### THE BIBLE SOCIETY.

### 173 POURTH ANNIVERSARY EXERCISES HELD ON TUESDAY EVENING.

The Secretary Reports the Work Done During the Year-The School Board Meets-Death of an Aged Woman.

COLUMBIA, March 26 .- The fourth anni versary of the Columbia Bible society was observed with appropriate exercises last evening in the Proebyterian chapel. The inclement weather had its effect on the ee, which was small. Hon. H. M. presided, and after devotional exerclass Rev. William P. Evana, of St. Paul's Lutheran church, Baltimore, Md., deliv-ered the anniversary address, which was ing and instructive. Rev. J. H. nebecker followed with the secretary's in which the work was being done in the berough, and thought there was no society, except the churches, with equal im-portance attaching to its work. During the year 97 copies of the Bible have been sold, 157 copies of the New Testament, 5 copies Testament and penime. 11 copies of the pealms, and 7 copies of gospels, a total of 277 volumes. It was a question with the speaker whether the work was not being done too quietly, and he suggested a number of plans for more efficient work. Rev. Pannebecker, also read the treasurer's report. An election of officers to serve for the ensuing year re-sulted in the re-election of the officers of last year, by acclamation, as follows: Hon. H. M. North, president; Rev. J. H. Pannebecker, secretary; Mr. P. S. Brugh, treasurer. A canvass of the audience resalted in the securing of a number of new members for the society. ### A RACE FOR A WIFE.

Two Young Men Take Out Licenses to Marry the Same Girl. Shortly before noon on Tuesday, Jacob H. Sprankle, a farmer of Mogadore, drove up to the court house at Akron, Ohio, his turnout covered with mud and showing hard driving. He procured a marriage license for himself and Miss Lucinda Snyder, of Mogadore. After receiving the precious document, he asked whether another license could be issued for some one else to

license could be issued for some one else to marry the same girl. Being answered affirmatively he grew very excited, and hastily started for Mogadore.

He had scarcely gone when another anxious awain appeared in the person of Hamuel P. Cramer, who took out a license for himself and Lucinda Snyder. Hearing of Samuel La Lucinda Snyder. Hearing and Lucinda Snyder. for himself and Lucinda Snyder. Hearing of Sprankle's prior visit, Cramer held consultation with friends, and is said to have boarded a south bound valley train for Krumroy station, three miles from Mogadore. If he meets with no mishap Cramer should be able to walk the three miles in time to arrive before Sprankle.

The race for a wife apparently thus narrows down to a test of the railroad and a stardy pair of legs against a good horse and buggy. All the persons concerned are well to do and prominent in their community.

A NEW SOURCE OF NATURAL GAS. Richness Struck Near Pittsburg at a Great Depth.

Great Depth.

The centre of the oil and natural gas developments has another feather in her cap. Thomas Liggett has demonstrated a theory he has long held of another sand under Pittsburg and vicinity that will produce gas and possibly oil. It is what is known as the fifth sand of Washington, and from the point at which the test was made, just east of the city, it was found at a depth of 2,442 feet below Pittsburg coal. The gentleman got his theory from the well drilled over a year ago at Duquesne, and decided to make the test east of town, in which it is believed the stratum is in which it is believed the stratum is thickest, and consequently most produc-

thickest, and consequently most produc-tive.

The drill was started on the Stoner farm, a mile and a half back of Verona and only three miles east of the city line. The well was under way several months, and after going through what is known as the Murraysville and all other sands the coveted etratum was encountered. As yet the drill has only punctured the top shell, and just here the tools were lost, thus preventing for a time a thorough test of the new stratum.

In this unfinished condition the well In this unfinished condition the well above an enormous rock pressure of gas. An attempt to shut the well in resulted in bursting the string of casing, which is supposed to withstand a pressure of 800 to 1,000 pounds. The discovery is of the greatest importance, because if the stratum proves as thick and productive as it is believed it gives the city a new lease of life in the natural gas era by insuring a supply of fael from an entirely new source.

Death of James Bateman.

Wm. H. Bateman this morning received a dispatch announcing the death of his brother, James S. Bateman. r, James S. Bateman, at Asbury Park, N. J., who was well known in this city, having carried on paper hanging here for a number of years. He served through the war in Burnside's corps and had an excellent war record. His death resulted from the grip, which first seized him in January and brought on other complications. He was about to years of age and leaves a wife and five children. His many friends in this city will be grieved to hear of his death, which, in spite of his long illness, was very sudden and quite unexpected.

Died in Philadelphia. Mrs. Ella Owena, wife of B. F. Owena, formerly of Lancester but now residing in Philadelphia, died of consumption in that city on Tuesday. She was a daughter of Jacob Bair, of Safe Harbor, 28 years old and leaves one child. The body was brought to Lancaster this afternoon for burial.

Reducing the County Debt. The county commissioners have begun the payment of \$50,000 of the county debt. loads representing that amount were elected by lot some time ago and the holdors requested to present them for payment.
Thus far about half of these bonds have
been paid, and by April 1 all will be paid.

The Commercial Record, published in San Francisco, contains a long sketch of Amos Mecartney, a former Lancaster county man, who is now a pre-A Lancaster Countian in California county man, who is now a prominent real estate agent of that city. He was a son of John Mecarney, who was one of the auditors of this county in 1800. When quite young he started for California on account of the gold frame. of the gold fever. He set sail from Phila delphia and was 205 days making the trip to the Golden Gate. He lived in different parts of California and the territories, and in 1852 returned to Lancaster. California had a charm for him, however, and be returned to that state where he has since

John Hodge of Danbury, Conn., is a mighty man with an oyster or clam knife. He defies any man in the nation to open be walvee as rapidly as he can do it. John opens clams or oysters against time for a wager, and twice this winter has beaten his own record. In a restaurant the other night he opened 1,000 oysters in 47 minutes 2 seconds. The terms of another match provided that he must open 600 oysters while two other men were opening 300 each. They beat him by two oysters. About 500 people saw the contest. In Peter Berud's restaurant on another evening John shelled a gallon of cysters in eight minutes, and in Simon Cotton's place thirty-three and a half quarts of cysters in an even hour. The last cyster he toesed dexterously into the mouth of a man twelve feet away.

Another Danbury oyster opener has won many matches by opening 25 cysters in one Lightning Oyster Openers.

Another Danbury oyster opener has won many matches by opening 25 oysters in one minute, and has never been beaten in a contest of that kind. He is 60 years old and has rheumatiam in both shoulders, but the aliment has never extended to his oyster knife. His name is Charles S. Goodale. He and Hodge are ready to meet any other team of oyster openers in this country or any other.

A Heroine Indeed.

Miss Mamie Donnelly, of New Haven,
Conn., proved herself a heroine on
Monday evening. James Whalen,
aged sixty years was walking along
the Derby railroad and his foot
was eaught in a frog. A train was
bearing down upon the old man, who was
rapidly weakening from his useless efforts
to extricate himself, when Miss Donnelly
ran to his assistance. Cutting open his
boot with a pair of seissors she pulled his
foot from the frog and carried him from
the track just as the train rolled past.

King Malleton's New Boat. King Malieton's New Boat.

One of the finest pieces of work ever turned out at Mare Island navy yard has just been completed. It is a whale boat built for King Malieton of Samon, to be presented to him by this government as a token of esteem for his kindness to American officers and sailors at the time of the wreck of the Trenton and the Vandalia. The boat was designed by E. J. Anderson, of the construction department, and no expense has been spared in its material and fittings.

Wm. Hurst, Wesley Brubsker, John Haller, Wm. Kanonberg, Wm. Rowe and Geo. Killian, boys residing in the southern section of the city, were arrested to-day by Constable Eleboltz for malicious mischief. The allegation is that they broke one of the large French plate windows in the store room of John Ochs. Bail was entered for a hearing.

Withdrew the Application. A week ago John Speidel filed an application for divorce from his wife. On Tuesday the court made an order directing him to pay \$200 to his wife to prepare for trial. To-day Speidel withdrew the application

Steel Trod on Slike's Toes. Alanson Slike and Daniel Steel, young men living at Mount Union, Cumberland county, bad a quarrel on Feb. 22 last on account of Steel stepping on the toes of Slike on coming from church. They had a fight over the affair; when Steel stabbed Slike in the back, from which he died on Monday evening. Steel has been arrested on the charge of murder.

Haldy & Son's Improvements.

Improvements made at the marble yard of Lewis Haldy & Son were noted some time ago. Additional improvements have just been completed, which add largely to the facilities of this old-established marble yard. The additions made were necessary to accommodate the large and rapidly growing business of this firm. They are now prepared to serve those who favor them with their patronage with the best material in the market and with workmanship that cannot be excelled. They show in their that cannot be excelled. They show in their yard and workroom fine specimens in their line of business, and a cordial invitation is extended to all to call and inspect the same.

THE MILLERSVILLE STATE NORMAL SCHOOL.

The Millersville Normal School, which has long been recognized as the leading training school in the state, is better this year than ever before. It is not a mere academy, but a real school for the training of teachers. Its graduates fill many of the leading educational positions in this state.

A Free Kindergarten will be started in connection with the Model School. It will be in charge of an experienced kindergartner. Special training classes in this department without extra charge.

Full state appropriation to students. Write early for room. Visitors are always welcome.

Special Arrangements for Laucaster. The programme of the Millersville Normal School has been so arranged that pupils from Lancascaster may graduate at the school and board at home.

Tuition expenses for pupils preparing to teach: Per week (for 12 weeks, 226; for Summer Session of 14 weeks, \$23; for Summer Session of 14 weeks, \$23; total tuition for year, \$39.

A State appropriation of \$50.00 is given to

Session of 14 weeks, \$13; total tuition for year, \$39.

A State appropriation of \$50.00 is given to Graduates. It is thus seen that High School oraduates and others, who complete the Normal School Course in two years, may do so at a total tuition of only \$28.

Special rates to pupils are given by the Street Raifroad Company.

Bummer Session of Fourteen Weeks begins Monday, March 31st.

Is it worth anything to you, Ladies and Gentlemen, to have a place where everything is exactly what it is sold for? Where everything is exid at the lowest it can be made for? Where everything in shoes will be found as it should be—if coarse, made strong; if fine, made fine? Where you can buy with confidence, without limit? If so see the many desirable lines of "Waukenphasts" now here—\$2.50 grades, \$2.50 grades, and other qualities between, prices likewise. There's nothing new to tell of their merits—you've heard the story repeated-ity. They're fashioned in accord with the natural shape of the foot, affording positive case and comfort in wear. In them more walking may be done with less hurt and fatigue than in almost any other shaped shoe. So say the makers, so say many Ladies and Gentlemen who've worn and who still wear them. The "Watchman" is a strong, service—able "Waukenphast" for Gent's wear; solld leather throughout, well made and finished. The price—\$2.50—makes it a desirable one.

We've a \$2.616kin grade that's greatly admired; will wear equal to any \$5 grade; it's not so fine—that makes the difference in price.

Another kind is here at \$4—a pretty shaped one, too. It's not so broad as the \$2.50 and \$5 makes and has points of excellence not possessed by those cheaper.

And up the price goes farther, likewise the quality—\$5, \$5 and \$6.50 a pair. At the lister prices no maker makes them hetter. We make good their faults when you find them.

Ladies' Waukenphasts, in fine leathers, at \$5. hetter. We make a you find them. You find them. Ladies' Waukenphasts, in fine leathers,
