These Utes are said to be retrograding rather than advancing, and it is charged that they are so lazy and shiftless as to be a burden upon the whites, but no serious attempt to push them forward has been made and the tribal system of ownership of land discourages individual effort. Poor Lo is a hard case, and has instituted all flexible under the most his civilization difficult under the most favorable conditions, but the long agi-tation for their removal has been a condition very unfavorable to progress. The whites who settled near these Indians did so with their eyes open and cannot now complain of their neighbors, much less urge that they should be moved away to bother some one else, and in fact the people of Utah living near the proposed new reservation are strong objectors to the removal. The reservation selected for them is remote from the lines of travel followed by whites, and hemmed in by deep canons and swift rivers, makes a secluded and safe retreat where game is plenty and where the savage may continue in bar-barism, and no doubt practice horse stealing and other knavery to his heart's

In a nutshed the whole basis of this movement for the Ute lands is the desire of whites to get possession of them, and the excuse is that the savages can not and will not use them. The friends of Indians reply that they can be taught to use them, and in avidence of this point to tribes already well on in civili-zation. THE New York Home Journal publishes letter from Mr. H. Oxnard Ward, a vealthy believer in Keely, the motor nan, who offers five thousand dollars to any university in New England that will end a physicist to witness Keely's exgive an opinion until the nature of Keely's liscoveries has been made known to him and he has seen the demonstrations which Keely is ready to make in proof of his laims as a discoverer, not as an inventor." The fund is to be applied by the university to experimental researches in the deld of molecular vibration. It is evident hat Mr. Ward believes that Keely has dissovered some important scientific fact which he does not know how to make use of. At any rate it is clear that Mr. Keely s master of one very rare secret—he knows how to live on promises and brive on failures.

GEN. H. V. BOYNTON, Washington correspondent of the Cincinnati Commercial-Gazette, published something about Col. Arnaud, a Russian. Arnaud called Boynton a coward, and the general threw the colonel through the doorway of his office into the street. SENATOR BECK. who it was rumoved.

atter apologizing said he was firmly convinced that he was not a coward.

Senator Beck, who it was rumored contemplated resigning, declares he will hold his seat until 1895. He has not been able to attend to his public duties formore than a year, and is rarely seen in the Senate chamber. Prior to the close of the long session of the last Congress Senator Beck broke down from overwork, and for some time his friends were very apprehensive about his condition. He has never fully recovered, and his physicians have advised him that any effort on his party to perform mental work will be exceedingly dangerous. Senator Beck has been one of the most active and useful men in Congress. He was on all financial questions the recognized leader of his party in the Senate, and his prostration is largely due to his work on revenue and financial questions, in connection with his service on the finance committee.
