THE SHOE SHAPE FOR WALKERS!

MEN'S

Men's "Wankenphasts." Of shoes this shape we've had something to say once before this spring. A new make is here to-day for the first time. They are marked to sell at \$5 a pair. At no price above it is there any make of "Wankenphasts" in the market sleeker nor neater shaped than these. In many of the leading shoe stores of America to-day they are supplanting the higher priced shoes of renowned makers. The reason for this becomes apparent to every shoe man after a critical examination of the many points of excellence possessed by them. These "Wankenphasts" are described by the makers as "an every-day shoe of points of excellence possessed by them. These "Waukenpinasis" are described by the makers as "an every-day shoe of moderately stout waiking weight for men who waik or stand a great deat. The fronts are of superior califskin of a standard wearing weight, cut whole, without seams at the side. The tops are Dongola, soft, pilable and damp proof. The sewing of the soles, called stitched aloft, is a special feature. The stitches show on the bottom. This gives more strength to the stitch and flexibility to the sole, which is very desirable, the latter being of a stout substance, tough and serviceable. Nothing is used in this line of "Waukenphasts" that will in any way cheapen them. They fit the formation of the bottom as well as the top of the foot, hence are positively easy and comfortable in wear. The best evidence that skilled work people alone are engaged in the making of them is the best attested by closely examining and judging them upon their merits. We bide favorable result with confidence.

Other grades of "Waukenphast"—12.50. Slound 54 kinds. Pleasures to 12.50. Slound 54 kinds. Other grades of "Waukenphast"— 12.50, \$1.00 and \$4 kinds. Plenty sorts to choose from. It will be easy for us to
