THE SHTELLIGHUER, Lancaster, Pa.

LANCASTER, PA., May 1, 1890.

A bill has been rushed through the ouse, after but a few hours' debate, bich will add some fifty millions of cliars to the pay roll of the country.

Is called a service pension bill and applements the present pension provice for invalid soldiers, which costs 08,000 annually, by giving a pension eight dollars a mouth to all vil war soldiers and soldiers' widows years old, during the remainder of lives ; and to all soldiers of any beer lives; and to all soldiers and bied; from any cause, a like pension; and to all indigent widows of the sol-diers of the war the same pension.

It is a question for the sober judgment If the country as to whether this ex-rayagant legislation is warranted by ablic policy, and whether there is any roper occasion for such expenditure in harity to those who were soldiers in the civil war. No doubt everyone would be glad to see the indigent or of the country cared for. It is a atter of public duty to take care of one who cannot provide for themves and who have not close relaes to provide for them. This is proper duty of the state, but not of nation; and the ground upon which is national charity may be dispensed ot that it is a charity, but that it is a bt justly due by the federal govern-ent to the soldiers whom it employed suppressing the rebellion. It is not id that it was in the governut contract with them; but is claimed that is but a proper ard for their services. Yet the rved for three months as to those who soldiers during the war. And it is iven to them only when they reach the

The logic that justifies it to the sixty-pars-old equally demands it for the sol-lier of any age. If the service is worth a month after the ex-soldier reaches years, it is worth it, clearly, when he but fifty. It is entirely clear that his gratuity is given as money earned, t as a charity; and it follows that all men of this country 60 years old, d their widows 60 years old, are ly entitled to a share of the shower; d more deserving it if they are poor an the ex-soldier who is not poor. Such a wholesale distribution of the

consury money will not, we believe, commend itself to the judgment of the suntry, nor will the hurried and seed legislation be approved that sacted it. The committee on also, of whom the speaker is one and epublican House leader, McKinley, er, and one of whose Democratic mbers is in the grave, with his place the committee and in Congress unported in the morning a rule call-g for a vote upon this bill, which to dispense from forty to sixty mil-ions of dollars, before the adjournment the House the same day ; the speaker ad the Republican majority forced its tion and under it secured the pasof the law. The measures of legistion that receive the approval of the caker and his party are made into laws ring the shining of one sun. The onduct of the government is assumed by the majority without hearkening to the minority. The burthen of their feeds will bury them.

Another Revelution. We are grieved to learn that several was have been burt by the breaking at of a revolution in Paraguay. There was be comething wrong in the method confining these South American revotions of they would not break out often, and in this particular case was surely great carelessness on part of the injured people. In a where the thing happens so often is no excuse for anyone getting art by a revolution. The news is more distressing because the public a been led to suppose that Secretary laine had arranged to secure the peace South American republics by a syson of arbitration approved by more tan half the delegates to the Pan-merican Congress. The agreement of delegates was supposed in some ure to assure the consent of the centries they represented, but if Paradelegates represented a governat now deceased, and the new ne may not be disposed to accept Blaine's pretty little arbitraplan. It is necessary to jump lively South American diplomacy in order keep pace with the revolutions, and araguay appears to have jumped out the pan. The news is all the more aquieting because that little state has sen styled by recent travelers a country women, most of the men having been illed off in war with Brazil. If the maining men have been so rash as to injured in a revolution there can be the hope of reaching any understandwith Paraguay about anything, but suggested that Mrs. Sarah Althea-Terry might be sent down there as sister plenipotentiary and envoy said fall in the way of the next revoion when it breaks out.

That Beaver.

That remarkable Beaver, who is our sernor, awaits advice from Speaker and before he consents to order an action to fill Mr. Randall's place. so is no known law which calls the governor to leave a repreve's seat vacant until the speaker the failure of the governor to order dection can only be ascribed to his understood disposition to act as y for the party bosses. The Repubin Congress have no use for a moeratic member in Mr. Randall's and Governor Beaver is ready to the district unrepresented. The baby says he awaits official remation of Mr. Randall's death. Sovernor's dense stupidity is loos, but he will hardly be credited so little sense as to be charged with

truthfully stating the reason for his in-action. To entirely unmask him, how-ever, we suggest that he be furnished with an official certificate from the rec-ords of Philadelphia, of Mr. Randall's

Let Us All Have a Hack at It.

We present to-day the condition of the canvase among the Republican contestants for the offices of this county, which is to be decided upon the coming Saturday. The practical election of the county officers then takes place and we are interested in branching who are interested. in knewing who are to be the men.

It is, of course, not a wholesome thing for the public that the political wire-pullers of one party shall have complete sway over the filling of offices that are theo-

retrically supposed to be filled at an election held of the whole people.

We suggest an amendment of the primary election laws which will authorize the voters of all parties to particular to the particular to ticipate in the nominations made by all of them. It is true that there is a large participation by Democrats in Republi-can primaries by permission or invitation of the election officers, but the privilege might be better extended if it was ffered by the law to all voters. It may be objected that the resultwould be poorer instead of better nominations, because of the desire of political opponents to foist bad candidates upon their focs; and there is plausibility in the idea. There would be much more force in it if nominations that are equivalent to an election were not generally so bad that they can hardly be worse.

KAINER WILLIAM is building a big steam yacht, larger than any ship of the class affoat. It is rumored that when it is ready he will come over to take a look at the

DEMOCRATIC councilmen of Brooklyn, refused to adjourn on Monday, because it was General Grant's birthday, and some Republican papers begin to talk about the rebel yell in Brooklyn. They note that these same councilmen voted money for decorating the public buildings on St. Patrick's Day, but fail to explain what that has to do with the case. Even the celebra-tion of Washington's birthday fails to awaken much enthusiasm, and the birth days of Lincoln and Grant cannot be expected to receive very general recognition This country has enough to do in the birthday line, when it celebrates itself on the Fourth of July.

THE Philadelphia Record cries "let us have peace" and proposes to begin by stopping the building of war ships. That is the very best way to have war. If we build a navy it may never have to fire a gun, and that will be the best evidence of ta usefulness. Weakness invites attack. Strength encourages respect. The strongest men are usually the most peaceful.

THE Detroit Free Press quotes a famous astronomer as authority for the statement that "the stars stand up there like hard brick in a wall and all the twinkling is done by your eye." This is sad for the author of "twinkle, twinkle, little star," but the eminent astronomer fails to explain why the eye does not make the planets twinkle. These optical illusions are getting very embarrassing. Suppose, for iustance, that the candidacy of Brother Myers and all the twinkling of the other political lights is only an optical illusion.

THE Colliers' Protective Union is distributing circulars in Boston appealing for a boycott against coal hoisted by machinery, and protesting against labor saving ma-chinery in general. This effort to counteract the tendency of the age can not be permanently successful, and although the men who suffer by the introduction of machinery are to be pitied, they seem to be the introduction of machinery is usually more than balanced by the benefit to the great number of users of the product of labor, who get it in the end so much cheaper. For the present the Boston users of coal hoisted by machinery may save very little, because of monopoly in control of the machinery or patents on it, but in the end there will be chesper coal for the thousands of poor who use it.

Notsy patriotism will be expensive next Fourth of July, for New York importers say that there is a short crop of fire crackers, owing to strikes in the factories in China. One large dealer in Chinese noise said : "The usual supply of firecrackers is about one million boxes. This year all that can possibly reach this country by the Fourth of July will not exceed four hundred and fifty thousand boxes, or less than half what will be called for. One ship—the Wandering Jew—arrived from China yesterday bringing 135,000 boxes after a trip of 106 days, the usual time for the voyage being 120 days. There is another ship, the Great Admirat, on the way from China, with a big cargo of firecrackers, but she can't possibly get here before August 1st. We can't make firecrackers in this country. They would cost us \$5 a box to manufacture. You can form some idea of their slight cost in China when I tell you that they can be brought from Hong Kong, half way 'round the world, to New York, pay 100 per cent. duty at the custom house, and be sold for eighty-five cents a box, as they were last year." So patriotism is taxed a hundred per cent., and there is no hope of building up a firecracker factory.

31 and 33 North Queen Street, LANCASTER, PA.

THE MT. GRETNA Narrow Gauge Railway will be opened for the sumer season on

MONDAY, MAY 5th

This road extends from the entrance of the Park to tae summit of the South Mountain (Governor Pick), a distance of about four miles. Its miniature trains connect with all the regular passenger trains on the Cornwall & Lebanon Raliroad arriving at the Fark, and returning from the summit of the mountain in time to connect with trains leaving the Park.

From points on Penna. R. R. and Philadelphia & Reading R. R., within 100 miles, the trip can be accomplished in one day.

It is the NARROWENT GAUGE in the world, it is the most PERFECT IN ITS CONSTRUCTION, it has also the MOST COMPLETE EQUIPMENT. Its engines are perfect little models of the standard engines of the first-class, and its cars are expecially adapted to afford an unobstructed view of the magnificent scenery along the line. Steel Raits. Stone Ballast. It is one of the features of CLOTHIERS, MERCHANT TAILORS AND
