Royal Baking Powder Leads All.

The United States Official Investigation

Of Baking Powders, made, under authority of Congress, by the Chemical Division of the Department of Agriculture, Washington, D. C., and recently completed, furnishes the highest authoritative information as to which is the best baking powder. The Official Report

> Shows the Royal Baking Powder to be a cream of tartar baking powder, superior to all others in strength and leavening power.

The Royal Baking Powder is absolutely pure, made from the most wholesome materials, and produces finer flavored, sweeter, lighter, more palatable, wholesome and delicious bread, biscuit, cake, pastry, etc., than any other baking powder or leavening agent.

Being of greater strength than any other baking powder, it is also the most economical in use.

These great qualities warrant you, if you are not using the Royal Baking Powder, in making a trial of it.
