Taken Unawares Unsuspected causes for malaria exist everywhere. A sunken lot partly filled with water in the vicinity of your abode, a new location upon land filled in, but formerly overflowed or upon land filled in, but formerly overflowed or marshy, and causes far more occult than these produce the atmospheric miasmata which constitute the germs that, if inhaled, ripen into fever and ague and congenital maladies. A person taken unawares with a malarial complaint should, as soon as it declares itself, seek aid from the safe, non-disappointirg, cordial medicine, Hostetter's Stomach Bitters, which has for over a third of a century and in every quarter of the globe relieved the malaria stricken, and neutralized miasma in air and water. The Bitters imparts activity to the stomach, bowels and liver, repels inciplent rheumatism, and remedies inaction of the kidneys and bladder. It was just an ordinary scrap of wrapping paper, but it saved her life. She was in the last stages of consumption, told by physicians that she was incurable and could live only a short time; she weighed less than seventy pounds. On a piece of wrapping paper she read of Dr. King's New Discovery, and got a sample bottle it helped her, she bought a large bottle, it helped her more, bought a nother and grew better fast, continued its use and is now strong, healthy, rosy, plump, weighing 169 pounds. THE ELIXIR OF LIFE. that a Prominent New York Doctor line to Say Upon the Subject Which is Attracting So Much Attention.

Attracting to Much Attention.
"Do you believe in the Elixir of Life?" I sked of a prominent New York physician re doctor thought a moment carefully, and "Certainly I do, but not in the way in Doctors frown-lesquard or Hammond heat describing it. All that has been said press of the land for the past months that constituty is needed to saviet and that constituty is needed to saviet and

have been describing it. All that has been midin the press of the land for the past months
prove that something is needed to assist and
satisfant the vital and often failing forces of life,
but Nature never intended the human body for
injections and they are always injurious bemuse unnatural."

"But is it not often done, Doctor?"

"I am serry to my it is. Morphine injections are far too common and they are the greatcause of that fairful living death known as the
options habit. There is but one way to properly
reach or sustain the vitality and life, and that
is through the stomach, and there is no discovery of modern times, which, if rightly used
does this so thoroughly, keeps back disease and
prolongs life, as pure whiskey. Mind you, I
say pure whiskey, for all else is injurious. The
effect of a pure article like Dusty's Fure Mail
Whiskey, are practically those of an 'elixir of
itse.' It some up and strengthens the system,
without injurious reaction or without the formation of any habit. It tends to renew life in
the aged and restore it to those in middle life.
For roman aspecially, who are weak, langula
or suffering as most women are, it is almost invaluable. All physicians learn those things
from their practice, and cannot but be believere in a track and sensible 'elixir of life' like this
pure article of which I have been apaching."
The Doctor himself seemed to be a good example of the truths he advanced for his strong
frame and clear eye showed him to be in perfeet health, and I fert him much impressed by
the ricerness, truth and common sense of his
statements.
