LANCASTER, PA. DON'T BE HUMBUGGED!

Don't Be Humbugged!

It has often been said by strangers who have been here working their quositonable, but profitable, methods of advertising their busi-ness, that the people of Lancaster are easily Humbugged.

Is This True?

Can any business house in Lancaster or any other city afford to give 10 per cent. off on all goods purchased of them for 90 days of the best season of the year, to merely (as claimed) test the efficiency of advertising, and to saccertain the number who read and believe advertise-ments. ments.

There is not 10 Per Cent. Clear Profit in the Shoe Business in Lancaster to day. There may have been in War Times, but with competition so strong all means are resorted to to catch

trade.

Granting that the house would do a business of \$2,000 per month, for the Best Three Months of the Year, or \$6,000 in all, it would mean \$600 given back to purchasers, which a first thought would show it impossible to do except by putting not less than 10 per cent.on the goods before purchased.

A One-Frice System does away with these questionable methods, as all customers are charged alike for goods, which are marked in Plain Figures, and not in Letters or Characters and sometimes not at all, where a Get-All-You-Can-System prevails.
