THE OHIO RIVER HIGH.

FLOODS DRIVE HUNDREDS OF FAMILIES FROM THEIR HOMES IN INDIANA.

The Water Continues to Rise and Expected to Nearly Equal the Height Attained in 1884—Farmers Lose.

EVANSVILLE, Ind., Jan. 17.—The river at this point passed the danger line on Thursday at 8 o'clock last evening, and is still rising at the rate of half an inch an hour. The prospects now are that the water will reach a much greater height than at any time since the flood of that year. With a rapidly rising river at this place and advice of an additional rise of the upper Ohio and side streams the situation is anything but encouraging.
