Died From Grip and Betursed to IAfe. Haliax letter in the Boston Herald.

A remarkable case is reported from Kennetoot, Hants county. Alfred Miller was some time ago attacked by the grip. Before he fully recovered he went to work in a shipyard, and suffered a relapse, which was even more serious than the first attack of sickness, and which reduced him to death's door. The physician who attended him is one of the most skillful in the country. But his skill was without avail. One day recently the doctor found Miller sinking so fast that he said that the end would come at any moment, and he left the members of the family and their friends watching the approach of death, which apparently ensued in a few minutes. The body became rigid, the flesh discolored, and all pulsation ceased. Preparations were being made for the performance of the last offices, when a member of the family observed a movement of the body, and in a few minutes the young feilow rose to a sitting position, his face regained a natural color, and his conversation became sulmated. Since that time his recovery has been rapid.

Awful Consequences of Impetuosity.

From the Chicago Tribune.

"Emersonia, my daughter," inquired the stately matron, "why did Mr. Brodweigh leave so early this evening? Have you and he quarrelled?"

"Mamma," replied Miss Howjames,
"Mr. Brodweigh kissed me last evening with such unseemly vehemence that he dissrranged my spectacles. I have dismissed him forever."

And the proud Boston girl, pale but s'ernly resolute, turned again to ber volume of Aristotle, and a deep decorous, classically Bostonian stillness pervaded the apartment.

He Was Out of Practice. m the Brooklyn Life.

Mrs. Van Twiller (who mistakes Dr. Jovial for physician)—And where do you practice, doctor? Rev. Dr. Jovial—Ah, madam, I do not practice; I only preach."

Mrs. tieo. P. Smoote, a highly cultivated and estimable lady of Prescott, Ark., writes under date of April 29, 1889: "During the summer of 1887 my eyes became inflamed, and my stomach and liver almost hopelessly disordered. Nothing I ate agreed with me. I took chronic diarrhea, and for some time my life was despaired of by my family. The leading physicians of the country were consulted, and the medicines administered by them never did any permanent good, and I lingered between life and death, the later being preferable to the agonies I was enduring. In May, 1888, I became disgusted with physicians and their medicines. I dropped them all, and depended solely on Swift's Specific (S. S.
