LANCASTER, PA., February 12, 1890.

Will It Lead To Extravagance.

The Philadelphia Press attempts to prove that the best results in legislation may been secured by giving the major-ity full control in Congress. It is stated that "the work of hampering the majority and securing economy by rule was adopted as a systematic policy by the Democratic majority elected in 1874, and beginning legislation in 1875." So seconding to the *Press* the Democrats ere so eager for economy that they demelves. How different from the Re-publican majority now in power. Truly the Press has confessed to an exalted opinion of the broad-minded self-sacrileing patriotism of Democratic congressmen. No, they did not hamper them tional rights of the minority as guarded by long established precedent, and as-seried by every consideration of justice and far-seeing statesmanship. They re-membered what the Republicans have gotten, that the time might come when they would be a minority with

rights worty of respect." The Press proceeds to consider the ap-propriations of the House in the last urteen years and notes that they inmed, while in the ten years from 1967 to 1876 the net ordinary expendi 1967 to 1876 the net ordinary expendi-tures of the government decreased. It would have been very astonishing in-deed if government expenses had not shown some decrease in the years follow-ing the war, and it must be remembered that even in those years the minority was never over-ridden as Speaker Reed and his slaves are now trying to over-ride it. As for the increase, it was durride it. As for the increase, it was dur-ing years when the Republicans held overnment and the Senate, and for two years the House, excepting only the time of the Cleveland administration, when the Senate was aggressively Reblican. During the ten year era of publican extravagance referred to our navy went to ruin, although it cost us so much that we should ave had a magnificent ironclad feet ; but the many scandals of that graceful era need not be repeated, and n who know the facts can only wonder at the effrontery of this Republican reference to them. The expenditures of recent years have grown with the nation, and quite naturally the appearexpenditure. No thoughtful, patriotic zen can fail to view with concern this combination of perils now con-fronting the nation,-taxation largely in excess of public needs, and a majority in full control pledged to maintain the taxes and tempted by a growing sur-

country similar to the interest of Ameri-cans, and hardly greater. English news is published in the American dallies quite as faily as in any Canadian paper, and the annity to England remaining from two wars is not much greater than that surving conquets in French Canada. Canada has no more reason to seek closer union with Great Britain than closer union with Great Britain than America would have to go back under the crown, and the mere suggestion of such a thing can only hasten the day of absolute independence and brighten the prospect of union with the states.

The Trust Building Blockade. It will be a matter of much congratu-lation to the people of this town when the building of the Trust company is so far completed as to restore the sidewalk of the chief business street to its ordi-dinary use. We do not think that in any other town such interruption of the use of a principal sidewalk would have been permitted ; and it is not creditable to any of the persons connected with this enterprise that this imposition should so long have been practiced. The structure has been on the way an unconscionable time and the interest lost in this way should of itself have been a

sufficient inducement to prompter work to say nothing of the demands of the to say nothing of the demands of the public convenience. In other cities there is sufficient regard for the public shown by its executive officers to re-quire the sidewalk to be kept clear during the erection of buildings in busy streets. In Philadelphia the largest structures are erected upon the business streets with no interruption of travel ; and is there any other town in the country whose mayor would calmly see the public put out into the street for a year or more to suit the convenience of a building contractor?

THE Carnegie library and music hall, of Allegheny, cost three hundred thousand dollars and it took two years and five months to build, the material being Maine granite. Lancaster is not at all jealous, but at one-third of that figure she could build a hall and library that would make a man's eves snap.

It is not necessary to look abroad for proof of the danger and error of the subsidy idea; we have tried it in this country. Before the war the Collins steamships reeived between eight and nine hundred dollars a year for several years, and from 1867 to 1877 the Pacific Mail Line was paid about four and a half millions, while various other lines have received subsidies. Failure seems to be the certain result, ooner or later, of every scheme of subsidy

THE queen's speech at the opening of Parliament, on Tuesday, was quite as dreary and colorless as the message of President Harrison.

LITTLE PORTUGAL is tumbling all over itself in haste to lock the stable door after the horse is stolen. Having yielded to British demands, because the capital was at the mercy of ironclads, she now decides to strongly fortify the Tagus, to build at once eight war-ships and establish a torpedo

MR. E. S. MORROW, city controller of Pittsburg, refused an increase of salary from four to six thousand dollars on the ground that his service was not worth that much. With its natural gas and Controller Morrow Pittsburg has more than her fair share of natural marvels.

THE Mormons appear to have been pretty well "kicked out" in Salt Lake City and should now prepare to flee to Canada or Mexico.

The Revolt Against Reed. A DISPATCH from London announces It is gratifying to see that the Re- that the British government has completed

Pleading For Service Pension. Governor Hovey, of Indiana, president of the Merrice Pension association of the United States, appeared on Tuesdiay before the House committee on hwalld pensions in support of a service pension bill. He add that such a bill, haused on the resolutions of the Monse committee on the resolutions of the National Encampment of the G. A. R., asking a service pension of S a month and one cent additional for every day served by the pensioner in access of 800 days, would not involve a cost of more than \$16,000,000-almost the sum received for the taxes on liquor and tobacco-which, he thought, ought to be maintained for pension purposes. Pleading For Service Pe

It Will Do It. Food will lodge in the interstices between the teeth, and it becomes a source of their decay. SOZODONT will dislodge such deposits, and prevent the mischlef. All parents should pro-vide SOZODONT, and thus secure the health of

eir children's teeth. Mrs. Jones, how is your health this morn-ing ? Thank you, madam, much improved. I bought a bottle of Dr. Bul's Cough Myrup hat night, and, after the first dose, my cough was checked, I slept well, and have not coughed once this morning. Accidents will occur not only "In the best regulated families," but everywhere and st all times. Therefore keep Salvation Oil conve-nient.

"I Don't Want Bellef, But Cure," is the exclamation of thousands suffering from catarrh. To all such we say : Catarrh can be cured by Dr. Mage's Cutarrh Remedy. It has been done in thousands of cases ; why not in yours ? Your danger is delay. Enclose a stamp to World's Dispensary Association, Buffalo N. Y., for pamphilet on this disease. W.Th&w

HOOD'S SARSAPARILLA.

TOTALLY HELPLESS

TOTALLY HELPLESS From Sciatic Rheumatism—Wholiy Curred by Hood's Sarsaparilla. The fact that rheumatism is caused by accu-mulation of acid in the blood, and the fact that Hood's Sarsaparilla in science of the fact that Hood's Sarsaparilla in curing this disease. "In May, 1885, I was taken with sciatic rheu-matism in my legs and arms. It entirely pre-vented me from working, and I was confined to my bed entirely helpless. I had medical at-tendance and in August, I was just able to move around. I was reduced to a mere skels-ion and my appetite was entirely gone. It was hought by all my friends that I could not pos-sibly live. I took almost everything I could hear of, but with no good results, during that winter. One day, reading about taking Hood's sarsaparilla in March, April and May, I con-cluded to try it. One bottles, and since then I hay eneral health has never been better. My appetite is increasing and I am gaining in flesh hattribute my whole improvement 'to taking

my general neutrinois never been better. My appetite is increasing and 1 am gaining in flesh, I attribute my whole improvement to taking Hood's Sarsaparilia, and I earnestly recom-mend it to all who are troubled with like dis-case. I consider it the greatest medicine ever put up." WM. F. TAYLOR, Emporium, Came-ron Co. Pann. ron Co., Penn.

SWIFT SPECIFIC CO.

Lingered Between Life and Death.

Lingered Between Life and Death. Mrs. Geo. P. Smoote, a highly cultivated and estimable lady of Prescott, Ark., writes under thate of April 29, 1899: "During the summer of 1837 my eyers became inflamed, and my sto-mach and liver almost hopelessly disordered. Nothing I ate agreed with me. I took chromie diarrhose, and for some time my life was de-spatied of by my family. The leading physi-clans of the country were consulted, and the medicines administered by them never did any permanent good, and I lingered between life and death, the later being preferable to the agonies I was enduring. In May, 1888, I be-came disgusted with physicians and their medicines. I dropped them all, and depended solely on Swift's Apecific (N.S. N.), a few bottles of which made me permanenty well-well from then until now." MADE HIS LIFE A BURDEN. I have had scrofula until it made my life a

MADE HIS LIFE A BURDEN. I have had scrofula until it made my life a burden. I was inexpressibly miserable, sick, weak, sleepless, and unhappy; destring that the short time which seemed to have been allotted to me on this earth would hasten to an end. I tried doctor,' trainment and medicine, and travel, but none of these did any good, for the scrofula gradually grew worse. One physic clan, who I traveled far to see, and to whom I paid \$159, gave up the case as hopeless. I then give up all other medicines, and took only Swift's Specific (S. S. S.) Four bottles of that medicine cared me, and for the past four years I have had as excellent health and I am as free from disease as anybody living." F. Z. NELSON, Fremont, Neb.

Wanamaher's,

Pattaparenta, Wolmeday, Feb. 12, 180. One thing you can always depend on here: We are with the market or below it, more often below it than any other way.

It's easy enough for an hon-est maker to get "all silk" into an Open Mesh Grenadine. The hard part is to mesh the smooth, hard threads so they won't slip. It can be done, a very few makers do it. The yards they turn out are not

ones that go a-begging. Here is Open Mesh Black Silk Grenadine from the best two makers we know of. Rich in lustre, new, fresh goods, and for as little as ever, despite the advance in raw silk prices. 23

inches wide, 75c, \$1, and \$1.25. The 23-inch Satin Striped Black Silk Grenadine is an old favorite. 2, 21/2, 3, and 4 inch stripes, \$1.25.

We have Choice, Pure, Plain, Buckwheat, that with Pleishman's Yeast makes the finest Buckwheat Cakes. We also have Hecker's and Stevens' Self-Raising CORNMEAL Granulated, Brinser's Klin-Dried and White Cornmeal Cornmeal. OATMEAL AND AVENA, Cracked and Rolled Wheat, always fresh. Im-ported Macaroni and Vermicelli. CHEEME-Dutchhesd or Edom, Pine Apply, Sapango, Roquefort, and York State Full Crean. A CARLOAD OF SALT.-Just received, a car of Coarse and Fine Salt, of superior quality. HONEY! HONEY! Fine Comb Honey; also, Orange Blosson Honey in bottles, and Rendered Honey by the pound. Northwest of centre Bourette Borders, 6 inches to half a yard deep, come on some of the newest stuffs. Oddly pretty and in seven styles. \$1.25 and \$1.50. FURNITURE.

That Mammoth Block of Newest and Latest Designed

blican members of Congress are not all ready to obey the lash of the speaker, but that some of them have fairness enough to accede to the reasonable de-mand of the minority party for time to discuss the rules. In view of the closeness with which the Republican members cling to the speaker in his arbitrary rulings, it is surprising that they now show such independence. It is due doubtless to the fact that the self respecting members feel the humiliation they have endured in yielding so much to the demand of party unity as they have done, and they were therefore it good condition to revolt from any further self abasement.

We hardly can hope that they will let this righteousness carry them far enough to accept amendments to the rules that have been formulated by their party committee; but surely they must feel an urgent pressure from their conciences to do so; and it may be that when the vote is taken they will be in good enough temper to vote as they think rather than as their party leaders demand. The break which has been made in the party following ought to bear fruit in the establishment of a fair set of rules, which will be a com-promise of the diverse sentiment. No doubt the count of the members present as a part of the quorum will be insisted upon, but it may be so guarded as to de-prive the speaker of the power of making a quorum when none is actually present. It should not be impossible to do this.

The time will come when the Republican party will be in a minority ; and it seems to be a foolish exercise of present power to establish such rules as will be indeed oppressive of a minority. No such generosity can be expected of Democratic majority, as that it will refuse to avail itself of a whip that has been placed in their hands by the minority when they are in power. The chickens will come home some day to roost. Certainly the Republican leaders know this ; and their present course can only be inspired by a purpose to take care of themselves now at the cost of those who may come after them.

Canada and England.

The Canadian |Senate will soon discuss a resolution offered on Tuesday exng the opinions that the time has arrived when Canada might be accorded representation in the imperial Parlia-ment by giving to the Dominion govern-ment, and to the government of each province a representative holding a representative of the Dominion also held-ing a seat in the Privy Council. This resolution will be the signal for exciting debate in the course of which the ad-vantage and disadvantage of imperial connection may be freely compared with the benefits that might arise from union with the states. Canadians are push-ing along so rapidly in their political ideas that the notion of closer union with Great Britain will not now be handled with the notion with Great Britain will not now be handled with the patient respect that would have been given to it a couple of years ago. It is quite plain that no r such union can be firm. The Canadians, whether French or English speaking, have no groupsthy with England of sufficient disputible of their commercial and mighbority sympathies with the United thins. They have interest in the prog-

nt with Lieut. Zalinski, and (4) the Woolwich authorities have been -SWIFT SPECIFIC CO., Atlanta, Ga. ordered to construct fifty guns of his THEFTHING SYRUP. pattern. So another great American military invention has received best encourage ment from a foreign power.

THE attention of Mr. Henry George is respectfully called to the fact that in addition to the millions of acres of land recently thrown open for free settlement the govern-ment is negotiating with the Chippewas for the free gift to all comers of some three and a half million acres in Montana. There does not seem to be much land monopoly about this.

PERSONAL. SENATOR GORMAN is reported to be

eriously ill. PRINCE BISMARCK is a miller, a paper-maker, a brickmaker, an ironmaster, a coal miner and a brewer.

Coal miner and a brewer. Miss SARAH PHELPS STOKES, who in-herited nearly \$13,000,000 from her grand-father, Isaac N. Phelps, was on Tuesday married in New York to Baron Hugh Colin Gustave Halkett, who is a naturalized Englishman, although his title is a Han-overian one.

overian one. MRS. GROVER CLEVELAND, Mr. Richard Alles, GROVER CLEVELAND, Mr. Richard Watson Gilder, and a number of other men and women interested in educational af-fairs, are organizing a society to introduce free kindergarten schools in New York on a plan similar to that adopted by the Phila-delphia society several years ago. The Public Educational society is in the new work also.

work also. work also. ALEXNNDRE DUMAS, the elder, the cre-ator of Monte Cristo, was never at a loss for an answer. On the first night at Paris of hisson's famous drama, "La Dame aux Camelias," he was wandering about the theatre, his face beaming with pleasure at his boy's success. An acquaintance, wish-ing to say something agreeable to him, ex-claimed : "Surely, my dear master, this is one—I mean you have had a large share in the production of this piece ?" "Certainly, certainly !" replied the old man. " Why, it's author is by me !"

Another Siberian Outrage.

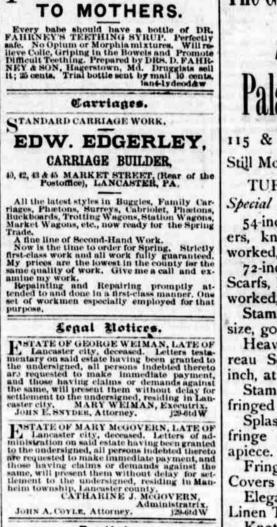

A cipher letter received by the Russian refugees in Paris, dated December 28, gives the details of an awful tragedy in the po-litical prison at Kara, Eastern Siberia. Mme. Nadyda Sihida, of noble birth, was

Mine. Natyda Sinida, of noble birth, was found with revolutionary pamphlets in her possession and sentenced to penal servi-tude. On her arrival at Kara she attracted the attention of the director of the prison, who insulted her. Mine. Sinida resented the insult, and the director, in revence had her stringed and Mme. Sihida resented the insult, and the director, in revenge, had her stripped and flogged in the presence of all the men in the prisen. Such an outrage had not been perpetrated on a woman of rank since the days of the Empress Catharine, and the unfortunate lady was so apprehensive of further shame that she committed suicide on the same day by poisoning herself. This led to suicides of other women and to a revolt of the men. To suppress the revolt the troops were called out, and sheoting, flogging and torturing followed.

Heavy Fallure in New York.

Franklin Woodruff, chairman of the Re-publican general committee of Kings county, N. Y., made an assignment on Tuescay, and it is estimated that his liabili-ties are \$1,500,000.

Tuesday, and it is estimated that his liabili-tics are \$1,500,000. The failure was announced at the Produce Exchange, New York. Major E. A. Hobbs, of Brooklyn, was appointed assignee. The assignee said, regarding the failure, "It is impossible to tell at present the exact amount of liabilities but I should judge the figures will go over \$1,000,000. Mr. Woodruff has been short for some time, owing to his heavy investments in the warehouses. He has been extending his stores along the water front together with his interest in the Grain Elevator company, the business of which has been very much restricted, owing to the grain elevator bill of 1885. Since the trouble began in Hayti he has lost over \$20,000, which was more than he could hold out against. Mr. Wood-ruff has been in business for forty years, and his credit has always been rated high in the trade. I think the suspension will be only temporary, but if it should turn out otherwise Woodruff will not go to the poorhouse. The assignee also said that Mr. Woodruff's connection with politics had nothing to do with his failure.
