ALL medical authorities agree that catarrh is no more nor less than an inflammation of the lining membrane of the nasal air passages. Nasal satarrh and all catarrhal affections of the head are not diseases of the blood, and it is a serious mistake to treat them as such. No conscientious physician ever attempts to do so. It is held by eminent medical men that sconer or later a specific will be found for every disease from which humanity suffers. The facts justify us in assuming that for catarrh at least a pasitive cure already exists in Ely's Cream Balm.
