sight, of hearing, the human voice, one or more, and sometimes all, yield to its destructive influence. The poison is distributed throughout the system, attacks every vital force, and injures the most robust of constitutions. Ignored, because but little understood, by most physicians, impotently assailed by quacks and charlatans, those suffering from it have little hope to be relieved. It is time, then, that the popular treatment of this terrible disease by remedies within the reach of all passed into hands at once competent and trustworthy. The new and hitherto untried method adopted by Dr. Sanford in the preparation of his RaDical Cure has won the hearty approval of thousands. It is instantaneous in affording relief in all head colds, sneezing, snuffling and obstructed breathing, and rapidly removes the most oppressive symptoms, clearing the head, sweetening the breath, restoring the scase of smell add anste, and neutralizing the constitutional tendency of the disease towards the lungs, liver and kidneys.

shock or trace, by the Electric Needle operation.

In answer to many letters from fashion and scientific journals and from ladies from all parts of the country, in reference to this operation, Dr. Van Dyck respectfully states that the Electric Needle process is endorsed by all physicians and surgeons of eminence as being the only method known to science by which superfudus hair can be destroyed. It is almost paintess, causing a mere stinging sensation.

The needle is inserted paintessly into the follicle alongside of the hair, completely destroying the papalla of hair germ, so the hair can never grow again. Leaves no sear nor trace; nover fails; length of time depends upon the number of hairs to be destroyed; the presence of the patient is required at the office.

Every lady with hair on her face knows that depliatories, heated wax, pumics stone, the tweezers, acksoors or razor, only makes these hairs grow harsher, coarser, darker and more numerous.

Remember, ladies, this is a delicate surgical peration, and should never be performed except by a physician or surgeon, or under his cept by a physician or surgeon, or under his care.

Dr. Van Dyck is a regular graduate of medicine and surgery; has practiced in Philadelphia for twenty years, and performed the electric needle operation for the first time thirteen years ago, having the honor of being the second physician in the world to perform this operation and the first to use it in Dermatological practice since then the demand for his services in this pecia ty has become so great that he has given up all other practice and makes an exclusive specialty of Electro-Surgery and Dermatology.

No physician living to-day has written so many articles for fashion, literary or scientific ournais on the subject as Dr. Van Dyck has. As an illustration of the universal interest taken it, the Doctor has answered 9,000 letters in the last three years from ladies from every part of the civilized world.

Every lady troubled with superfluous hair every landy troubled with superfluous hair every landy troubled with superfluous hair every march of the civilized world.

Every lady troubled with superfluous hair should consult Dr. Van Dyck, and should read his book, which is mailed free to every one writing for it.

Superfluous hair is surprisingly prevalent. We see it in the drawing room, theatre, on the street, and wherever ladies congregate. At least 55 of every 100 ladies have more or less superfluous hair at some time during their lives. Remember this, no matter if you are 15 or 75, whether you have 20,000 or a few straggling hairs on your face, every one can be desiroyed forever.

IN ITS NERVOUS, BILIOUS, OR CONGES-TIVE FORMS. This Remedy is the prescription of one of the leading physicians of Paris, France, and was used by him with unparalleled success for over thirty years, it was first given to the public as a propertary medicine in 1878. Since which time it has found its way into almost every county on the face of the globe, and become a favorite remedy with thousands of the leading physicians. Medical societies have discussed its marvelous success at their annual conventions, and after their official chemists have analyzed it and found that it contained no opiates, bromides or other harmful ingredients, onletly placed it among their standard remedies.

For Ladies' Wear—special shapes in special leathers for the foot afflicted with a corn, bunion or sensitive joints; for the foot that cannot, without pain and much discomfort, bear the pressure from seams that prevail in most makes of footwear. Those here are Front Seam Button Shoes, sometimes called "The Gipsy Cut." They have but a single seam, it extending from top to toe—none on the sides whatever, insuring to the foot positive comfort within and perfect shape without. The uppers are Paris and Freuch Glova Kids. The Paris Kid is soft, glosay, and possessed of excellent wearing qualities; soles heavy hand-turned, extra flexible, requiring no "breaking in." We have them in widths B, C, D and E. Hand-sewed grades at \$4 per pair. Machine-sewed, in Pebble Goat and Curacos Kid at \$2. A trial of our hand-sewed shoes suffices to convince the most skeptic that for positive ease and comfort in wear they are unrivalled by any other make sold in this city.
