or of free education was carried last

winter by a large majority, thus greatly strengthening the hands of the advo-cates of this most necessary reform. It was also by a notice of motion the other

day that Mrs. Besant and Mr. Stewart

Headlam tried to re-raise the whole

question of religious instruction by mov-ing that Bible reading should be discon-

tinued in all our schools, a motion which,

being considered at the present moment inopportune, did not find a single sup-

Parties are very fairly divided on the present school board, which adds a

great zest to the divisions. There are about twenty Clericals of cleites, as they are frequently termed, and an

equal number of Progressives or Radi-cals, but between the two there stand about a dozen so called Moderates, who,

on the whole, more frequently vote with the former than with the latter party.

Mr. Diggle combines in his person func-

tions analogous to those of speaker of

the house of commons, a leader of the

government. He acts both as chairman

of the board and as leader of the Cleri-

cals, a combination which inevitably

from time to time produces unfortunate results. As a chairman "pur et simple,"

Mr. Diggle is admirable, with an im-

mense knowledge of business and a con-

siderable sense of equity, but when par-

ty considerations happen to intervene

his judicial impartiality is apt to fail

him. On our side-for I fancy I need

hardly inform my American friends that

Hon. Lyulph Stanley, a clever member

of an exceptionally clever family, is one

of the ablest educationalists and a very

leading spirit, although he finds himself

pretty frequently in antagonism to those

members possessed of Socialistic lean-

We four lady members of the school

board form a very harmonious little quartet in spite of the various differ-

ences of opinion that naturally exist be-

tween us. Our senior member, Miss

Davenport Hill, has for many years ex-

tended her special protection over the distinctively feminine branches of edu-

cation, such as sewing, cooking and

laundry work. Her influence has cer-

tainly been most beneficial in these de-

partments, our methods of teaching sew-

ing to large classes being so successful

that we have been frequently applied to

for advice on the subject from both

America and Australia. Mrs. Maitland.

who has had much local experience of

schools in her own division of Maryle-

bone, devotes her energies mainly to

school management and the selection of

teachers, while Mrs. Annie Besant dili-

gently pashes forward all the labor ques-

tions and does her best to infuse the

proceedings of the board with a Socialist

spirit. It is mainly owing to her exertions that the board now declines to give

contracts for schools to any employer

who does not pay the trades union rate

of wages, a change which was not effect-

an ardent supporter of free schools and

As for myself, I have so far abstained,

intentionally, from taking up any special

line of action as a woman. It seems to

me far more important that women should learn to take their full and equal

share of intellectual work side by side

with men than that they should erect

themselves into a body with separate

and possibly antagonistic claims and in-

terests. This in no way affects my very

firm belief in the immense advantages to

be gained by the presence of women on

the board. In the ordinary routine of

business there arise numerous little

points respecting either the instruction

of the girls or the comfort and well being of mistresses and pupil teachers

which it is obviously a woman's province

to decide. To me, personally, the whole work is full of a never failing interest;

it is thoroughly practical in the best

sense, and in working for the welfare of

the rising generation we have a satisfac-

tory conviction that we are at least be-

GOSSIP OF THE ATHLETIC CLUBS.

The Orange club, a strong social organi-

cake, the liver is always seriously affected, and the blood contaminates with bile. One of the chief reasons why Hostetter's Stomach Bitters is such a sure defense against chilis and fever and every form of malarial disease, is, that it does away with liability to the disease, by reforming irregularity of the biliary organ in advance of the arrival of the season when the disease is prevalent. There is no duer fortifying preparative for those about visiling or emigrating to a locality where the miasua-taint exists. There is no certain transmit from disease in an endemic or epidemic form, to be secured by the use of the average tonics and anti-spaniodics. But where guining fails the Bitters succeeds both in preventing and carring. Moreover, it removes every vestige or dyspepsia, and oversomes constituation, rheumatism, inactivity of the kidneys and bladder, and tranquilizes and strengthens the nervous system. HIRSH & BROTHER,
