A Young Physician Married.

On Tuesday afternoon a very quiet wedding took place at the residence of Jacob Mayer, a well known citizen of Manheim township, whose pretty home is on the Fruitville turnpike, a sbort distance from town. Mr. Mayer's daughter, Miss Bessie, was married to Dr. W. F. Wissler, a young physician, of this city, who recently moved here from Staunton, Virginia. Only the relatives and close friends of the couple were present at the ceremony, which was performed by Dr. J. Y. Mitchell. The bride and groom left at 4:45 for New York. They will then go on a trip through the South and as far west as the Pacific coast. They expect to be gone about eight weeks.

By Mr. Wise: For the macadamizing of St. Joseph street, between Filbert and Dorwart streets; for the repair of the gutters on Campbell alloy, between Manor and Mary streets; for the guttering of Lafayette street, from Dorwart street westward.

By Mr. White: For the repair of North Prince street, from Clay to Liberty streets, now impassable; for the laying of an asphalt pavement on East King street, between Duke and Lime streets, the property owners to pay the share of the expense provided by city ordinance; for the macadamizing of Church street, between Shippen street and Jefferson alley.

By Mr. Schum: For a crossing at the corner of South Queen and Seymour streets; for a sewer on West Strawberry street from Mulberry to Water street. Accompanying this petition was an agreement of the property owners to pay \$300 towards its building.

All the above petitions were referred to the street committee.

RECOMMEND AN INCREASE OF SALARY.

RECOMMEND AN INCREASE OF SALARY.

Mr. Schum submitted the report of the fire committee. The report contained the result of the annual inspection and a recommendation for an increase of the salaries of drivers and tillerman to \$50 per month. The report was adopted.

Mr. Schum introduced the following ordinance, which was referred to the finance committee and reported affirmatively:

An ordinance to increase the pay of the drivers of the steam fire engines, hose cafts and drivers and tillerman of truck A of the fire department of the city of Lancaster. RECOMMEND AN INCREASE OF SALARY.

Section 1. Be it ordained by the series and common councils of the city of Lancaster, in council assembled, that from and after the first day of June next the fire engines, hose carts and truck, as well as the tillerman of the truck company, shall be fifty (\$50) per month in lieu of the salary now received by said employes aforesaid, and that the said drivers and the said drivers and the said drivers and the said truck of the said drivers and the said driver pelled to uniform themselves. Section 2. All ordinances or parts of ordinances inconsistent herewith are here-

The ordinance was referred to the finance committee and the committee, through Mr. Riddle, chairman, reported adversely on it. In explanation of his position he said the committee were obliged to report adversely because of the lack of funds. The committee found it very difficult to appropriate the money to make it reach. There has been \$17,000 appropriated to the fire department and there is no money to appropriate ment and there is no money to appropriate for increased salaries of drivers. He was not opposed to anything that would add to the efficiency of the fire department, but it

Mr. Everts thought the finance committee was discourteous to the fire committee to kill the ordinance in that way.

Let it come before councils and if it is defeated it is all right. He shought the

Mr. Riddle said the appropriation in the

Mr. Riddle said the appropriation in the ordinance of \$16,000 to pay street damages is for streets opened last year, for which orders were given payable on the next 15th of June. There is nothing appropriated for the streets to be opened this year; in the ordinance is \$5,000 for the Empire house, a debt contracted last year; \$1,800 for hose bought last year; \$2,300 for damages to the Kelly farm, caused over a year ago; a temporary loan of \$22,946, to pay for the erection of a market house, making a total of \$48,000 appropriated to pay old debts.

Mr. McComsey presented the following message from the mayor:

I have dismissed from the police force of the city, for misconduct and violation of the

regulations, Wm. Scheurenbrand. I have appointed Emanuel N. Winower a member the police force in his stead. I respect fully ask your honorable body to approve this removal and to confirm the appoint-ment. Very respectfully, ROBERT CLARK, Mayor.

viding for the refunding of \$6,500 six per cent. into 4 per cent. bonds, that amount more than the ordinance providing for the refunding of the city debt having been presented. Mr. Riddle presented an ordinance ap-

propriating \$4,416 received as premium in the sale of the late city loan to the pay-ment of interest on the city debt. Both these ordinances were referred to finance committee and reported favorably. The report of the finance committee pre-sented by Mr. Riddle showed the routine

business transacted during the month.

The recommendation of the committee that the city solicitor settle the claim o that the city solicitor settle the claim of Michael Leitenberger, for \$150, for damages sustained by reason of the extension of the water main through his premises, was approved. Common council concurred.

Mr. Riddle presented the report of the city treasurer for the month of May. The receipts were \$190,272.38: payments, \$207,-642.51. Balance in treasury \$628.43.

Friends of Fred H. Couch in Birmingham, Conn., have received a letter from him saying that his voice has been restored, and that he can now talk as well as ever. Couch is in Great Barrington, Mass. The accident which resulted in the young man's becoming totally dumb is very peculiar. About two weeks ago he fell, striking his throat against the sharp corner of a table at the Osborne & Cheeseman mill in Ansonia. A short time after Couch was unable to utter a word and the doctors were greatly puzzled. Medical men said they had never heard of such a case. Couch became greatly discouraged, and a few days after the accident started for Great Barrington with his family. On the train he became troubled with an itching sensation in his throat. So intense did the sensation become that it almost drove him to distraction. As the train neared Great Barrington Couch looked out of the window, and turning to his wife exclaimed. "Mother—used—to—go—by—that!" Mrs. Couch was overcome with joy. These were the first words her husband had spoken since the accident. For some time after regaining his voice Couch spoke rather slowly, but now his articulation is as perfect as ever.

Mr. Cleveland's appearance as just a simple, every-day lawyer to plead a small case before the supreme court, two of whose members he himself had appointed, was a rather interesting thing in its way. Such a thing never happened before in the history of this country. Of all the lawyers who have been elected to the presidency no other, we believe, ever went back to the practice of law; certainly no other ever appeared at the bar of the supreme court, some of whose members owed their appointment to him. It was a good, Democratic thing to do, and Mr. Cleveland stood higher than ever with the people when he refused the flattering offers to become president of this or that corporation at a fabulous salary and chose to resume practice at his old profession. All departments in the institution crowded, and it can well be im that the rescue of the poor creatures, i of them old and very feeble and other wild with fear and terrors which added their insane delusion, was by means an easy task. The heaps and citizens worked as best the could to carry, drag and push the it mates out, but the flames spread so rapid that there was little time, and the grewonder is that so many were rescued.

Select council ordinance No. 1, creating a board of health, and ordinance No. 2, prohibiting the sale of goods by principal or agent not engaged in permanent business in Lancaster, without having first obtained a license therefor from the city treasurer, were read a second and third time and adopted by a unanimous vote.

Common council had adjourned before the passage of these ordinances, and there will likely be a special meeting called so that common council can take action.

The ordinances were published in full in the INTELLIGENCER when introduced at the April meeting.

This was referred to the finance committee. The communication of F. G. Musser, in regard to the bad condition of North Franklin street, which was presented to the street committee on Tuesday evening, was brought into common branch by Mr. Auxer and read.

A MESSAGE FROM THE MAYOR.

Mr. Kautz presented the following sage from the mayor:
To the Honorable the Select and Common Councits of the City of Lancaster:
The appropriations for the next fiscal year will be under consideration by your honorable bodies prior to the time fixed by the city charter for the executive to communicate annually to councils "the condimunicate annually to councils to its govern-Mr. Kautz presented the following mesmunicate annually to councils "the condi-tion of the city in relation to its govern-ment, finances and improvements." In view of this I venture at this time to make certain recommendations with regard to the "business and interests of the city" which it may be well to keep in view in fixing the annual appropriations.

A recent personal visitation to, [and inspection of, the various branches of the fire department confirm my favorable opinion of its efficiency as an organization and of the fidelity of its individual members. my judgment they should be uniformed, and to make adequate provision for this, and in appreciation of this constant attention to duty, I recommend an increase of their compensation.

At the present meeting of councils will be offered the petition of hundreds of leading citizens and heavy taxpayers, praying for an appropriation to aid in the erection of a bridge across the Conestoga at a point within the city limits known as "Reigart's Lending." The research support of such Landing." The reasons in support of such a proposition are correctly expressed in these petitions. This improvement in the southeastern part of the city would meet with general favor and be of public benefit.

In justice to private as well as for the pro-motion of public interests, I recommend to councils favorable consideration of this

councils favorable consideration of this petition.

The condition of South Duke street, along what is known as "The Dump," demands immediate attention from councils and the street department. The roadway should be unade to conform to the established grade, and all dumping in excess of this should be abated and prohibited to save the city from liability for damages.

An enlarged water supply to residents upon high ground in the city is a subject that cannot be too earnestly pressed upon councils. The raising of the stand pipe is one practicable means to this end. It is also worth consideration whether the 20-inch main that supplies the remoter and higher sections of the city should not be connected with the stand-pipe instead of the 12 inch main that needs less pressure and runs to lower points. Improvements like these will entail light expense competitions that the resulting benefits, and if they be to be made, the present is the season to to be made, the present is the season undertake and complete them.

The Welsh Brothers' show is doing weil through the county. They were at New Holland yesterday and had a very large audience at the evening performance. To-day they are at Terre Hill.

Very Respectfully. ROBERT CLARK, Mayor.

mutation of the Death Penalty.

The Rudy case will be a: gued before the board of pardons on Tuesday, May 20, on a motion to commute the death penalty of imprisonment for life.

In accordance with the rules of the board the reasons to be argued must be furnished to the opposing counsel, and to-day the following reasons were served on District Attorney Weaver, E. K. Martin and Wm. N. Apple, who represent the commonwealth in the prosecution:

You are hereby notified that an application will be made for the pardon or commutation of the death sentence of John W. Rudy to imprisonment for life to the board of pardons of the commonwealth of Pennsylvania on Tuesday, May 20, 1800, in the city of Harrisburg, and that the said application will be based upon the following reasons:

1. The commonwealth failed to prove affirmatively that the killing was murder in the first degree; no one saw the act committed, and the evidence showed no ill will; on the contrary, affection was shown to exist between the prisoner and his father.

2. The proof of the alibi was so strong that it must have created a reasonable doubt of guilt.

With Four-ounce Gloves. Bert Price and Allie Willard, two young bloods of Lockport, N. Y., fought five rounds on Tuesday night with four-ounce gloves. The fight settled a dispute over a young lady friend, to whom the young men had been paying attention. The young men were thoroughly angry and pummelled each other viciously. Price knocked Willard down in the first round by an under cut that dazed him. Willard got Price down in the third round and punched his ribs until he was dragged off by the seconds. The fifth and last round resulted in favor of Willard, who landed on Price's nose, knocking him down and drawing the claret profusely. The condition of the fight was that it went to the one who drew the first flood. The battle was fought in the private apartments of Charles Carnes, a prominent young Bert Price and Allie Willard, two young
