This is a superb line of goods, made by one of the best makers in America. It has a wide repute and ranks high among the leading products of the Crispen's art. The grade of material used in the shoes is the best obtainable; thorough, practical workmen alone are engaged in the making; every thought suggesting improvement in shape may invariably be found represented in them. We have many lady patrons wearing these shoes who will have no others. They are easy upon the foot, attractive and graceful in shape and wear strongly without fault. We have them in is different sizes, I's to 7's inclusive. Each size in 6 different widths—A, B, C, D, E, EE. Have pretty square toe shape—not the blunt chopped off looking square toe out, with vamps fitted just long enough to be neat and becoming—not too long, not too short. Are well fitted and trimmed and highly finished; have strong serviceable counters, and low, flat heel; inner and outer soles.
