

MIND WHERE YOU SMOKE.

If You Are Not Careful You May Poison Yourself. Fresh Meat, With the Knowledge of the New Orleans Daily States. Experiments have been made recently by M. Bourrier, Inspector of meat for the city of Paris, as to the effects of tobacco smoke on meat about to be eaten, and he has given the startling results he has obtained in the Revue d'Hygiene.

The results, we say, are startling; for whereas up to late date the fact that he had any idea that there might be anything deleterious or even injurious in meat impregnated with the fumes of the weed, M. Bourrier has established the fact that in that condition it is always active, and often virulently, poisonous.

For example, he cut some beef into thin slices and exposed it for an hour or two to tobacco smoke and then offered it to a dog which had been kept fasting for twelve hours. The hungry quadruped, nosed it and left it severely alone. M. Bourrier then cut some of the same meat into small pieces and concealed it between slices of bread. The dog devoured the bits with avidity; in twenty minutes he commenced to display distressing symptoms of poisoning, and, in a little while longer, he died in great agony.

Similar experiments were performed on many other dogs, and on rabbits and guinea pigs, and recourse was had to injecting the juice of the weed in various parts of the body, and the results were wanting. The result of the experimentation in every case without exception was the same, the effect being only more or less pronounced.

And the feature of M. Bourrier's discoveries that should be of special interest to our citizens is the fact that the meat that is not got rid of by culinary processes. For he tried it not only raw, but roasted, grilled and boiled, and in every case he found that the nicotine bacillus or poison germ was as lively after subjected to the fire as it was before. Herein is the salient fact that cooking does not remove the toxic effects in meat tainted with nicotine, and the discovery in consequence assumes a universal interest.

Consequently, therefore, should be taken to prohibit smoking in places where food, especially moist foods, fats and certain fruits, are exposed. There is a very common practice in restaurants, where the lady is particular not to have her hangings and carpets soiled of the odor of the stale tobacco, to make smokers retire to the kitchen for half an hour with their pipes and other paraphernalia of pleasures. In the kitchen the whole is often hung up near the fire for the purpose of drying. Meat so exposed is not safely used as food.

The mild powers cure—if a cathartic is needed to rid the blood of nicotine and stimulate the action of the liver, use Laxador, Price 2 cents.

If there were called a meeting of babies and young children and the question put to vote who would rather smoke than eat, the unanimous vote would be "Dull," for he gave us his wonderful "Baby Syrup."

Grave Cause for Anxiety. Exists when the kidneys lose their activity. Prompt measures should be taken to renew it, otherwise Bright's disease, diabetes, or some other organic trouble, is to be apprehended as a consequence. Hostetter's Stomach Bitters is a most desirable diuretic, as its stimulative action upon these organs never ceases.

Perhaps no local disease has puzzled and baffled the medical profession more than nasal catarrh. While not immediately fatal it is among the most distressing, and disgusting, ailments the flesh is heir to, and the records show very few or no cases of radical cure of chronic catarrh by any of the multitude of modes of treatment with the introduction of Ely's Cream Balm a few years ago. The success of this preparation has been most gratifying and surprising.

Special Notices. Mothers! Mothers! Mothers!!! Are you distressed by the loss of your young child suffering and crying with the excruciating pain of cutting teeth? If so, go at once and get a bottle of Mrs. WILSON'S SORRELIN SYRUP. It will relieve the poor little sufferer immediately—depend upon it; there is no mistake about it. There is not a mother on earth who has ever used this medicine, but who has not said that it will regulate the bowels, and give rest to the mother, and relief and health to the child, operating like magic. It is perfectly safe to use in all cases and pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States. HOOD'S SARSAPARILLA.

Rheumatism is believed to be caused by excess of lactic acid in the blood, which is the result of the kidneys and liver to properly remove it. The acid attacks the various tissues, particularly in the joints, and causes the most manifestations of the disease, pains and aches in the back and shoulders and in the joints at the knees, ankles, hips and wrists. Thousands of people have found in Hood's Sarsaparilla a positive and permanent cure for rheumatism. This medicine, by its purifying and vitalizing action, neutralizes the acidity of the blood, and also builds up and strengthens the whole body.

Wonderful Properties. "I have taken Hood's Sarsaparilla and found it excellent for rheumatism and dyspepsia. I suffered for many long years, but my complete recovery is due to Hood's Sarsaparilla. I recommend it to every one because of its wonderful properties as a blood medicine." JOHN KULLMAN, 25 Chatham Street, Cleveland, Ohio.

Inflammatory Rheumatism. "I just want people to know that we think Hood's Sarsaparilla the best remedy for inflammatory rheumatism in the world. My husband had this terrible affection for two years and Hood's Sarsaparilla helped him more than anything else. I am always glad to tell what Hood's Sarsaparilla has done for me." MRS. F. ATKINSON, Salem, Ind.
