Robbed of Her Blands Hair. In Cora Bradenburg, of Puoris, III., on a visit to friends in Minnespolis-rather semational asperience Sunday mg. She had cause to go to a drug store shor finishing her purchase marted to the house and after proceeding little distance found that a man was ving her.

wing her. a began to run and the man took after catching her at the corner of Blooming-wenue and Twenty-third street. Selsing oughly he wound a cloth tightly over nouth and dragged her into the shadow shurch. Here the wretch took from his et a pair of shears and cut off her heir to her head. Then he retreated hastily nd the corner of the building and no has been since found of him.

Around The World In Thirty-Eight Days Tijis the intention of the Canadian Pacific Reliway company, as soon as one of their new Pacific stamers is completed, which will be about November next, to carry the world. It is estimated that the round trip will be made within aixty-five days. With a fast Atlantic service, the trip could be made in fifty-three days. When the Trans-tion, a still shorter time, thirty-eight days, will be required to travel round the world in this case the route would be from pacific steamers and railway, from Yoko-hama across the Japan Sea to Vladivostock, and from the latter place to London by rail and Channel steamer.

#### Take Care ! There is Danger

Take Care 1 There is Danger In allowing insciivity of the kidneys to grow through neglect. The deadly shoals of Bright's disease and diabetes will wreek the goodly bark of health if it is allowed to drift rudderless upon them. The bladder, too, if inactive, and judicious medication does not speedily direct the helm toward the path of safety, will be wheimed by the quicksand of disease. In se-lecting a diuretic, let your choice fall upon Hos-tetter's Stomach Bitters, which silmulates the renal organs without frritating and exciting them, two offsets to be apprehended from the numedicated stimuli largely resorted to. These have a tendency to react prejudicially. The Bit-formon with the nerves and the digestive organs, and so afford iasting sid. It also afford dual assistance in preventing and curing inter-nitient and remittent fever. Billousness, con-stigation and rheumatism it also subjugates. Boblytom

ALL medical authorities agree that catarrh is no more nor less than an Inflammation of the lining membrane of the nasal air passages. Na-sal catarrh and all catarrhal affections of the bead are not discuss of the blood, and it is a serious mistake to treat them as such. No con-scientious physician ever attempts to do so. It is held by eminent medical men that sconer or blood for a such that are some of the blood for avery discussed and the second for a such that some of the second for a such and the second for a such that some of a blood for a such and for avery discussed for a such a such a such as the second for a such as the second f later a specific will be found for every disease from which humanity suffers.
