

THE FARMERS' INSTITUTION.

A LATELY DISCUSSION ON THE SUBJECT OF HORSE RACES AT AGRICULTURAL FAIRS.

Papers Read by Frontalton Grangers. Address by Prof. David Wilson and Miss Belle M. McSparran.

The fourth annual meeting of the farmers' institute in Lancaster county was opened on Wednesday at 2 o'clock in the court house. The meeting was called to order by Mr. Calvin Cooper, member of the State Board of Agriculture, after which Mr. James Woods, of Little Britain township, was elected president, and Mr. Johnson Miller, of Leesport, secretary.

EXPERIMENTS IN FARMING.

H. G. Runk, of West Willow, read an address on the subject of experiments in farming. The motives of most agricultural papers would lead one to infer that farming is a science, and that the farmer should be a scientist.

Mr. J. C. Linville said that in trying to raise a crop of corn, he had found that the soil was the most important element. He thought that the farmer should be a scientist.

Prof. S. B. Helges, of Cumberland county, thought that labor on the farm had been exchanged for comfort. In days past the farmer had to work hard for his bread.

Rev. Dr. C. W. Stewart, of Colerain township, said that the farmer should be a scientist. He thought that the farmer should be a scientist.

Mr. Chandler said that farmers should be a scientist. He thought that the farmer should be a scientist.

Dr. E. O. Iyie, principal of the Millersville State Normal school, followed with a paper on the subject of "The Science of Farming." He thought that the farmer should be a scientist.

Dr. S. B. Helges, of Cumberland county, thought that labor on the farm had been exchanged for comfort. In days past the farmer had to work hard for his bread.

Mr. J. C. Linville said that in trying to raise a crop of corn, he had found that the soil was the most important element. He thought that the farmer should be a scientist.

Ten or twelve years ago, cattle raising was good in Lancaster county, but since tobacco farming has been indulged in so extensively it has deteriorated.

The evening session of the farmers' institute began at 7:30 o'clock in the court house. There was quite a good sized audience present.

The speaker said that all over the country there appeared to be a depression in farming. He thought that the farmer should be a scientist.

Prof. David Wilson, of Port Royal, delivered an address on the subject of "The Science of Farming." He thought that the farmer should be a scientist.

William H. Branson, of West Chester, member of the State Board of Agriculture, followed with a paper on the subject of "The Science of Farming." He thought that the farmer should be a scientist.

John C. Linville, of Leesport, followed with a paper on the subject of "The Science of Farming." He thought that the farmer should be a scientist.

Dr. J. P. Wickham, of Leesport, followed with a paper on the subject of "The Science of Farming." He thought that the farmer should be a scientist.

ONE VOTE AGAINST IT.

MR. BERTZFIELD DOES NOT APPROVE THE ELECTRIC RAILWAY ORDINANCE.

Councils Give Franchise Without Reasonable Restrictions--A Resolution Offered by Mr. Riddle Adopted.

A special meeting of select and common councils was held on Wednesday evening. The object of the meeting was to consider the ordinance granting the privilege and right to operate motor cars, street cars and main line trolleys on the streets of the city.

The select council then were present: Messrs. Everts, Haines, Riddle, Rohrer, Schum, Stormfield and Long, president. Select council ordinance granting the privilege and right to operate motor cars, street cars and main line trolleys on the streets of the city.

When common council was called to order the following members were present: Messrs. Everts, Haines, Riddle, Rohrer, Schum, Stormfield, Dinan, Eager, Frantz, Fresh, Kreider, Rill, Sing, Underwood, Young, Zook, Board, president.

Following is the ordinance as it passed council: An ordinance giving and granting the privilege and right to operate street cars and main line trolleys on the streets of the city.

Section 1. It is ordained by the select and common councils of the city of Lancaster that for the purpose of introducing electricity as a motive power, the city of Lancaster shall acquire the right to operate street cars and main line trolleys on the streets of the city.

Section 2. That whenever the city of Lancaster shall acquire the right to operate street cars and main line trolleys on the streets of the city, the city shall be bound to construct and maintain the same.

Section 3. That the select and common councils of the city of Lancaster shall have the right to regulate the operation of street cars and main line trolleys on the streets of the city.

Section 4. That the select and common councils of the city of Lancaster shall have the right to regulate the operation of street cars and main line trolleys on the streets of the city.

Section 5. That the select and common councils of the city of Lancaster shall have the right to regulate the operation of street cars and main line trolleys on the streets of the city.

Section 6. That the select and common councils of the city of Lancaster shall have the right to regulate the operation of street cars and main line trolleys on the streets of the city.

Section 7. That the select and common councils of the city of Lancaster shall have the right to regulate the operation of street cars and main line trolleys on the streets of the city.

Section 8. That the select and common councils of the city of Lancaster shall have the right to regulate the operation of street cars and main line trolleys on the streets of the city.

Section 9. That the select and common councils of the city of Lancaster shall have the right to regulate the operation of street cars and main line trolleys on the streets of the city.

Section 10. That the select and common councils of the city of Lancaster shall have the right to regulate the operation of street cars and main line trolleys on the streets of the city.
