Charged With stobbery. John Eberly, a man who resides near the limekiln on the Wabank road, was arrested on Friday by Constable Eicholtz and Offion Friday by Constable Eleholtz and Offi-cer Olt, charged with robbery and drunken and disorderly conduct. The warrants were issued by Alderman Spurrier, who gave Eberly five days for drunkenness. The robbery that is alleged occurred about a month ago, and the prosecutor is Henry Mellrick. He says that he was very drunk one night and fell in with Eberly. They were walking along on St. Joseph's street, this city, and he says that Eberly took from his person a pocketbook containing \$2.50 in money, and a bundle in which were a pair of shoes, knife, and some other articles. The arrest was not made until this late day because Eberly could not be

MR. EDITOR:—For some time back there has been considerable discussion both in and out of the newspapers with reference to putting the Electric Lights in the Penn's R. R. depot. Is it not probable that if the matter was properly presented to the officials of the road that they would give us better light? Many of our large stores, our streets and public buildings are handsomely lighted, and why not our depot? Why don't the Electric Light Co. urge this matter at headquarters. With Are lights the depot could be brilliantly illuminated, and strangers passing through the city would have a better opinion of our standing and progressiveness, It certainly seems strange that the depots in most of the large crites along the line of the P. R. R. can be lighted and we are to be left in the dark.

C. U. Hoke at No. 343 North Queen Street, every Wednesday.

We have more than once referred with pride to the success of Mesers. Anderson & Gressman machinists and engine builders, at the caract of Market and Marion streets; and it gives us pleasure to be able to state that they were never so prespectus as they are to day. They are reliable in every way, and that is one secret of their popularity. Mr. Anderson, as is well liable in every way, and that is one secret of their popularity. Mr. Anderson, as is well known, is as skilled a mechanic as can be found anywhere, and the fact that he was at one time a valued employe of the Corliss works is the best evidence of his ability. He has made the engine his special study for years, and the "Dalay" engine, now being manufactured by this firm, is the outgrowth of these years of study and experiment, "The Dalay" is neat in design, strong, simple, durable, adapted to either high or low speed, and all the partagre made in duplicate pieces. Messrs. A. & G. are keeping up to the times, and their next improvement will be the Automatic Cut Off Engine. Although they recently built an addition. Resping up to the times, and their next improvement will be the Automatic Cut Off Engine. Although they recently built an addition to their works (already noted in these columns), they need more from to-day, and to fill their orders they are compelled to work thirteen hours a day. They now have twelve engines "under way" at their works-four thorse, six 6-horse, and two 2b-horse engines. They have 18 or 2b-engines in use in this city, and two in Philadelphia—all "Daisles." Among those who are using them are Messra, Stirk, of West Orange street, D. F. Buchmiller, Oblinger Bros. & Co., Chas. Palck, G. W. Werner, R. H. Anderson, F. L. Krauskop, J. F. Reist & Co., Geo, Erisman, W. Halbach, H. Witmer, Cornwall, Carter & Mills, Pieasant Grove, Elizabethtown Cresmery Co., W. H. Fink, Strinestown, and Mr. Sharp, of Manheim. Among those using second-hand engines from Fine, Strinestown, and Mr. Sharp, of Manhelm. Among those using second-hand engines from the Anderson & Grossman works are Mr. Mark-ley of Lexington; Chas. Henkell, Lancaster; J. D. Moore, Unicorn; Mr. Grabill, of Peters-burg; Strauss Brothers, of Lancaster; Otto Bros. and M. C. Henwood. This is a wonderful showing for so young a firm, and those in need showing for so young a firm, and those in need of engines are respectfully referred to any of the parties here enumerated. A number of second-hand engines, from two to fifty-horse power, are always kept in stock, and two 2-horse, one 3-horse, four 4-horse, two 8-horse, one 15-horse, one 20-horse, and one 50-horse Corliss—as good as new—may now be seen at the flourishing works at the corner of Market and Marion streets. Take a look at them.
