ABOUT A GYMNASIUM.

A Correspondent Who Thinks the College Should Have One At Once. A correspondent of the Intelligences sends the following communication in regard to a gymnasium, which the college

stands in need of: LANCASTER, Dec. 4, 1889. If anyone thing has been illustrated in ancaster during the past month, it is the bet that every institution of learning must fact that every institution of learning must blow its own horn. In view of the great number, of colleges and universities founded in the eastern part of our land, no one seat of learning can afford to let its light sizzle under a bushel while that it its neighbor stands high on the hogshead at pablic favor guiding patronageto its doors. The end in view is the same, no matter by what means brought about—whether it be a glee club, alumni dinners, lectures abroad by the professors, or a victory in athleties. The city of Lancaster to-day is aware of the fact, more than ever before, that there is an institution in her midst whose interests are identical with her own, in whose glory and fame the city shares, and whose increased pairona e means for in whose giory and fame the city shares, and whose increased patronage means for her not only an elevated status in the literary world, but advantement in her material interests as well.

The students at Franklin and Marshall religious paperd appually thousands of the

olige spend annually thousands of dolors right here in the city of Lancaster.

Leavy three additional students will bring a na additional one thousand dollars.

Wherefore, any plan which will increase he number of students should meet with the hearitest approval on the control of the contro the number of students should meet with the heartiest approval on the part of the citizens. Such a scheme is now affoat, i. e. the building of agymnasium. Aside from the physical beneat to those privileged to use the same, a well-equipped gymnasium assures greater skill in athleti's, hence wider advertisement in foreign parts, hence greater territory from which to draw patronage, and a larger number at matriculated students each year. We hope the business near at Lancaster will organize the impost at the above when the subscriphated specific parts.

Will Hold a Banquet.

The meeting of members of the old Friendship fire company, held in the board of trade rooms, in Eshleman's building last everling, was attended by about thirty of the old fire laddles of that organization. Tuesday of next week will be the one hundred and twenty-sixth anniversary of the company, and after some talk it was resolved to properly celebrate it by holding a banquet, to which all the members of the company will be invited. John H. Baumgardner, president, and W. Y. Haldy, secretary of the company, acted in those positions of the meeting, and the following committee was appointed to make all arrangements for the banquet: James B. Best, James Fellenbaum, Cooper Knight, Daniel J. Trewetz, jr., and Wm. Y. Haldy,

Lingered Between Life and Death.

Mrs. Geo. P. Smoote, a highly cultivated and estimable lady of Prescott, Ark., writes under date of April 26, 1889; "During the summer of 1887 my eyes became inflamed, and my stomach and liver almost hopelessly disordered. Nothing late agreed with me. I took chronic diarrhea, and for some time my life was despaired of by my family. The leading physicians of the country were consulted, and the medicines administered by them never did any permanent good, and I ingered between life and death, the later being preferable to the agonies I was enduring. In May, 1888, I became disgusted with physicians and their medicines, I dropped them all, and depended solely on Swiff's Specific IS, S. S., a few bottles of which made me permanently well—well from then until now."

MADE HIS LIFE A BURDEN.

I have had scrofula until it made my life a burden. I was inexpressibly miserable, sick, weak, sleepless, and unhappy; desiring that the short time which seemed to have been allotted to me on this earth would hasten to an end. I tried doctors' treatment and medicine, and travel, but none of these did any good, for the scrofula gradually grew worst. One physician, who I traveled far to see, and to whom I paid \$150, gave up the case as hopeless. I then gave up all other medicines, and took only swift's Specific is. S. S. J. Four bottles of that medicine cured me, and for the past four years I have had as excellent health and I am as free from disease as anybody living.
