tricians proposes to draw freight and passenger trains at rate of from 175 to 200 miles as hour. "Competent engineers declars that there is nothing to prevent cars from moving at that rate of aport if motive power sufficient to drive them can be obtained. The design proposed contemplaises a car wheel five feet in dismiter, this being over two feet prestor than the ordinary American car wheel. With a thirty-three inch wheel the rotation is 425 times a minute, and a speed of seventy miles a minute has been ob-tained. With a five foot wheel the rotation is 425 times a minute has been ob-tained. With a five foot wheel the rotation would have to be increased to but 1.000 a minute to attain a speed of 200 miles an hour, and those who have studied the mat-ter ary the wheel would not be injured in the least by this great rate of speed." "Could that rate of speed be maintained on the lines of railroads now in use?" "That is a question that has not yet been fully decided on. The system would in a measure be independent of grade, and lines could therefore be laid nearly straight, and curves of small radius avoided. The polling stock proposed is of a very much lighter character than that now is use. One model proposed is a low ager Pugh. The opening concert and sociable of the Lancaster Liederkranz will be held in the hall of the society on Monday evening next. It will be for members and their families. families. John Gruel's ice wagon struck Henry Stapt's butcher wagon on Prince street, near the opera house, on Wednesday. A spindle was broken from the latter vehicle. James A. McDevit, of this city, was among the large party who welcomed Mr. and Mrs. Chris. L. Magee and State Senator Rutan, who arrived in New York from Europe, on Wednesday. Five lodgers that were in the station house last night were discharged this morning by the mayor. The first street car that has ever crossed

Marriage and Divorce Postpond. In the Episcopal general convention in New York on Wednesday marriage and divorce, the change of name and the col-ored question wore considered. Early in the convention Mr. 8. Corning Judd, of Chicago, who in 1889 was sponsor for pro-posal to eliminate the words "Protestant Episcopal" from the tille'of the church, in-troduoid a resolution that the words Ameri-can church be substituted for the "Protes-tant Episcopal church" on the tille page of the prayer-book. When the joint committee on flurgical revision reported in the morn Mr. Judd in explaining that the change did not require a constitutional amendment, expressed the conviction that a majority of the committee scemed to be ratified by the aughter which greeted his remark. The committee's report and Mr. Judd's resolu-tion were, on his motion, referred to the nate. One. World. An office in New York looked something like a dime museum on Wednesday when nine Samoan warriors, in charge of R. A. Gunningham, went there to secure their teamship tickets for Europe. They are of medium height, square-shouldered staft, one of the leaders in the rescue of the American sailors at the time of the hur-rion, Letungaifo, Lealoft, the poet of the party, who composes impromptin songs on party, who composes impromptin songs on row occasion; Tu, Foi and Tasita. The other and four of his companions were partisans of Matasia. The other four were followers of Tamases. They all have intelligent faces, their hair is long, bushy and naturally black, but they black it until it is of a brick color. At mome their principal clothing is cocca-nut oil and a breech clout of tafs cloth ware chosen clothes more satiable to the soccasina. They tattoo themelves in a row by the point, to the mulber with a row by the point, to the mulber with a row by the point, to the mulber of two mulberry bits in the bark of the mulbers, in one soccasina. They left Apialast June and sock to the music of two mulberry, fur-tions, They kept perfect time both in their anging and in the movements of the bodies. They left Apialast June and contents and took up a war song started by the point, to the mule of two mulberry bits in anging and in the movements of the bodies. They left Apialast June and contents and the key to Germany. Mr. Contribut could make no satisfactory ar-ter now on their way to Germany. Mr. in New York looked a <text>

Mr. Gladstone Speaks. Mr. Gladstone delivered an address at Southport Wednesday evening. He was enthusiastically welcomed, the hall being crowded two hours before the opening of the meeting. Mr. Gladstone reviewed the work of the Liberal party during the past 21 years. He powers to postpone a European crisis. He referred to the Cretan question as a formid-able menace to the peace of Europe. He criticised at length the government's work, and claimed that all its useful measures were Liberal.

criticised at length the government's work, and claimed that all its useful measures were Liberal. The speech was short and somewhat dis-spointing. Mr. Gladstone made a point by declaring that the principle of the dock strikers applied to tenants and tradesmen in Ireland would have been penal. He was touched by the election gains, and believed that if they could end the septennial act and appeal to the people to morrow the verdict would be in favor of the Liberals and jus-tice to Ireland. The bulk of the speech was devoted to Irish grievances. He said that the necessity of the continued pro-claiming of new districts was evidence of the failure of the coercion policy and de-clared that the crime rate was now the same as in 1884, when, in order to secure the sup-port of the Parnellites, the Tories declared that coercion was no longer necessary. Mr. Gladstone said he was unable to lay before his hearers a scheme of Liberal pol-icy for the future beyond the outline al-ready well known.

Cupid's Work.

Cupid's Work. From the Lewiston (Me.) Journal. Silas Emerson, who died in Sauta Clara, Cal. last week at the age of seventy-four years, leaving an estate valued at \$10,000,-000, was a nailve of Harrison. Me., and is said to have gone to California on account of an unhappy love affair. The young lady to whom he was engaged, like the heroine of Locksley Hall, let her parents influence her to break the engagement to marry somebody else, and so she gave up the workingman for a Boston lawyer. Desir-ing to escape from her vicinity, the disap-pointed youth went West with the gold-seekers of 1840, where, instead of mining, he began to build huts where the city of San Francisco now stands. His invest-ments in real estate made him rich.

A Wheel Torn Of.

This afternoon Warren Drumm, a school teacher of Martie township, was driving up Bouth Queen street, and he attempted to up how in concentrates, and he attempted to cross the reliroad track, which is six or eight inches above the level of the street. The result was that he had a wheel torn off. This street is in bad condition. The western side of it has such a slope that it makes driving upon it dangerous. The car track is out of condition and Constable Elchoitz threatens to return it to court.

much lighter character than that now in use. One model proposed is a low light car with an electric motor driv-ing it, being simply a development of the present system employed on street cars. Another plan is to provide a series of suc-cessively emergized stationary electro-magnets of great power. The first cost of the permanent way would be great, but the expense of operating the road would be less than that of the present sys-tem. While some railroad men treat this dea as ehimerical, many well-known rail-way managers, engineers and electrical journals of high reputation predict that if sufficient capital is furnished, within five years there will be lines in this country over which passengers are carried at the road of from 175 to 200 miles an hour."

A dispatch to the Herald from Berlin mys Count von Moltke had a phonograph shown him some days ago at his country shown him some days ago at his country shown him some days ago at his country ment of Creisau, in Silesia. The field mar-shal expressed the opinion, duly recorded by the machine, that "Mr. Edison's newest invention is, indeed, astonishing. The phonograph makes it possible for a man who has long rested in his grave to lift up his voice again and speak to posterity."
The venerable strategist then quoted the remarkable passage from Gothe's "Faust." beginning, "Ye instruments mock me with wheel and combs, with cylinder and han-die."

He had been all-ling for some time, but was able to move about until a fex days before death, when he sank rapidly. Mr. Ruth was a native of Berks county. He had been a teamster for Schrick & Feet, beer bottlers at Reading, for a period of sevencen years, until about eight years ago, when he took charge of the Brickerville hotel, which he con-ducted in such excellent manner that he was pronounced the best hotel-keeper that ever occupied that house, and besides won hosts of friends. The remains were con-veyed to Reading on Thurday, where in-terment took place at Allenbach's cemetery. Rev. D. C. Tobias officiated at the funeral.

The Country Dances The balls or dances which are given nearly every week at some of the hotels within a few miles of Lancaster are rather tough affairs. The folks who attend the dances are all from this city, and on the nights that they take place people of all kinds are hauled from this city in omni-buses and cabs. The last event of this kind was held at the Roseville hotel on Nobody was held at the Roseville hotel on Tuesday evening. During the night there were quite a number of fights. One big woman blackeneds young fellow's eyes and several men had their heads punched. Nobody was hurt a great deal, but there were a number present who deserved to be killed. case

Apples May Kill This Cadet.

Apples May Kill This Cadet. Cadet William A. Carter, of West Point, is unconscious in the hospital at the mill-tary academy. The Kingsley estate, which was recently turned over to the scademy, was thrown open to the cadets for the first time last Saturday. After Car-ter had partaken of a hearty din-ner he and others left the barracks for the orchard of the Kingsley estate. They partook freely of the apples and Car-ter stopped at a spring and drank some cold water. A few seconds later he sud-denly fell to the ground and has been un-conscious ever since. It is very doubtful whether will recover.
